Contributors.....	xiii
Preface	xix
CHAPTER 1 Dynamic Imaging of the Recycling Endosomal Network in Macrophages.....	1
Adam A. Wall, Nicholas D. Condon, Jeremy C. Yeo, Nicholas A. Hamilton, Jennifer L. Stow	
Introduction.....	2
1. Methods	4
2. Experimental Strategies.....	5
Summary.....	16
References.....	17
CHAPTER 2 Analyzing the Functions of Rab11-effector Proteins During Cell Division.....	19
Rytis Prekeris	
Introduction.....	20
1. Methods for Analyzing Proteins Regulating Cytokinesis	22
2. Time-Lapse Analysis of Endosome and Actin Dynamics during Cytokinesis.....	27
Summary.....	33
Acknowledgments.....	33
References.....	33
CHAPTER 3 Expression and Localization of Exocytic and Recycling Rabs from <i>Magnaporthe Oryzae</i> in Mammalian Cells	35
Yaoyao Qi, M. Caleb Marlin, Zhimin Liang, Dongmei Zhang, Jie Zhou, Zonghua Wang, Guodong Lu, Guangpu Li	
Introduction.....	36
1. Materials and Equipment.....	37
2. Methods	38
Summary.....	42
Acknowledgments.....	44
References.....	44

CHAPTER 4	Methods to Analyze Novel Liaisons between Endosomes and Centrosomes.....	47
	Hui-Fang Hung, Heidi Hehnly, Stephen Doxsey	
	Introduction: The Relationship between the Recycling Endosome and Centrosome	48
	1. Live Cell Imaging of REs throughout the Cell Cycle.....	50
	2. RE's Centrosome Localization by Electron Microscopy	51
	3. Centrosome Isolation and Identification of RE Components.....	53
	Acknowledgments.....	56
	References.....	56
CHAPTER 5	Biochemical Analysis of Rabin8, the Guanine Nucleotide Exchange Factor for Rab8	59
	Bin Wu, Juanfei Wang, Yuting Zhao, Wei Guo	
	Introduction.....	60
	1. Method.....	61
	Acknowledgments.....	66
	References.....	67
CHAPTER 6	Simple In Vitro Assay of Arf GAPs and Preparation of Arf Proteins as Substrates	69
	Pei-Wen Chen, Xiaoying Jian, Ruibai Luo, Paul A. Randazzo	
	Introduction.....	70
	1. Methods	71
	Summary.....	78
	Acknowledgment.....	78
	References.....	78
CHAPTER 7	An ACAP1 Coat Complex Acting in Endocytic Recycling	81
	Jian Li, Victor W. Hsu	
	Introduction.....	82
	1. Materials	83
	2. Methods	85
	Discussion and Perspective.....	96
	Acknowledgments.....	97
	References.....	97

CHAPTER 8	Biochemical Methods for Studying Kinetic Regulation of Arf1 Activation by Sec7.....	101
	Brian C. Richardson, J. Christopher Fromme	
	Introduction.....	103
	1. Materials	104
	2. Purification of Required Proteins	106
	3. Liposomes	115
	4. Measuring GEF Activity.....	117
	5. Identifying Protein–Arf1 Interactions.....	121
	6. Supporting Protocol.....	123
	Acknowledgments.....	125
	References.....	125
CHAPTER 9	Rab and Arf G Proteins in Endosomal Trafficking ...	127
	Dipannita Dutta, Julie G. Donaldson	
	Introduction.....	128
	1. Objectives and Rationale.....	130
	2. Materials and Instruments.....	131
	3. Methods	132
	Summary.....	137
	References.....	137
CHAPTER 10	Qualitative and Quantitative Analysis of Endocytic Recycling.....	139
	James B. Reineke, Shuwei Xie, Naava Naslavsky, Steve Caplan	
	Introduction.....	140
	1. Materials	142
	2. Qualitative Assessment of Endocytic Recycling.....	143
	3. Quantitative Assessment of Endocytic Recycling.....	149
	4. Quantification of MHC I Antibody-Receptor Complex Recycling Using Immunofluorescence Microscopy and ImageJ.....	152
	Acknowledgments.....	154
	References.....	154

