SECTION I TAU STRUCTURE, OLIGOMERIZATION AND AGGREGATION IN VITRO

CHAPTER 1	Expression and Isolation of Recombinant Tau	3
	Rebecca L. Best, Peter J. Chung, Sarah J. Benbow, April Savage, Nichole E. LaPointe, Cyrus R. Safinya, Stuart C. Feinstein	
1.	Introduction	4
2.	Isolation of Untagged Tau Proteins	5
3.	Isolation of His-Tagged Tau Proteins	19
4.	Determination of Tau Concentration by SDS-PAGE and Comparison to a Tau Mass Standard	22
	Acknowledgements	25
	References	25
CHAPTER 2	Insights into Tau Function and Dysfunction Through Single-Molecule Fluorescence	27
	Ana M. Melo, Shana Elbaum-Garfinkle, Elizabeth Rhoades	
1.	Introduction	28
2.	Methods	30
3.	Instrumentation	34
4.	Measurements of Tau Binding to Tubulin or Other Partners	35
5.	Summary	42
	Acknowledgements	42
	References	42
CHAPTER 3	Production of Recombinant Tau Oligomers in vitro	45
	Benjamin Combs, Chelsea T. Tiernan, Chelsey Hamel, Nicholas M. Kanaan	
1.	Introduction	46
2.	Purification of Recombinant Tau	47
3.	SDS-Lowry Protein Quantitation Assay Protocol	52
4.	Arachidonic Acid-Induced Formation of Tau Oligomers	53
5.	Sucrose Step Gradient Fractionation to Isolate Oligomers	55
6.	Electron Microscopy Imaging of Tau Oligomers	57
7.	Sandwich ELISA for Oligomer Detection	58

8. Conclusion.....	62
Acknowledgments.....	62
References.....	63
CHAPTER 4 Optimization of in vitro Conditions to Study the Arachidonic Acid Induction of 4R Isoforms of the Microtubule-Associated Protein Tau.....	65
Yamini Mutreja, Truman C. Gamblin	
1. Introduction.....	66
2. Methods and Materials.....	69
3. Results.....	73
4. Discussion and Conclusions.....	83
Acknowledgments.....	85
References.....	85
CHAPTER 5 Conformation-Based Assay of Tau Protein Aggregation.....	89
Yann Fichou, Neil A. Eschmann, Timothy J. Keller, Songi Han	
1. Introduction.....	90
2. Methods.....	93
3. Conclusion.....	106
References.....	107
SECTION II TAU-MICROTUBULE INTERACTIONS	
CHAPTER 6 Measuring Tau–Microtubule Affinity Through Cosedimentation Assays.....	115
Emily O. Alberico, Aranda R. Duan, Holly V. Goodson	
1. Introduction.....	116
2. Initial Considerations for Experimental Design.....	117
3. Experimental Methods.....	120
4. Data Analysis.....	125
5. Summary of Useful Resources.....	132
6. Conclusions.....	133
Acknowledgments.....	133
References.....	133
CHAPTER 7 Single-Molecule Imaging of Tau Dynamics on the Microtubule Surface.....	135
Jamie L. Stern, Dominique V. Lessard, Rehan Ali, Christopher L. Berger	
1. Tau Dynamics Imaging Assay.....	137
2. Single-Molecule Tau-Binding Assay.....	145

