Preface	xxxix
Editorial Management Committees	xxxiii
Editorial	xxxvii
Graphical Abstract	xli

1. General Introduction to Volume 1 Emergent and Reemergent Viruses: Modern Important Issues 1

MOULAY MUSTAPHA ENNAJI

Definition of Virus Comes to Ages	1
Bioinformatics of Virology and Viral-Genome Databases	2
Tumors and Viruses Renewable Relations	3
Waterborne and Foodborne Viruses	3
Dangerous Viruses in Africa	4
Recent Advances Discovery of Emergent and Reemergent Virus	5
References	6

2. Human Reemerging Arboviral Diseases of the Late 21st Century: From Ecological-Epidemiology to Control Strategies 9

EDRIS ABDULLAHI NASIR, AMOS DANGANA, ABDURRAHMAN ELFULATY AHMAD,
IDUDA OJEMIREN AND ANTHONY UCHENNA EMERIBE

Introduction	9
Ecology of Human Arboviruses	11
Ecologic-Epidemiology of Human Arboviruses	12
Prevention and Control Strategies of Reemergent Arboviruses Infections	22
Conclusion	27
Conflict of Interest	29
Contribution of Authors	29
References	29
Further Reading	33

3. Viral Emerging Pathogen Evolution	35
VIRGINIA RODRÍGUEZ, ALFREDO LAGARES, HEISER ARTEAGA, SALIM MATTAR AND LUIS CARLOS RUIZ	
Introduction	35
Eons, Eras, and Geological Periods	36
Viruses and Evolution	37
Virus Evolution and the Immune System	44
Relations Between Viruses and Insects	45
Conclusions	48
References	48
Further Reading	51
4. Human Viruses: Emergence and Evolution	53
SHASHI S. SUDHAN AND PREETI SHARMA	
Introduction	53
Origin	56
Evolution and Adaptation to the Human Host	57
Evolutionary Drivers	59
Emergence as a Biological Process	60
Conclusions and Future Prospects	65
Acknowledgments	66
References	66
5. The Arenaviridae	69
NAAZNEEN MOOLLA AND JACQUELINE WEYER	
Abbreviations	69
Introduction	70
Epidemiological and Ecological Features	72
Structural Organization and Replication	80
Pathobiology of Pathogenic Arenaviruses	82
Therapeutics and Prophylaxis	85
Conclusion	90
References	91
Further Reading	100
6. Ecoepidemiology of <i>Alphaviruses</i> and <i>Flaviviruses</i>	101
CAMILO GUZMÁN, ALFONSO CALDERÓN, SALIM MATTAR, LUIZ TADEU-FIGUEREIDO, JORGE SALAZAR-BRAVO, NELSON ALVIS-GUZMÁN, ELIAS ZAKZUK MARTINEZ AND MARCO GONZÁLEZ	
Introduction	101
Ecoepidemiology of <i>Flavivirus</i>	110
Ecoepidemiology of <i>Alphavirus</i>	113
Surveillance Mode	118
Treatment	118

Conclusion	119
References	120
7. Coronaviridae: 100,000 Years of Emergence and Reemergence	127
YASSINE KASMI, KHADIJA KHATABY, AMAL SOUIRI AND MOULAY MUSTAPHA ENNAJI	
Abbreviations	127
Introduction	127
Emergent and Reemerging Viral Infections	128
Taxonomy	128
Genomic Organization and Proteomics of Coronaviridae	132
Middle East Respiratory Syndrome Coronavirus	136
Infectious Bronchitis Virus	141
Interspecies Viral Transmission	143
References	144
Further Reading	148
8. The Middle East Respiratory Syndrome Coronavirus: An Emerging Virus of Global Threat	151
GULFARAZ KHAN AND MOHAMUD SHEEK-HUSSEIN	
Abbreviations	151
Background and Overview	151
References	162
9. Hepatitis C Virus and Human Herpesvirus 8: Immunological Response, Modification of Cell Metabolism, and Association With Type 2 Diabetes	169
FABRIZIO ANGIUS, LUISA MARRAS, ANGELA INGIANNI AND RAFFAELLO POMPEI	
Abbreviations	169
Latent-Persistent Viral Infections and Cell Metabolism	170
Virus Infections and Diabetes	170
Hepatitis C Virus and Diabetes Mellitus	172
Mechanisms of Hepatitis C Virus Interference With Insulin Signaling	173
Human Herpesvirus 8 Infection and Cell Metabolism	174
Human Herpesvirus 8 Infection, Immunological Response, and Diabetes	175
Conclusions and Future Prospects	176
Acknowledgments	178
Conflict of Interest	178
Contribution of Authors	178
References	178
Further Reading	181
10. Human Immunodeficiency Virus: A Brief Review	183
A. NDJOYI-MBIGUINO, S. ZOA-ASSOUMOU, G. MOUREMBOU AND MOULAY MUSTAPHA ENNAJI	
Introduction	183

