PREFACE TO THE SIXTH EDITION	ix
CHAPTER 1 Introduction	1
What Are Viruses?	2
Are Viruses Alive?	3
The History of Virology	4
Living Host Systems	6
Cell Culture Methods	8
Serological/Immunological Methods	9
Ultrastructural Studies	13
Molecular Biology	18
Further Reading	24
CHAPTER 2 Particles	27
The Function and Formation of Virus Particles	27
Capsid Symmetry and Virus Architecture	28
Helical Capsids	30
Icosahedral (Isometric) Capsids	35
Enveloped Viruses	41
Complex Virus Structures	45
Protein–Nucleic Acid Interactions and Genome Packaging	50
Virus Receptors: Recognition and Binding	55
Other Interactions of the Virus Capsid with the Host Cell	55
Summary	56
Further Reading	56
CHAPTER 3 Genomes	59
The Structure and Complexity of Virus Genomes	59
Molecular Genetics	62
Virus Genetics	65
Virus Mutants	66

Genetic Interactions between Viruses.....	69
Nongenetic Interactions between Viruses.....	72
Small DNA Genomes.....	74
Large DNA Genomes.....	78
Positive-Strand RNA Viruses.....	81
Picornaviruses.....	82
Togaviruses.....	83
Flaviviruses.....	83
Coronaviruses.....	83
Positive-Sense RNA Plant Viruses.....	84
Negative-Strand RNA Viruses.....	85
Bunyaviruses.....	86
Arenaviruses.....	86
Orthomyxoviruses.....	87
Paramyxoviruses.....	87
Rhabdoviruses.....	87
Segmented and Multipartite Virus Genomes.....	87
Reverse Transcription and Transposition.....	91
The Virome—Evolution and Epidemiology.....	100
Summary.....	103
Further Reading.....	103
CHAPTER 4 Replication.....	105
Overview of Virus Replication.....	105
Investigation of Virus Replication.....	106
The Replication Cycle.....	112
Attachment.....	112
Penetration.....	118
Uncoating.....	120
Genome Replication and Gene Expression.....	122
Assembly.....	127
Maturation.....	128
Release.....	130
Summary.....	132
Further Reading.....	132
CHAPTER 5 Expression.....	135
Expression of Genetic Information.....	135
Control of Prokaryote Gene Expression.....	136
Control of Expression in Bacteriophage λ	137
Control of Eukaryote Gene Expression.....	140

Genome Coding Strategies	145
Class I: Double-Stranded DNA	145
Class II: Single-Stranded DNA	148
Class III: Double-Stranded RNA	149
Class IV: Single-Stranded (+)Sense RNA	151
Class V: Single-Stranded (-)Sense RNA	154
Class VI: Single-Stranded (+)Sense RNA with DNA Intermediate	156
Class VII: Double-Stranded DNA with RNA Intermediate	156
Transcriptional Control of Expression	157
Posttranscriptional Control of Expression	161
Summary	170
Further Reading	170

CHAPTER 6	Infection	173
	Virus Infections of Plants	173
	Immune Responses to Virus Infections in Animals	178
	Viruses and Apoptosis	183
	Interferons	185
	Evasion of Immune Responses by Viruses	190
	Inhibition of MHC-I-Restricted Antigen Presentation	191
	Inhibition of MHC-II-Restricted Antigen Presentation	191
	Inhibition of NK Cell Lysis	191
	Interference with Apoptosis	191
	Inhibition of Cytokine Action	191
	Evasion of Humoral Immunity	192
	Evasion of the Complement Cascade	192
	Virus-Host Interactions	192
	The Course of Virus Infections	202
	Abortive Infection	202
	Acute Infection	202
	Chronic Infection	202
	Persistent Infection	202
	Latent Infection	204
	Prevention and Therapy of Virus Infection	205
	RNA Interference	209
	Viruses as Therapeutics	212
	Chemotherapy of Virus Infections	214
	Summary	219
	Further Reading	219

CHAPTER 7	Pathogenesis.....	221
	Mechanisms of Cellular Injury.....	222
	Viruses and Immunodeficiency.....	225
	Virus-Related Diseases.....	230
	Bacteriophages and Human Disease.....	233
	Cell Transformation by Viruses.....	234
	Cell Transformation by Retroviruses.....	239
	Cell Transformation by DNA Viruses.....	241
	Viruses and Cancer.....	244
	New and Emergent Viruses.....	249
	Zoonoses.....	256
	Bioterrorism.....	257
	Summary.....	258
	Further Reading.....	258
CHAPTER 8	Subviral Agents: Genomes without Viruses, Viruses without Genomes.....	261
	Satellites and Viroids.....	261
	Prions.....	265
	Pathology of Prion Diseases.....	266
	TSE in Animals.....	266
	Scrapie.....	266
	Transmissible Mink Encephalopathy (TME).....	268
	Feline Spongiform Encephalopathy (FSE).....	268
	Chronic Wasting Disease (CWD).....	268
	Bovine Spongiform Encephalopathy.....	269
	Human TSEs.....	270
	Molecular Biology of Prions.....	273
	Summary.....	279
	Further Reading.....	279
	APPENDIX 1: GLOSSARY AND ABBREVIATIONS.....	281
	APPENDIX 2: CLASSIFICATION OF SUBCELLULAR INFECTIOUS AGENTS.....	291
	APPENDIX 3: THE HISTORY OF VIROLOGY.....	295
	INDEX.....	301
