1. The CydDC Family of Transporters and Their Roles in Oxidase Assembly and Homeostasis	1
Louise V. Holyoake, Robert K. Poole, and Mark Shepherd	
1. Overview	2
2. The <i>Escherichia coli</i> Terminal Oxidases: Assembly and Function	3
3. Roles for <i>bd</i> -Type Oxidases	17
4. The <i>E. coli</i> ABC Transporter CydDC: Regulation, Assembly and Function	26
5. Physiological Impact of CydDC	34
6. Conclusions	40
References	42
2. A Post-Genomic View of the Ecophysiology, Catabolism and Biotechnological Relevance of Sulphate-Reducing Prokaryotes	55
Ralf Rabus, Sofia S. Venceslau, Lars Wöhlbrand, Gerrit Voordouw, Judy D. Wall and Inês A. C. Pereira	
1. Introduction	58
2. Diversity and Evolution of SRP	60
3. Environmental and Ecological Relevance of SRP	70
4. Energy Metabolism of SRP	96
5. Carbon Catabolism	153
6. Genetic Studies	171
7. Systems Biology Studies	181
8. Biotechnological Relevance of SRP	214
9. Conclusions	243
Acknowledgements	245
References	245
3. Neisserial Molecular Adaptations to the Nasopharyngeal Niche	323
Jay R. Laver, Sara E. Hughes, and Robert C. Read	
1. Introduction	325
2. The Organism	325
3. Induction of Immunity by Colonisation	326
4. The Nasopharyngeal Environment	327

5. Initial Establishment of Nasopharyngeal Colonisation	329
6. Nutritional Adaptations	331
7. Adaptation to the Immune Response	332
8. Adaptation to Temperature	332
9. Adaptation to a Microaerobic Environment and Nitrosative Stress	334
10. Adaptation to a Polymicrobial Environment	340
References	348
4. Marine Microbial Secondary Metabolites: Pathways, Evolution and Physiological Roles	357
Daniela Giordano, Daniela Coppola, Roberta Russo, Renata Denaro, Laura Giuliano, Federico M. Lauro, Guido di Prisco, and Cinzia Verde	
1. Introduction	360
2. The Evolution of Gene Clusters	363
3. Bacterial Secondary Metabolic Biosynthetic Pathways of TMS: PKS, NRPS and FAS	366
4. Marine Bacterial Secondary Metabolites: Structure and Function	377
5. The Physiological Role	399
6. Genomic and Metagenomic Approaches to the Study of Gene Clusters	402
7. Heterologous Expression	404
8. Conclusion and Perspectives	408
Acknowledgements	411
References	411
Author Index	429
Subject Index	487