History	184
The Virus	184
Genetic Diversity and Classification	184
Molecular Epidemiology	185
Modes and Routes of Transmission	187
Immunovirological Monitoring	188
Immunological Aspects	188
Resistance to ARVs	190
Vaccines	191
Conclusion	192
References	193
Further Reading	199

11. Ebola and Marburg Virus: A Brief Review 201

A. NDJOYI-MBIGUINO, S. ZOA-ASSOUMOU, G. MOUREMBOU AND
MOULAY MUSTAPHA ENNAJI

Introduction	201
History	202
Viruses	204
Molecular Epidemiology	204
Pathology	205
Phases of Preparation and Response to the Epidemic	207
Support and Security Measures	208
Treatment and Vaccine Developments	209
Conclusion	211
References	211
Further Reading	218

12. Undifferentiated Tropical Viral Fevers in Latin America 219

YESID E. MANTILLA-FLÓREZ, ÁLVARO A. FACCINI-MARTÍNEZ,
CARLOS A. BOTERO-GARCÍA AND SALIM MATTAR

Introduction	219
References	236
Further Reading	240

13. Chikungunya Virus: A Brief Review of the Thematic 241

S. ZOA-ASSOUMOU, A. NDJOYI-MBIGUINO, G. MOUREMBOU AND
MOULAY MUSTAPHA ENNAJI

Introduction	241
Emerging and Reemerging Factors for Viral Diseases in Africa	242
Chikungunya Fever: A Brief History and Geographical Distribution	243
Chikungunya Virus Taxonomy, Structure, and Genome Organization	244
Pathogenesis and Clinical Manifestations	246
Laboratory Diagnosis	247
Clinical Management and Preventive Methods	248
Antiviral Vaccine Approach	249

Conclusion	250
References	250
14. Cytomegalovirus: An Oncomodulator and Therapeutic Target in Glioma Management	253
COUMBA FALL, MOHAMMED CHAOUÏ EL FAÏZ, MOULAY MUSTAPHA ENNAJÏ AND BAHIA BENNANI	
Abbreviations	253
Introduction	254
Human Cytomegalovirus Classification	255
Human Cytomegalovirus Structure and Genome Organization	255
Human Cytomegalovirus Viral Cycle	256
Human Cytomegalovirus Epidemiology	260
Human Cytomegalovirus Physiopathology	261
Human Cytomegalovirus and Pathologies	261
Cytomegalovirus as a Therapeutic Target in the Management of Malignant Gliomas	267
Conclusion	268
References	269
15. Orthobunyavirus Family of Emerging Viruses	277
YASSINE KASMI AND MOULAY MUSTAPHA ENNAJÏ	
Abbreviation	277
Introduction	277
References	279
16. Dengue Virus	281
AMUDHAN MURUGESAN AND MYTHREYEE MANOHARAN	
Abbreviations	281
Introduction	282
Evolution and Discovery of Dengue Virus	282
Evolution and Spread of Dengue Virus Vector	283
Economic Burden	289
Taxonomy and Evolutionary Relationship of Dengue With Other Flaviviruses	294
Genus-Level Morphological and Genomic Properties	294
Replication Strategy of Flavivirus	295
Molecular Architecture of Dengue Virus	296
Overview of the Viral Life Cycle	297
Viral Replication	302
References	336
17. Oncoviruses: Viruses Role in Common Human Tumors	361
BERJAS ABUMSIMIR AND MOULAY MUSTAPHA ENNAJÏ	
Human Papilloma Virus Role in Cervical Cancer	361
Human Papilloma Virus and Other Congenital Tumors	362