3. Dynamic Microtubule Imaging Assay	147
4. Molecular Motor Motility Assays	151
Acknowledgments	153
References	153
CHAPTER 8 Synchrotron Small-Angle X-ray Scattering and Electron Microscopy Characterization of Structures and Forces in Microtubule/Tau Mixtures.....	155
Peter J. Chung, Chaeyeon Song, Herbert P. Miller, Youli Li, Uri Raviv, Myung Chul Choi, Leslie Wilson, Stuart C. Feinstein, Cyrus R. Safinya	
1. Introduction	157
2. General Sample Preparation	158
3. Differential Interference Contrast Microscopy	161
4. Transmission Electron Microscopy	162
5. Synchrotron Small-Angle X-Ray Scattering	167
Acknowledgments	174
References	175
CHAPTER 9 A TIRF Microscopy Assay to Decode How Tau Regulates EB's Tracking at Microtubule Ends.....	179
Sacnigte Ramirez-Rios, Laurence Serre, Virginie Stoppin-Mellet, Elea Prezel, Angélique Vinit, Emilie Courriol, Anne Fourest-Lieuvin, Julie Delaroche, Eric Denarier, Isabelle Arnal	
1. Introduction	180
2. Purification of Tubulin	182
3. Expression and Purification of Recombinant Tau and EB Proteins.....	186
4. Set-up and Analysis of TIRF Microscopy Assays.....	189
5. Conclusion.....	195
Acknowledgments.....	195
References.....	196
Further Reading	197
CHAPTER 10 TIRF Assays for Real-Time Observation of Microtubules and Actin Coassembly: Deciphering Tau Effects on Microtubule/Actin Interplay.....	199
Eléa Prezel, Virginie Stoppin-Mellet, Auréliane Elie, Ninon Zala, Eric Denarier, Laurence Serre, Isabelle Arnal	
1. Introduction	200
2. Purification and Labeling of Tubulin, Actin, and Tau	202
3. Fabrication and Functionalization of Perfusion Chambers.....	202

4. Sample Preparation for Actin and Microtubule Coassembly in the Presence of Tau	204
5. TIRF Imaging and Recording	209
6. Data Analysis and Results	209
7. Conclusion	211
Acknowledgments	211
References	212

SECTION III CELLS AND MODEL SYSTEMS

CHAPTER 11 Digital Quantification of Neurite Outgrowth and Retraction by Phase-Contrast Microscopy: A Tau Perspective	217
Brett Cook, Duncan Proctor, Rachel Bromberg, Nichole E. LaPointe, Stuart C. Feinstein, Leslie Wilson	
1. Introduction	218
2. Materials	219
3. Methods	220
4. Conclusions	226
Acknowledgments	227
References	227
Further Reading	228
 CHAPTER 12 Assessing the Degradation of Tau in Primary Neurons: The Role of Autophagy	229
Changyi Ji, Maoping Tang, Gail V.W. Johnson	
1. Introduction	230
2. Materials	231
3. Methods	235
4. Conclusion	243
Acknowledgments	243
References	243
 CHAPTER 13 Methods Related to Studying Tau Fragmentation	245
Adriana Ferreira, Sana Afreen	
1. Introduction	246
2. Methods	248
3. Conclusion	256
Acknowledgments	256
References	257

CHAPTER 14 The <i>Drosophila</i> Model System to Study Tau Action.....	259
Megan B. Trotter, Tyler D. Stephens, James P. McGrath, Michelle L. Steinhilb	
1. Introduction to Using <i>Drosophila</i> as a Model System	260
2. FlyBase and Stock Centers	260
3. Expressing Tau in <i>Drosophila</i>	261
4. <i>Drosophila</i> as a Model System to Study Tau	263
5. <i>Drosophila</i> Tauopathy Screens.....	265
6. Protocols for Analyzing Tau Expression in <i>Drosophila</i>	266
References	280
CHAPTER 15 The use of Mouse Models to Study Cell-to-Cell Transmission of Pathological Tau.....	287
Sneha Narasimhan, Virginia M.Y. Lee	
1. Introduction.....	288
2. Methods.....	291
3. Conclusion.....	302
Acknowledgments.....	302
References.....	302
CHAPTER 16 Studying Tau Protein Propagation and Pathology in the Mouse Brain using Adeno-Associated Viruses	307
Susanne Wegmann, Rachel E. Bennett, Ana S. Amaral, Bradley T. Hyman	
1. Introduction.....	308
2. Method	311
3. Conclusions	320
Acknowledgments.....	320
References.....	320
