1. B-Cell Receptor Signaling in Lymphoid Malignancies and Autoimmunity

1

Ana M. Avalos, Friederike Meyer-Wentrup, and Hidde L. Ploegh

1. Introduction: B-Cell Behavior in Autoimmunity and B-Cell Malignancies	2
2. Systemic Lupus Erythematosus	3
3. B-Cell Malignancies	4
4. Role of BCR in B-Cell Development and Selection	6
5. BCR Activation by Antigen	12
6. Breakdown of Tolerance by BCR Signaling Components	17
7. Aberrant Signaling Events Downstream of the BCR and Neoplasia	21
8. Tonic BCR Signaling	22
9. Antigen-Driven Malignant B-Cell Persistence	23
10. The Role of Toll-Like Receptors in Breakdown of B-Cell Tolerance in Autoimmunity	26
11. Contributions of TLR Signaling to Altered BCR Activity in Malignant B Cells	28
12. Similarities and Differences Between the Study of Aberrant B-Cell Receptor Signaling in Autoimmunity and in B-Cell Malignancy	29
13. Transnuclear Mice: Filling the Gaps Left by B-Cell Transgenesis	31
14. Concluding Remarks	35
Acknowledgments	36
References	36

2. A Critical Role for Cell Polarity in Antigen Extraction, Processing, and Presentation by B Lymphocytes

51

Dorian Obino and Ana-Maria Lennon-Duménil

1. Introduction	52
2. B-Cell Activation in Secondary Lymphoid Organs	52
3. B-Cell Polarity and Antigen Processing and Presentation	55
4. Extracellular Cues that Tune B-Cell Polarity and Activation	60
5. Concluding Remarks	62
Acknowledgments	63
References	63

3. Force Generation in B-Cell Synapses: Mechanisms Coupling B-Cell Receptor Binding to Antigen Internalization and Affinity Discrimination	69
Pavel Tolar and Katelyn M. Spillane	
1. Introduction: Why Do B Cells Make Immune Synapses?	70
2. Biomechanical Modules in B-Cell Synapses	72
3. Antigen Binding in B-Cell Synapses	80
4. Affinity Discrimination in B-Cell Synapses	83
5. Conclusions and Perspective	92
Acknowledgment	92
References	93
4. The Role of BCR Isotype in B-Cell Development and Activation	101
Elena Surova and Hassan Jumaa	
1. Introduction	102
2. A Precursor B-Cell Receptor	103
3. Self-Recognition By the BCR	113
4. Expression of IgD BCR on Mature B Cells	117
5. Class-Switched BCRs	123
6. Importance of BCR Isotype in B-Cell Lymphomas	126
7. Concluding Remarks	128
Acknowledgments	128
References	129
Index	141
Contents of Recent Volumes	145