Human Papilloma Virus Oncogenesis Mechanism	363
Human Immunodeficiency Virus Patients and Cervical Cancer Risk	363
Viruses Interfere Lymphomas Tumors: Human T-Cell Lymphotropic Virus-1, Epstein-Barr Virus, Human Immunodeficiency Virus, Hepatitis C Virus, and Hepatitis B Virus	364
Simian Virus Role in Bone, Brain, and Mesothelioma Tumors	364
Epstein-Barr Virus and Stomach Cancer	365
Human Merkel Cell Polyomavirus and Merkel Cell Carcinoma	366
Human Hepatitis Viruses Role in Liver Tumors	366
Viruses' Relations With Lung Cancer	368
Conclusion	368
References	369

18. Oncogenic Viruses 375

MANOJ KUMAR, KUMARI SEEMA, ASHOK KUMAR SHARMA, AMBER PRASAD, NIKESH SINHA, ZULFIQUAR ALI BHUTTOO AND POONAM KUMARI

Introduction, Historical Aspect, and Classification	375
Historical Timeline of Discovery	378
General Principles of Viral Oncogenic Mechanisms	381
Mechanisms of Viral Oncogenesis	381
Human Oncogenic Viruses and Associated Cancers	385
Cytomegalovirus	390
Papillomaviruses	393
RNA Oncogenic Viruses	394
Human T-Lymphotropic Virus	400
Opportunities and Future Directions	403
References	404
Further Reading	409

19. Noroviruses, Sapoviruses, and Aichi Viruses Emergence in Wastewater Associated With Viral Pandemic Gastroenteritis 411

CHOUROUK IBRAHIM, SALAH HAMMAMI AND ABDENNACEUR HASSEN

Introduction	411
Conclusion	432
References	432
Further Reading	441

20. Rotaviruses, Astroviruses, and Adenoviruses Emergence and Circulation in Wastewater Causing Acute Viral Gastroenteritis 443

CHOUROUK IBRAHIM, SALAH HAMMAMI AND ABDENNACEUR HASSEN

Introduction	443
Virological Characteristics of Rotaviruses, Human Astroviruses, and Human Adenoviruses	445
Emergent Rotaviruses, Astroviruses, Adenoviruses, and Waterborne Diseases	461
Conclusion	466

References	467
Further Reading	476
21. Prion Diseases: Conformational Changes of a Protein Create an Unconventional Infectious Agent	479
WALTER J. SCHULZ-SCHAEFFER, WIEBKE M. WEMHEUER AND ARNE WREDE	
Abbreviations	479
Introduction	479
The Nature of the Unconventional Transmissible Agent	481
Different Types of Pathological Prion Protein Deposits	481
Prion Types and Prion Strains	482
Prion Types Determine the Clinical Phenotype	482
Prion Types Exist Across the Species	483
The Transmission Route-Dependent Susceptibility Is Influenced by Prion Types	484
Human Risk of Bovine Spongiform Encephalopathy Is Not a Primary but Secondary Transmission	485
References	486
22. Vitamin D Immunomodulatory Role in Chronic and Acute Viral Diseases	489
HASNA AZMI, NAJWA HASSOU AND MOULAY MUSTAPHA ENNAJI	
Introduction	489
Hepatitis C Virus	490
Human Immunodeficiency Virus	494
Influenza Virus	497
Vitamin D History	499
References	504
Further Reading	506
23. Viral Etiology Involved in the Emergence of the Breast Cancer	507
MASNAH LABYED, NAJWA HASSOU, BAHIA BENNANI AND MOULAY MUSTAPHA ENNAJI	
Abbreviations	507
Introduction	508
History of Breast Cancer	508
Viral Etiology of Breast Cancer	517
Conclusion	527
References	529
Further Reading	536
24. Emergence of Oncogenic High-Risk Human Papillomavirus Types and Cervical Cancer	539
KACOUTAR ANOUAR TADLAOUI, NAJWA HASSOU, BAHIA BENNANI AND MOULAY MUSTAPHA ENNAJI	
Abbreviations	539