CHAPTER 11 Methods for Analyzing the Role of Phospholipase A₂ Enzymes in Endosome Membrane Tubule Formation.....	157
Danielle N. Kalkofen, Paul de Figueiredo, William J. Brown	
Introduction	158
1. In Vitro Endosome Membrane Tubule Formation.....	160
2. In Vivo Endosome Membrane Tubule Formation	167
3. PLA ₂ Enzymes in Endosome Membrane Tubule Formation...	174
Acknowledgments.....	178
References.....	178
 CHAPTER 12 In Vivo Analysis of Recycling Endosomes in <i>Caenorhabditis elegans</i>.....	 181
Anbing Shi, Barth D. Grant	
Introduction	182
1. Objectives and Rationale	183
2. Materials and Instruments.....	184
3. Methods	184
Summary.....	195
References.....	195
 CHAPTER 13 Monitoring Receptor Trafficking Following Retromer and WASH Deregulation.....	 199
Douglas G. Osborne, Christine A. Phillips-Krawczak, Daniel D. Billadeau	
Introduction	200
1. Analysis of Retrograde Trafficking: Objectives and Rationale	201
2. Experimental Strategy.....	203
3. Methods	204
4. Experimental Analysis	206
5. Analysis of Integrin Recycling: Objectives and Rationale.....	208
6. Experimental Strategy.....	208
7. Methods	209
8. Experimental Analysis	210
Summary.....	212
References.....	212

CHAPTER 14 Quantitative Analysis of Endosome Tubulation and Microdomain Organization Mediated by the WASH Complex	215
Emmanuel Derivery, Alexis Gautreau	
Introduction	216
1. Imaging of Endosome Tubulation	218
2. Live Imaging of WASH Microdomains	222
3. Quantitative 3D Analysis of WASH Domain Localization in Fixed Cells	225
Conclusion	231
Acknowledgments	232
References	232
 CHAPTER 15 Rab GTPases and Kinesin Motors in Endosomal Trafficking	 235
Cédric Delevoye, Bruno Goud	
Introduction	236
1. Screen for Rab GTPases—Kinesin Interactions	236
2. Spatiotemporal Distribution of Kinesins and Rab GTPases	237
3. Role of the Microtubule Cytoskeleton in the Dynamics of Kinesin and Rab GTPases	239
4. Functional Assays	239
Conclusions	245
References	246
 CHAPTER 16 Measuring Receptor Recycling in Polarized MDCK Cells	 247
Luciana Gallo, Gerard Apodaca	
Introduction	248
1. Objectives and Rationale	250
2. Materials and Instruments	253
3. Methods	257
Summary	266
References	267

CHAPTER 17 Structural and Functional Analysis of Endosomal Compartments in Epithelial Cells.....	271
Andres E. Perez Bay, Ryan Schreiner, Enrique Rodriguez-Boulan	
Introduction.....	272
1. Objectives and Rationale.....	275
2. Experimental Protocols.....	275
References.....	285
CHAPTER 18 Analyzing the Role of AP-1B in Polarized Sorting from Recycling Endosomes in Epithelial Cells.....	289
Heike Fölsch	
Introduction.....	290
1. Objectives and Rationale.....	291
2. Materials and Instruments.....	292
3. Methods.....	293
Summary.....	303
Acknowledgments.....	303
References.....	303
CHAPTER 19 Recycling of the Insulin-responsive Glucose Transporter Glut4 Regulated by the Small GTPase RalA and the Exocyst Complex.....	307
Chao Nie, Xiao-Wei Chen	
Introduction.....	308
1. Objective and Rationale.....	309
2. Materials and Instruments.....	310
3. Methods and Results.....	311
Summary.....	317
References.....	317
CHAPTER 20 GPCR Sorting at Multivesicular Endosomes.....	319
Michael Robert Does, JoAnn Trejo	
Introduction.....	320
1. Objectives and Rationale.....	321
2. Materials and Instruments.....	322
3. Methods.....	323
Summary.....	330
References.....	330

CHAPTER 21 Visualizing and Quantitating Sequence-dependent GPCR Recycling	333
Shanna L. Bowman, Amanda L. Soohoo, Manojkumar A. Puthenveedu	
Introduction	334
1. Objectives and Rationale	335
2. Materials and Instruments	335
3. Methods	336
Summary	344
References	344
 CHAPTER 22 Methods to Study Endocytic Trafficking of the EGF Receptor	 347
Itziar Pinilla-Macua, Alexander Sorkin	
Introduction	348
1. Objectives and Rationale	349
2. Materials	350
3. Basic Techniques	351
4. Experimental Strategies	352
Summary	366
References	366
 Volumes in Series	 369
Index	383
