PART 1 General: Chemistry and Microbiology..... 1

Chapter 1: The Chemical Language of Gram-Negative Bacteria.....3

Gerardo Della Sala, Roberta Teta, Germana Esposito, Valeria Costantino

1 Introduction.....	3
2 Quorum Sensing System Architectures in Gram-Negative Bacteria.....	5
2.1 AHL-Based Quorum Sensing.....	5
2.2 AI-2 Based Quorum Sensing.....	7
2.3 QS Systems Using Other Autoinducers.....	8
3 Chemistry of Autoinducers.....	9
3.1 N-Acyl Homoserine Lactones.....	10
3.2 Cyclic Furanone Compounds.....	11
3.3 Others.....	11
3.4 Quorum Sensing in Marine Environments.....	13
4 Quorum Quenching Molecules.....	14
4.1 A Case Study of Inhibitors of AHL Receptors: LasR Antagonists.....	14
4.2 Enzymatic Inhibition of QS.....	19
5 Conclusion.....	22
Glossary.....	23
Abbreviations.....	23
References.....	24

Chapter 2: Analytical Approaches for the Identification of Quorum

Sensing Molecules.....29

Adele Cutignano

1 Introduction.....	29
2 Sample Preparation.....	31
2.1 Liquid-Liquid Extraction (LLE).....	31
2.2 Solid Phase Extraction (SPE).....	32
3 Detection, Identification, and Quantification of QS Molecules.....	33

3.1 Analytical Approaches for AHL Detection.....	33
3.2 Analytical Approaches for AHL Identification and Quantification.....	36
3.3 Analytical Approaches for Identification and Quantification of Other QS Molecules.....	43
4 Concluding Remarks.....	45
Glossary.....	46
Abbreviations.....	48
References.....	48
Chapter 3: Quorum Sensing in Marine Biofilms and Environments.....	55
Raphaël Lami	
1 Introduction.....	55
2 The Discovery of and Growing Interest in Quorum Sensing in Marine Environments.....	55
2.1 1970s: Quorum Sensing was Discovered in the Marine Environment—The <i>Vibrio</i> -squid Model.....	55
2.2 1990–2010s: A Growing Interest in the Study of Quorum Sensing in Marine Environments.....	56
3 Overview of Prokaryotic Diversity and Compounds Involved in Quorum Sensing in Marine Environments and Biofilms.....	58
3.1 Experimental Approaches to Characterize AIs in the Marine Environment.....	58
3.2 AHLs, or Autoinducer-1 (AI-1).....	59
3.3 Autoinducer-2 (AI-2).....	61
3.4 Other AIs.....	63
3.5 Diffusion of AIs in the Marine Environment.....	64
3.6 <i>V. harveyi</i> (and the <i>Harveyi</i> clade), a Model for the Study of Quorum Sensing in Marine Bacteria.....	65
4 Surface Biofilms and Holobionts: The Diversity of Microbial Habitats Enabling Quorum Sensing in the Marine Environment.....	66
4.1 Phycosphere of (Micro-)algae and Phyllosphere of Marine Plants.....	67
4.2 Biofilm Around Sinking Marine Snow Particles.....	68
4.3 Marine Microbial Mats and Other Types of Subtidal Biofilms.....	69
4.4 Corals and Other Cnidarian-associated Communities.....	70
4.5 Sponge-associated Communities.....	71
5 Diversity of Prokaryotic Functions Regulated by Quorum Sensing in Marine Environments.....	71
5.1 Bioluminescence and Pigment Production.....	73
5.2 Motility.....	73
5.3 Initiation of Biofilm Formation, Maturation, and Dispersion.....	73
5.4 Virulence.....	75
5.5 Emission of Colonization Factors.....	75
5.6 Horizontal Gene Transfer.....	76
5.7 Nutrient Acquisition.....	76

5.8 Production of Antimicrobial Compounds.....	77
5.9 Induction and Maintenance of Phenotypic Heterogeneity within a Cell Population.....	78
6 Sourcing and Applying Quorum Sensing Inhibitors in the Marine Environment: Aquaculture Protection and Innovation in Green Antifouling.....	79
6.1 A Model Story: The Discovery of Antifouling Compounds in the Red Marine Alga <i>Delisea pulchra</i>	79
6.2 Diversity of Quorum Quenching Compounds Isolated from Marine Organisms.....	80
6.3 Diversity of Marine Quorum Quenching Enzymes.....	81
6.4 Applications for Biofouling on Marine Underwater Surfaces.....	82
6.5 Applications in Aquaculture.....	83
7 Concluding Remarks.....	84
Glossary.....	85
Abbreviations.....	85
Acknowledgments.....	85
References.....	86
Chapter 4: Quorum Sensing in Extremophiles.....	97
Gennaro Roberto Abbamondi, Margarita Kambourova, Annarita Poli, Ilaria Finore, Barbara Nicolaus	
1 Introduction to Extremophiles and Extreme Ecosystems.....	97
2 Quorum Sensing in Extremophiles.....	100
2.1 Halophiles.....	101
2.2 Thermophiles.....	103
2.3 Acidophiles.....	105
2.4 Archaea.....	106
2.5 Other Extremophiles.....	108
3 Biomolecule Synthesis by Extremophiles: QS Regulation.....	109
3.1 Extremozymes.....	109
3.2 Exopolysaccharides.....	110
4 Extreme Biomolecules: Potential Biotechnological Applications.....	110
5 Conclusions.....	115
Glossary.....	116
Abbreviations.....	117
Acknowledgments.....	117
References.....	117
PART 2 Inter-Kingdom Communication.....	125
Chapter 5: Quorum Sensing in Phytopathogenesis.....	127
Ömur Kırtel, Maxime Versluys, Wim Van den Ende, Ebru Toksoy Öner	
1 Introduction.....	127
2 Quorum Sensing Phenomenon.....	129
2.1 Quorum Sensing in Plant-Associated Microorganisms.....	130
3 Effect of Bacterial Quorum Sensing on Plant Immunity and Physiology.....	134

