1. Cytochromes c' : Structure, Reactivity and Relevance to Haem-Based Gas Sensing 1

Michael A. Hough and Colin R. Andrew

1. Introduction	2
2. Occurrence	8
3. Proposed Functional Roles of Cytochromes c'	9
4. Structural Properties of Cytochromes c'	11
5. Spectroscopic Properties of Cytochromes c'	27
6. Structure-Reactivity Relationships in Cytochromes c'	53
7. Relevance of Cytochrome c' to Other Proteins, Including Haem-Based Gas Sensors	72
Acknowledgements	74
References	75

2. Bridging Theory and Experiment to Address Structural Properties of Truncated Haemoglobins: Insights from *Thermobifida fusca* HbO 85

Barry D. Howes, Leonardo Boechi, Alberto Boffi, Dario E. Estrin, and
Giulietta Smulevich

1. Introduction	87
2. An Overview of Resonance Raman Spectroscopy of Haem Proteins	89
3. Computer Simulation Techniques	99
4. <i>Thermobifida fusca</i> Hb	100
5. Spectroscopy and Computer Simulation of Tf-trHb	101
6. Concluding Remarks	118
Acknowledgements	120
References	120

3. Structural Biology of Bacterial Haemophores 127

Paolo Ascenzi, Alessandra di Masi, Loris Leboffe, Emanuela Frangipani,
Marco Nardini, Cinzia Verde, and Paolo Visca

1. Introduction	128
-----------------	-----

2. HasA-Type Haemophore Systems from <i>Serratia marcescens</i> , <i>Pseudomonas aeruginosa</i> , and <i>Yersinia pestis</i>	130
3. The HxuA-HxuB-HxuC Haemophore System of <i>Haemophilus influenzae</i>	143
4. The HmuY-HmuR Haemophore System of <i>Porphyromonas gingivalis</i>	145
5. The Isd Haemophore System of <i>Staphylococcus aureus</i>	148
6. The Isd, BslK, and Hal Haemophore Systems of <i>Bacillus anthracis</i>	155
7. The Hbp Haemophore System of <i>Listeria monocytogenes</i>	159
8. The Rv0203-MmpL11-MmpL3 Haemophore System of <i>Mycobacterium tuberculosis</i>	162
9. Conclusion and Perspectives	165
Acknowledgements	166
References	166
4. The Haemoglobins of Algae	177
Eric A. Johnson and Juliette T.J. Lecomte	
1. Introduction	178
2. Distribution of Haemoglobins in Algae	185
3. The Structure of Algal Haemoglobins	204
4. The Chemistry of Algal Haemoglobins	217
5. Perspectives	224
Acknowledgement	225
References	226
5. The Challenging World of Biofilm Physiology	235
Joke Donné and Sylvia Dewilde	
1. Biofilm Structure and Formation	236
2. Biofilm Resistance	245
3. Biofilm-Associated Infections	255
4. Biofilm Research and Its Challenges	261
References	282
6. Avoid Excessive Oxygen Levels in Experiments with Organisms, Tissues and Cells	293
David Lloyd and Catrin F. Williams	
1. Introduction	294
2. Methods for Measuring O ₂	303
3. Gas Mixing	310
4. Conclusions	311
References	311
Author Index	315
Subject Index	341
