Foreword

Preface

xi

xiii

xv

10. Calcium as an Intracellular Second Messenger: Mediation by Calcium Binding Proteins

John R. Dedman and Marcia A. Kaetzel

128

SECTION I

Biophysical Chemistry, Electrochemistry, Metabolism, Second Messengers, and Ultrastructure

1. Biophysical Chemistry of Cellular Electrolytes

Jeffrey C. Freedman

3

2. The Physiological Structure and Function of Proteins

Matthew R. Pincus

18

3. Lateral Lipid Domains and Membrane Function

Friedhelm Schroeder and W. Gibson Wood

36

4. Ultrastructure of Cells

Donald G. Ferguson

45

5. Diffusion and Permeability

Nicholas Sperelakis

61

6. Origin of Resting Membrane Potentials

Nicholas Sperelakis

67

7. Gibbs-Donnan Equilibrium Potentials

Nicholas Sperelakis

91

8. Energy Production and Metabolism

Michael A. Lieberman and Richard G. Sleight

96

9. Signal Transduction

Richard G. Sleight and Michael A. Lieberman

117

SECTION II

Transport Physiology, Pumps, and Exchangers

11. Transport of Ions and Nonelectrolytes

John Cuppoletti

139

12. The Sodium Pump

Earl Taylor Wallick

148

13. Ca^{2+} -ATPases

Istvan Edes and Evangelia G. Kranias

156

14. Na-Ca Exchange Currents

John H. B. Bridge

166

15. Osmosis and the Regulation of Cell Volume

Clive M. Baumgarten and Joseph J. Feher

180

16. Intracellular pH Regulation

Robert W. Putnam

212

17. Polarity of Cell Membranes

Robert W. Putnam

230

SECTION III

Membrane Excitability and Ion Channels

18. Cable Properties and Propagation of Action Potentials

Nicholas Sperelakis

245

19. Electrogenesis of Membrane Excitability <i>Nicholas Sperelakis</i>	255	32. Synaptic Transmission <i>Janusz B. Suszkiw</i>	442
20. Patch-Clamp Techniques and Analysis <i>Raymund Y. K. Pun and Harold Lecar</i>	279	33. Excitation-Secretion Coupling <i>Nicole Gallo-Payet and Marcel Daniel Payet</i>	464
21. Structure and Mechanism of Voltage-Gated Ion Channels <i>Simon Rock Levinson</i>	293	34. Stretch-Sensitive Ion Channels <i>Catherine E. Morris</i>	483
22. Ion Channels in Nonexcitable Cells <i>Bernd Nilius</i>	315	35. Mechanoreceptor and Sonoreceptor Transduction <i>M. M. Behbehani</i>	490
23. Ion Channels in Sperm <i>A. Liévano and A. Darszon</i>	330	36. Cyclic Nucleotide-Gated Ion Channels <i>Anita L. Zimmerman</i>	495
24. Biology of Gap Junctions <i>William J. Larsen and E. Michael Hendrix</i>	340	37. Visual Transduction <i>Anita L. Zimmerman</i>	506
25. Biophysics of the Nuclear Envelope <i>Louis J. DeFelice and Michele Mazzanti</i>	351	38. Olfactory/Taste Receptor Transduction <i>S. Roper</i>	514
26. Regulation of Ion Channels by Phosphorylation <i>Nicholas Sperelakis</i>	367	39. Stimulus Transduction in Metabolic Sensor Cells <i>Stanley Misler</i>	523
27. Ion Channels That Are Directly Regulated by G Proteins <i>Atsuko Yatani</i>	378		

SECTION IV

Ion Channels as Targets for Toxins, Drugs, and Genetic Diseases

28. Ion Channels as Targets for Toxins <i>Kenneth Blumenthal</i>	389
29. Ion Channels as Targets for Drugs <i>R. Kent Hermesmeyer</i>	404
30. Ion Channels as Targets for Genetic Disease <i>S. H. Bryant</i>	413

SECTION V

Synaptic Transmission and Sensory Transduction

31. Ligand-Gated Ion Channels <i>Gary L. Westbrook</i>	431
---	-----

SECTION VI

Muscle and Other Contractile Systems

40. Skeletal Muscle Action Potentials <i>Nicholas Sperelakis</i>	539
41. Cardiac Action Potentials <i>Gordon M. Wahler</i>	556
42. Smooth Muscle Action Potentials <i>R. Kent Hermesmeyer</i>	566
43. Ca^{2+} Release from Sarcoplasmic Reticulum in Muscle <i>Gerhard Meissner</i>	580
44. Contractility of Muscles <i>R. J. Paul</i>	592
45. Amoeboid Movement, Cilia, and Flagella <i>Edna S. Kaneshiro</i>	611
46. Spasmonemes/Centrin-Based Contraction and Bacterial Flagella <i>Edna S. Kaneshiro</i>	638

47. Physiological Effects of Pressure on Cell Function
Thomas K. Akers

655

49. Photosynthesis
Darrell Fleischman

682

50. Plant Cell Physiology
Richard G. Stout

697

SECTION VII Bioluminescence and Photosynthesis

48. Bioluminescence
J. Woodland Hastings

665

Index

727

Thomas K. Akers (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

Clive M. Baergarten (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

M. M. Schochman (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

Kenneth Bieman (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

John H. B. Briggs (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

S. H. Bryant (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

John C. C. (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

A. Harlow (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

Lois J. (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

John K. (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

Ernest (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

Joseph J. (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

Darrell G. (1941) received his B.S. degree from the University of North Dakota and his M.S. degree from the University of North Dakota. He is currently a Ph.D. student at the University of North Dakota.

Harvard University, Cambridge, Massachusetts. He is currently a Ph.D. student at the University of North Dakota.
