

CONTENTS

<i>Contributors</i>	ix
<i>Preface</i>	xi
1. Overview on the Discovery and Applications of Cyclotides	1
David J. Craik	
1. Introduction	1
Acknowledgments	10
References	10
2. Cyclotides in the Violaceae	15
Ulf Göransson, Sohaib Malik and Blazej Slazak	
1. The Discovery of Cyclotides in Violaceae	16
2. Unlocking the Cyclotide Library	17
3. The Violaceae	27
4. Violaceae—The Pharmacopoeia	30
5. Growing Needs and Sources of Cyclotides	33
6. Completing the Circle	37
Acknowledgments	41
References	42
3. Cyclotides in the Rubiaceae	51
Johannes Koehbach and Christian W. Gruber	
1. Introduction	52
2. Discovery of Cyclotides	53
3. Distribution of Cyclotides in Rubiaceae	57
4. Evolution of Cyclotides	69
5. Bioactivities of Rubiaceae Cyclotides	71
6. Conclusion and Outlook	72
Acknowledgments	74
References	74
4. Cyclotides from Chinese Plants	79
Ning-Hua Tan and Wen-Jun He	
1. Introduction	79
2. Chemical Detection Method for Cyclotides	80

3. Distribution and Chemotaxonomy of Cyclotides in Chinese Plants	81
4. Extraction, Isolation and Structural Elucidation of Cyclotides in Chinese Plants	95
5. Biological Activity of Cyclotides in Chinese Plants	107
Acknowledgments	108
References	109
5. Primary Structural Analysis of Cyclotides	113
Michelle L. Colgrave	
1. Cyclotide Discovery—Untangling the Cystine Knot	114
2. Tools for Peptide Sequence Assignment	116
3. Mass Spectrometry	126
4. Application of Mass Spectrometry to Cyclotide Sequencing	134
5. Challenges and Complexities	141
6. Future Prospects	146
7. Concluding Remarks	149
References	149
6. Structural Studies of Cyclotides	155
Norelle L. Daly and K. Johan Rosengren	
1. The Cyclic Cystine Knot	156
2. Structural Features of Cyclotides	158
3. Importance of the Cyclic Backbone	169
4. Dynamics of Cyclotide Structures	171
5. Self-Association of Cyclotides	174
6. Membrane Interactions of Cyclotides	175
7. Grafting of Non-native Sequences	178
8. Conclusions	181
Acknowledgments	181
References	181
7. Natural Functions and Structure–Activity Relationships of Cyclotides	187
Georgianna Kae Oguis, Meng-Wei Kan and David J. Craik	
1. Introduction	188
2. Pesticidal Activities of Cyclotides	192
3. Pharmaceutical Activities of Cyclotides	198
4. Cytotoxic Activities of Cyclotides	204
5. Structure–Activity Relationships	209

6. Concluding Remarks	219
Acknowledgments	220
References	220
8. Biosynthesis of Cyclotides	227
Thomas Shafee, Karen Harris and Marilyn Anderson	
1. Introduction	228
2. Cyclotides are Gene Products	229
3. The Cyclotide Processing Pathway	232
4. Sequence Requirements for Cyclization	234
5. Circularization of Cyclotides is Mediated by a Vacuolar Processing Enzyme (VPE)	243
6. Vacuolar Processing Enzymes (VPEs)	247
7. Circularization of Other Backbone Cyclized Peptides	255
8. Conclusion	260
References	261
9. Chemical and Biological Production of Cyclotides	271
Yilong Li, Tao Bi and Julio A. Camarero	
1. Introduction	272
2. Chemical Synthesis of Cyclotides	277
3. Biological Synthesis of Cyclotides	286
4. Summary and Concluding Remarks	294
Acknowledgments	297
References	297
10. Cyclotides in a Biotechnological Context: Opportunities and Challenges	305
Mark A. Jackson and Edward K. Gilding	
1. Cyclotides in a Biotechnological Context	306
2. Cyclotide Production Systems	315
3. Market Analysis of Cyclotides in Plant Biotechnology	322
4. Future Prospects for Cyclotides and Plant Biotechnology	326
Acknowledgments	328
References	328
Subject Index	335
Author Index	349
