<i>Contributors</i>	<i>ix</i>
<i>Preface. T Cells: Friends and Foes</i>	<i>xi</i>
1. Stimulating T Cells Against Cancer With Agonist Immunostimulatory Monoclonal Antibodies	1
Xue Han and Matthew D. Vesely	
1. Introduction	2
2. CD137	3
3. GITR	12
4. OX40	14
5. CD27	16
6. Emerging Agonists: ICOS and CD40	18
7. CD28 Superagonist as a Cautionary Tale	19
8. Conclusions	19
References	20
2. T Cells and Regulated Cell Death: Kill or Be Killed	27
Johan Spetz, Adam G. Presser, and Kristopher A. Sarosiek	
1. Introduction	28
2. Cell Death Pathways in T Cells	29
3. T Cell-Mediated Cell Death	41
4. Concluding Remarks	48
Acknowledgments	49
References	49
3. Macrophages: Their Untold Story in T Cell Activation and Function	73
Jennifer L. Guerriero	
1. Introduction	74
2. Macrophages as Efficient APCs	75
3. Cross-Presentation and TCR Engagement of the MHC Serves as Signal 1	78
4. Signal 2: Costimulatory and Inhibitory Receptors on Macrophages	79
5. Signal 3: Environmental Cytokine Production Directs T Cell Differentiation and Effector Function	83

6. The Role of Macrophages on T Cell Inhibition and Exhaustion	84
7. Tumor-Associated Macrophages	86
Acknowledgments	89
References	89
4. Metabolism of T Lymphocytes in Health and Disease	95
Timo Gaber, Yuling Chen, Pierre-Louis Krauß, and Frank Buttgerit	
1. Introduction	96
2. Metabolic Pathways: An Overview	98
3. T Cells Possess a Specific Metabolic Profile That Is Crucial for Survival and Function	102
4. Metabolic Pathways to Maintain T-Cell Homeostasis	102
5. Metabolic Reprogramming upon Engagement of Effector T Cells	104
6. Immunometabolism of Regulatory T Cells	114
7. Metabolic Reconfiguration in T-Cell Memory and Longevity	117
8. Tumor Microenvironment Shapes T-Cell Metabolism and Function	122
9. T-Cell Metabolism in Autoimmunity	127
10. Conclusion	133
References	134
5. Cancer Immunosurveillance by T Cells	149
Samhita Rao, Karim Gharib, and Arnold Han	
1. What Is Cancer Immunosurveillance?	150
2. What Role Do T-Cell Subsets Play in Cancer Immunosurveillance?	153
3. Immune Checkpoints and Immunosurveillance—A Delicate Balance	160
4. What Role Do Tumor Antigens Play in Cancer Immunosurveillance?	162
5. Conclusions	165
References	166
6. T Lymphocytes as Measurable Targets of Protection and Vaccination Against Viral Disorders	175
Anne Monette and Andrew J. Mouland	
1. Introduction	176
2. Respiratory Virus Disorders	178
3. Viral Gastroenteritis Disorders	190
4. Exanthematous Viral Disorders	193
5. Hepatic Viral Disorders	205

6. Neurologic Viral Disorders	210
7. Hemorrhagic Fever Viral Disorders	220
8. Perspectives	233
Acknowledgments	234
Contributions	234
References	234
7. In Silico Methods for Studying T Cell Biology	265
Katherine Grzesik, Kevin Eng, Fabien Crauste, and Sebastiano Battaglia	
1. Introduction	266
2. Cytometry With Time of Flight	266
3. Immune Infiltration Analysis From Transcriptomic Data	272
4. Inferring TCR Clonotypes From RNASeq Data	275
5. T Cell Receptor Sequencing	277
6. Peptide/MHC Dynamics and Immunogenicity Predictions	283
7. Mathematical Modeling of T Cell Dynamics	287
8. Databases for Studying T Cells Biology	289
9. Conclusions	293
References	294
