1. The Genomics, Epigenomics, and Transcriptomics of HPV-Associated Oropharyngeal Cancer—Understanding the Basis of a Rapidly Evolving Disease	1
M. Lechner and T.R. Fenton	
1. Introduction	2
2. The Genome of Human Papillomavirus-Associated Head and Neck Cancer	12
3. The Epigenome of Human Papillomavirus-Associated Head and Neck Cancer	21
4. The Transcriptome of Human Papillomavirus-Associated Head and Neck Cancer	30
5. Biomarker Development for Human Papillomavirus-Associated Oropharyngeal Cancer	35
6. Linking the Cancer-Associated Changes—A Model of Human Papillomavirus-Associated Head and Neck Cancer Development	38
7. Future Directions	38
Acknowledgments	41
References	41
2. Translating Lung Function Genome-Wide Association Study (GWAS) Findings: New Insights for Lung Biology	57
A.K. Kheirallah, S. Miller, I.P. Hall and I. Sayers	
1. Genetics of Lung Function and COPD	60
2. Standing on the Shoulders of Giants: A Brief Historical Overview of Molecular Genetics and Functional Studies in Pulmonary Physiology	63
3. The Landscape of GWAS for Lung Function and COPD	69
4. In silico Approaches in Translational Studies	88
5. In vivo Methods to Translate GWAS Findings	104
6. In vitro Approaches Using Human Cells to Translate GWAS Findings	118
7. Inferred Biology of Selected and Most Reproducible Lung Function Genes	129
8. Summary and Future Perspectives	130
Competing Interests	132
Acknowledgments	132
References	132

3. Integrative Analysis of Multi-omics Data for Discovery and Functional Studies of Complex Human Diseases	147
Yan V. Sun and Yi-Juan Hu	
1. Introduction	148
2. Overview of Omics Technologies and Association Studies	150
3. Genetic and Environmental Determinants of Epigenomic, Transcriptomic, Metabolomic, and Proteomic Markers	164
4. Analytical Approaches and Methods for Multiomic Association Studies	169
5. Discussion	180
Acknowledgments	182
References	182
4. Yeast and Fungal Prions: Amyloid-Handling Systems, Amyloid Structure, and Prion Biology	191
R.B. Wickner, H.K. Edskes, A. Gorkovskiy, E.E. Bezsonov and E.E. Stroobant	
1. Introduction	192
2. Discovery of Yeast Prions	193
3. Prion Domains	196
4. The Roll Call of Prions	198
5. Prion Variants/Strains and Transmission Barriers	202
6. Structure of Infectious Amyloid of Yeast and Fungal Prions	206
7. Yeast Prion Amyloid Structure Explains Inheritance of Conformation	210
8. Prion Biology	211
9. Cellular Systems Affecting Yeast Prions	217
10. Perspectives and Controversies	223
Acknowledgments	224
References	224
Index	237
