1. *Bean Common Mosaic Virus and Bean Common Mosaic Necrosis Virus: Relationships, Biology, and Prospects for Control*

1

Elizabeth A. Worrall, Francis O. Wamunje, Gerardine Mukeshimana,
Jagger J.W. Harvey, John P. Carr, and Neena Mitter

1. Introduction	2
2. Taxonomy	3
3. Genome and Structure	9
4. Infection and Symptoms	11
5. Geographic Distribution	16
6. Host Range	18
7. Transmission	19
8. Control Measures	26
9. Grand Challenges: An African Perspective on Control of BCMV and BCMNV	31
Acknowledgments	35
References	35

2. *The Molecular Biology of Pestiviruses*

47

Norbert Tautz, Birke Andrea Tews, and Gregor Meyers

1. Introduction	48
2. Taxonomy, Hosts, and Diseases	51
3. The Genome	60
4. Characteristics and Functions of Pestivirus Proteins	69
5. The Molecular Basis of Cytopathogenicity in Pestiviruses	100
6. Molecular Aspects of Pestivirus Persistence	116
7. Pestivirus—Host Cell Interplay	121
8. Vaccines	123
9. Conclusion	129
References	130

3. Cyprinid Herpesvirus 3: An Archetype of Fish Alloherpesviruses	161
Maxime Boutier, Maygane Ronsmans, Krzysztof Rakus, Joanna Jazowiecka-Rakus, Catherine Vancsok, Léa Morvan, Ma. Michelle D. Peñaranda, David M. Stone, Keith Way, Steven J. van Beurden, Andrew J. Davison, and Alain Vanderplasschen	
1. Introduction	162
2. The Order <i>Herpesvirales</i>	163
3. Cyprinid Herpesvirus 3	174
4. Conclusions	239
Acknowledgments	240
References	240
 4. Human Immunodeficiency Virus Type 1 Cellular Entry and Exit in the T Lymphocytic and Monocytic Compartments: Mechanisms and Target Opportunities During Viral Disease	 257
Benjamas Aiamkitsumrit, Neil T. Sullivan, Michael R. Nonnemacher, Vanessa Pirrone, and Brian Wigdahl	
1. Introduction	258
2. Overview of the HIV-1 Life Cycle with Emphasis on Viral Entry and Exit	258
3. HIV-1 Entry and Coreceptor Utilization	260
4. Selective Pressures Drive HIV-1 Evolution, Adaptation, and Tropism	261
5. Defining the Genotypic and Phenotypic Differences in the HIV-1 Envelope	267
6. HIV-1 Assembly and Release	273
7. Summary of Viral Entry, Coreceptor Utilization, Viral Exit, and Translational Medicine	286
References	291
 Index	 313
