

CONTENTS

Contributors	ix
1. Microbiology of <i>Bacillus cereus</i>	1
Roberta Marrollo	
Summary	1
Background	1
Ecology	4
Phenotype	6
Antibiotic Resistance	8
Concluding Considerations	8
References	11
2. <i>Bacillus cereus</i> Group Diagnostics: Chromogenic Media and Molecular Tools	15
Eugenio Pontieri	
Introduction	15
Culture and Chromogenic Media	16
Molecular Diagnostic Tools	20
The Future of Diagnostics	26
Conclusions	28
References	28
3. <i>Bacillus cereus</i> Hemolysins and Other Virulence Factors	35
Rosa Visiello, Stefano Colombo and Edoardo Carretto	
Summary	35
<i>Bacillus cereus</i> Virulence Factors	35
References	42
4. <i>Bacillus cereus</i> Mechanisms of Resistance to Food Processing	45
Sarah M. Markland and Dallas G. Hoover	
Summary	45
Introduction	45
<i>Bacillus cereus</i> and Challenges for the Food Industry	46
<i>Bacillus cereus</i> and Its Endospores	47
Nonthermal Processing Technologies for <i>Bacillus cereus</i> Spores	51

Use of Hurdle Technology to Reduce the Number of Spores in Foods	55
Conclusions	55
References	56
5. <i>Bacillus cereus</i> Food-Borne Disease	61
Roberta Marrollo	
Summary	61
Background	61
Food Contamination	62
Food-Borne Infection	63
Toxins	64
Differential Diagnostics	67
References	68
6. <i>Bacillus cereus</i> Pneumonia	73
Vincenzo Savini	
Summary	73
Background	73
Pathology	74
Pathogenicity	76
Antibiotics	77
Final Remarks	78
References	79
7. <i>Bacillus cereus</i> Disease in Children	85
Daniela Onofrillo	
Summary	85
Introduction	85
<i>Bacillus cereus</i> in Healthy Children	86
<i>Bacillus cereus</i> in Oncologic Children	87
<i>Bacillus cereus</i> Peritonitis in Children on Chronic Peritoneal Dialysis	89
Concluding Thoughts	90
References	91
8. <i>Bacillus cereus</i> Disease Other Than Food-Borne Poisoning	93
Giovanni Gherardi	
Summary	93
Nosocomial Infections	93

Ocular Infection	94
Central Nervous System Infections	98
Wound and Cutaneous Infections	99
Endocarditis	100
Bone Infection	101
Urinary Tract Infections	101
References	101
9. <i>Bacillus cereus</i> Disease in Animals	107
Vincenzo Savini	
Summary	107
Bovines	107
Goats	108
Veterinary Anthrax	109
References	111
10. <i>Bacillus cereus</i> Biocontrol Properties	117
Vincenzo Savini	
Summary	117
Biocontrol in <i>Bacillus cereus</i>	117
Biocontrol in Organisms Other Than <i>Bacillus</i>	119
Concluding Remarks	121
References	122
11. <i>Bacillus</i> Species Outside the <i>Bacillus cereus</i> Group	129
Vincenzo Savini	
Summary	129
Enterotoxins	129
Emetic Toxins	130
Foods	131
<i>Bacillus licheniformis</i>	131
References	134
12. <i>Bacillus thuringiensis</i> Insecticide Properties	139
Vincenzo Savini and Paolo Fazii	
Summary	139
Background	139
Cry Toxins versus Lepidopteran, Dipteran, and Coleopteran Insects	140

Cry Toxins as Bioinsecticides	142
Resistance to Cry Toxins	143
Dengue	144
Thuringiensin	146
Future Perspectives	147
References	147

Index	157