3.1 Plant Innate Immunity.....	134
3.2 Quorum Sensing Molecules and Plant Immunity.....	136
3.3 Quorum Sensing Molecules Affect Plant Physiology.....	137
4 Quorum Quenching in Phytopathogenesis.....	138
4.1 Plant Quorum Sensing Inhibitors.....	138
4.2 Bacterial Quorum Sensing Inhibitors against Plant Pathogenic Bacteria.....	140
5 Sugars and Sugar Signaling in Plant-Microbe Interactions.....	141
6 Concluding Remarks and Perspectives.....	142
Glossary.....	143
Abbreviations.....	143
References.....	144
Further Reading.....	149

Chapter 6: Quorum Sensing and the Gut Microbiome.....151

Angel G. Jimenez, Vanessa Sperandio

1 Introduction.....	151
2 Autoinducers.....	152
3 Catecholamine Signaling in Bacteria.....	155
4 Nutrient Signaling in the Gut.....	156
5 Concluding Remarks.....	163
Glossary.....	164
Abbreviations.....	164
References.....	165

PART 3 Quorum Sensing Inhibition.....171

Chapter 7: Enzymatic Quorum Quenching in Biofilms.....173

Jan Vogel, Wim J. Quax

1 Introduction.....	173
2 Life on Surfaces: The Bacterial Biofilm.....	174
3 Biofilms and Antibiotic Resistance.....	175
3.1 Multispecies Biofilms.....	176
3.2 Communication in <i>P. aeruginosa</i> Biofilms.....	177
3.3 Quorum Sensing Signals.....	178
3.4 Quorum Quenching Enzymes.....	178
3.5 Quenching the Quinolone Dependent QS Signal.....	182
3.6 Applications of Quorum Quenching Enzymes.....	183
3.7 Functionalization of Surfaces.....	183
3.8 Membrane Bioreactor.....	186
3.9 Inhaled Lactonase.....	186
4 Discussion and Perspectives.....	187
Glossary.....	188

Abbreviations.....	189
Acknowledgment.....	189
References.....	189
Chapter 8: Effect of Polyphenols on Microbial Cell-Cell Communications.....	195
Filomena Nazzaro, Florinda Fratianni, Antonio d'Acierno, Vincenzo De Feo, Fernando Jesus Ayala-Zavala, Adriano Gomes-Cruz, Daniel Granato, Raffaele Coppola	
1 What is Quorum Sensing?.....	195
2 Polyphenols.....	198
2.1 Structure and Distribution.....	198
2.2 Antimicrobial Activity of Polyphenols.....	202
2.3 Polyphenols as Quorum Quenching Players.....	203
3 Polyphenols From Marine Organisms With Antimicrobial and QQ Activity.....	207
3.1 Structure, Characterization, and Biological Activity of Phlorotannins.....	209
3.2 Antifungal and QQ Activities Exhibited by Phlorotannins.....	211
4 Lichens Secondary Metabolites: Generalities, Antimicrobial and Antifungal Activities.....	212
4.1 QS and Antibiofilm Activity by Lichenic Polyphenols.....	215
5 Conclusions.....	217
Glossary.....	217
Abbreviations.....	218
References.....	218
PART 4 Applications.....	225
Chapter 9: Pseudomonas aeruginosa Quorum Sensing and Biofilm Inhibition....	227
Barış Gökalsın, Didem Berber, Nüzhet Cenk Sesal	
1 Introduction.....	227
2 Quorum Sensing and Quorum Quenching.....	228
2.1 Quorum Sensing Systems and Biofilm in <i>P. aeruginosa</i>	229
2.2 Screening for Quorum Sensing Inhibitors.....	231
2.3 Natural Quorum Sensing Inhibitors.....	233
2.4 Synthetic Quorum Sensing Modulators.....	244
3 Conclusion and Opinion.....	246
Glossary.....	247
Abbreviations.....	248
Acknowledgment.....	249
References.....	249
Chapter 10: Cyclic Peptides in Neurological Disorders: The Case of Cyclo(His-Pro).....	257
Ilaria Bellezza, Matthew J. Peirce, Alba Minelli	
1 Introduction.....	257
2 Cyclic Peptides.....	258
2.1 Cyclic Dipeptides.....	260

2.2 CDPs in QS Systems.....	264
3 CHP in Neurological Disorders.....	268
3.1 Background.....	268
3.2 Current Understanding.....	268
3.3 Future Perspectives.....	272
4 Conclusion.....	274
Glossary.....	274
Abbreviations.....	276
References.....	277
Further Reading.....	285
Index.....	287
