A Tribute to Alec Brown xi

1. Introduction

2. The Physical Environment

- 2.1 Introduction 5
- 2.2 The Littoral Active Zone 5
- 2.3 Sand 6
- 2.4 Waves 11
- 2.5 Other Drivers of Water Movement 16
- 2.6 Sand Transport 20
- 2.7 Interactions Among Beach Slope, Waves, Tides, and Sand 20
- 2.8 Beach Indices 21
- 2.9 Beach Types 22
- 2.10 Circulation Cells and Mixing 28
- 2.11 Embayments and Headlands 29
- 2.12 Swash Climate 30
- 2.13 Slope 33
- 2.14 Latitudinal Effects 33
- 2.15 Conclusions 34

3. The Interstitial Environment

- 3.1 Introduction 37
- 3.2 Characteristics of the System 37
- 3.3 Processes of Water Input 42
- 3.4 Water Filtration 46
- 3.5 Water Table Fluctuations 52
- 3.6 Interstitial Chemistry 56
- 3.7 The Interstitial Environment 60
- 3.8 Conclusions 62

4. Beach and Surf-Zone Flora

- 4.1 Introduction 63
- 4.2 Benthic Microflora 63

- 4.3 Surf-Zone Phytoplankton 65
- 4.4 Seagrasses 71
- 4.5 Conclusions 72

5. Sandy-Beach Invertebrates

- 5.1 Introduction 75
- 5.2 Important Groups 75
- 5.3 Conclusions 101

6. Adaptations to Sandy-Beach Life

- 6.1 Introduction 103
- 6.2 Locomotion 104
- 6.3 Rhythms of Activity 111
- 6.4 Sensory Responses and Orientation 117
- 6.5 Choice of Habitat 120
- 6.6 Nutrition 124
- 6.7 Respiration 126
- 6.8 Environmental Tolerances 130
- 6.9 Reproduction 132
- 6.10 Aggregations and Gregariousness 134
- 6.11 Avoidance of Predators 134
- 6.12 Phenotypic Plasticity 135
- 6.13 Conclusions 137

7. Benthic Macrofauna Communities

- 7.1 Introduction 139
- 7.2 Sampling 140
- 7.3 Taxonomic Composition 143
- 7.4 Macroscale Patterns 145
- 7.5 Mesoscale Patterns 166
- 7.6 Microscale: The Forgotten Dimension 178
- 7.7 Species Interactions 180
- 7.8 Conclusions 190

8. Benthic Macrofauna Populations

- 8.1 Introduction 193
- 8.2 Macroscale Patterns 193

- 8.3 Mesoscale Patterns 208
- 8.4 Microscale Patterns 216
- 8.5 Conclusions 218
- 9. Interstitial Ecology
 - 9.1 Introduction 219
 - 9.2 Interstitial Climate 220
 - 9.3 Sampling 221
 - 9.4 Interstitial Biota 221
 - 9.5 Distribution of Interstitial Fauna 224
 - 9.6 Temporal Changes 226
 - 9.7 Meiofaunal Communities 228
 - 9.8 Trophic Relationships 231
 - 9.9 Biological Interactions 232
 - 9.10 Meiofauna and Pollution 233
 - 9.11 Conclusions 234
- 10. Surf-Zone Zooplankton and Nekton
 - 10.1 Introduction 237
 - 10.2 Zooplankton 237
 - 10.3 Fishes 243
 - 10.4 Other Groups 258
 - 10.5 Conclusions 259
- 11. Other Marine and Terrestrial Vertebrates
 - 11.1 Introduction 261
 - 11.2 Turtles 261
 - 11.3 Birds 266
 - 11.4 Conclusions 271
- 12. Energetics and Nutrient Cycling
 - 12.1 Introduction 273
 - 12.2 Food Sources 274
 - 12.3 Macroscopic Food Webs 276
 - 12.4 Interstitial Food Webs 290
 - 12.5 The Microbial Loop in Surf Waters 294
 - 12.6 Energy Flow in Beach and Surf-Zone Ecosystems 297
 - 12.7 Case Study: Sandy Beaches of the Eastern Cape 298
 - 12.8 Nutrient Cycling 302
 - 12.9 Conclusions 307
- 13. Coastal Dune Ecosystems and Dune-Beach Interactions
 - 13.1 Introduction 309
 - 13.2 The Physical Environment 309
 - 13.3 Coastal Dune Formation by Vegetation 311
 - 13.4 Dune Types 312
 - 13.5 Edaphic Features 315
 - 13.6 Water 316
 - 13.7 The Gradient Across Coastal Dunefields 317
 - 13.8 Dune Vegetation 317
 - 13.9 The Fauna 322
 - 13.10 Food Webs 324
 - 13.11 Dune-Beach Exchanges 327
 - 13.12 Conclusions 329
- 14. Fisheries
 - 14.1 Introduction 331
 - 14.2 Fishery Types, Resources, and Extraction Practices 331
 - 14.3 Fisheries as Social-Ecological Systems 340
 - 14.4 Harvesting Phases and Long-term Trends 348
 - 14.5 Assessment 355
 - 14.6 Governance and Management 363
 - 14.7 Conclusions 373
- 15. Human Impacts
 - 15.1 Introduction 375
 - 15.2 Recreation 376
 - 15.3 Fouling 382
 - 15.4 Pollution 385
 - 15.5 Biological Invasions 397
 - 15.6 Natural Perturbations 398
 - 15.7 Nourishment 399
 - 15.8 Mining 402
 - 15.9 Coastal Development, Urbanization, and Engineering 403
 - 15.10 Human Influence on the Evolution of Beaches 409
 - 15.11 Impact Assessments 412
 - 15.12 Conclusions 418

16. Climate Change

- 16.1 Introduction 421
- 16.2 Climate Change: Main Drivers and Potential Effects on the Sandy-Beach Habitat 423
- 16.3 Conceptual Basis for Testing Climate Change Impacts on Beaches 427
- 16.4 Climate Change and Sandy-Beach Fauna 427
- 16.5 Socioeconomic Effects and Management 439
- 16.6 Case Study: Sandy Beaches in the Southwest Atlantic 442
- 16.7 Conclusions 450

17. Management and Conservation

- 17.1 Introduction 451
- 17.2 The Fragile Littoral Active Zone 452

- 17.3 Management Principles and Tools 454
- 17.4 Dealing With Multiple Management Objectives 477
- 17.5 Conclusions 493
- 17.6 Epilogue 495

Appendix: The Chemical Environment of Sediments 497**Glossary 499****References 503****Index 543**
