

CONTENTS

Contributors

ix

1. Multifarious Determinants of Cytokine Receptor Signaling Specificity

1

Ignacio Moraga, Jamie Spangler, Juan L. Mendoza, and K. Christopher Garcia

1. Introduction

2

2. Ligand-Receptor Complex Formation: Geometry and Affinity

3

3. Receptor Dynamics and Endosomal Trafficking

14

4. Intracellular Protein Levels and Signaling Activation

19

5. Tuning Cytokine Signaling via Protein Engineering

23

6. Perspectives

28

Acknowledgments

29

References

29

2. Pathogenic Mechanisms of Bradykinin Mediated Diseases: Dysregulation of an Innate Inflammatory Pathway

41

Allen P. Kaplan and Kusumam Joseph

1. Introduction

43

2. Contact Activation: Factor XII-Dependent Initiation of Bradykinin Formation

44

3. Assembly on Cell Surfaces: Binding of HK to HUVEC

50

4. Binding of Factor XII to HUVEC

53

5. Interaction of gC1qR, Cytokeratin 1, and u-PAR Within HUVEC Cell Membranes

55

6. Binding to Other Cells

57

7. Activation of the Kinin Cascade: The Role of Endothelial Cells

58

8. Inhibition of Contact Activation

62

9. Inactivation of Bradykinin

65

10. Further Considerations of the Initiating Site for Bradykinin Formation: Evidence That the PK-HK Complex has Enzymatic Activity

66

11. Hereditary Angioedema (Types I and II=C1 Inhibitor Deficiency)

69

12. Bradykinin Formation When C1 INH is Absent/Dysfunctional

71

13. Type III HAE

73

14. New Modalities for Treatment of HAE

75

15. Proteoglycan-Dependent Activation of Factor XII: Theoretical Mechanisms for Bradykinin Production in "Allergic" Diseases; Particularly Anaphylaxis, Chronic Spontaneous Urticaria, and Rhinitis/Asthma

76

16. Activation of Factor XII by Aggregated Proteins	77
References	79
3. The Role of Short-Chain Fatty Acids in Health and Disease	91
Jian Tan, Craig McKenzie, Maria Potamitis, Alison N. Thorburn, Charles R. Mackay, and Laurence Macia	
1. Introduction	92
2. SCFA Sensing and Signal Transduction	97
3. Varied Functions of SCFAs	103
4. Integrative View of the Gut Microbiota, SCFAs, and Disease	109
5. Perspective	112
References	112
4. Combined Immunodeficiencies with Nonfunctional T Lymphocytes	121
Luigi D. Notarangelo	
1. Introduction	122
2. Immunodeficiency Phenotypes due to Hypomorphic Mutations in SCID-Associated Genes	123
3. Other Combined Immunodeficiencies with Dysfunctional T Cells	130
4. Conclusions	169
References	170
5. The CD200-CD200R1 Inhibitory Signaling Pathway: Immune Regulation and Host-Pathogen Interactions	191
Christine A. Vaine and Roy J. Soberman	
1. Inhibitory Receptors	192
2. The Inhibitory Receptor CD200R1	196
3. Perspective	205
Acknowledgments	207
References	207
6. Immunopathogenesis of Neuromyelitis Optica	213
Michael Levy, Brigitte Wildemann, Sven Jarius, Benjamin Orellano, Saranya Sasidharan, Martin S. Weber, and Olaf Stuve	
1. Introduction	213
2. Aquaporin-4 Antibodies	214
3. Innate Immunity	223

4. Adaptive Immunity	227
5. Summary	233
Acknowledgments	233