Introduction	540
History of Human Papillomavirus Discovery	541
Epidemiology of Human Papillomavirus Infection	542
Human Papillomavirus Characteristic	543
Human Papillomavirus Transmission Modes	550
Human Papillomavirus Viral Multiplication	551
Natural History of Cervical Cancer	554
Diagnosis: Human Papillomavirus Genome Detection	557
Molecular Amplification Techniques	559
Treatment	560
Treatment of Invasive Cervical Cancer	562
Human Papillomavirus Vaccination	563
Conclusion	564
Acknowledgments	565
References	565
Further Reading	570

25. Status of *Helicobacter pylori* Coinfection With Epstein-Barr Virus in Gastric Cancer 571

FATIMA EZZAHRA RIHANE, NAJWA HASSOU, SELLAMA NADIFI
AND MOULAY MUSTAPHA ENNAJI

Abbreviations	571
Introduction	571
Epidemiology	572
The Contribution of <i>Helicobacter pylori</i> and Epstein-Barr Virus to Cancer Development	574
Epigenetic Modification and DNA Methylation	576
<i>Helicobacter pylori</i> and Epstein-Barr Virus Interaction in Gastric Epithelial Cells	579
Conclusion	580
References	580
Further Reading	585

26. Ninety Years of DNA Methylation 587

IMANE SAIE, NAJWA HASSOU AND MOULAY MUSTAPHA ENNAJI

Introduction	587
The Profile of DNA Methylation	588
Establishing and Maintaining DNA Methylation	593
CpG Islands and Genomic Functions: Link With Transcription and Replication	598
Density in CpG Islands Along the Genes	603
Role of DNA Methylation in Cancer	604
The Emergence of DNA Methylation in Cancer	606
Prediction of Methylated DNA in Gene Promoters by the Use of Markov	608
Conclusion	613
References	613
Further Reading	617

27. Emergence and Reemergence of Viral Zoonotic Diseases: Concepts and Factors of Emerging and Reemerging Globalization of Health Threats 619

HAMID EL AMRI, MOHAMED BOUKHARTA, FATHIAH ZAKHAM AND MOULAY MUSTAPHA ENNAJI

Abbreviations	619
Introduction	619
Historical Overview	622
Universal Concepts	622
Factors of Pathogens Emergence and Reemergence	626
Prevention Strategy and Constraints	630
Conclusion	631
Acknowledgments	631
References	631
Further Reading	634

28. *Capripoxvirus* Diseases: Current Updates and Developed Strategies for Control 635

SARA LAFAR, KHALIL ZRO AND MOULAY MUSTAPHA ENNAJI

Abbreviations	635
Introduction	636
<i>Capripoxviruses</i>	637
Modes of Transmission	641
Dissemination Risk Factors	642
Clinical Signs and Symptoms	642
Economic Impact and Losses	643
Temporospatial Distribution and Recent Outbreaks	643
Diagnosis and Differentiation of <i>Capripoxvirus</i>	646
Prophylaxis and Developed Strategies for Control and Eradication	650
Conclusion	653
Acknowledgments	654
References	654
Further Reading	655

29. Koi Herpesvirus Disease 657

MENA ZIARATI AND FATEMEH HASSANTABAR

Abbreviations	657
Introduction	657
Virus Morphology and Genomic Characteristics	658
Host and Geographical Distribution	659
Molecular Epidemiology and Phylogenetic Analysis	660
Signs of Disease	663
Transmission	663
Conclusion	667
References	668

30. Viral Nervous Necrosis Disease	673
MOHAMMAD JALIL ZORRIEHAHRA	
Abbreviations	673
Introduction	673
Virus Morphogenesis and Genomic Characteristics	674
Hosts and Geographical Distribution	675
Molecular Epidemiology and Phylogenetic Analysis	676
Clinical Signs	679
Anatomo-Pathological Lesions	680
Histopathological Lesions	681
Acute Infection	682
Subclinical Infection	683
Chronic Form	684
Viral Detection	685
Disease Transmission	689
Protective and Control Strategies	693
Conclusion and Suggestion for Future Research	694
References	695
Further Reading	703
31. Viral Hemorrhagic Septicemia Disease	705
MARYAM DADAR	
Introduction	705
Virus Morphogenesis and Genomic Characteristics	706
Hosts and Geographical Distribution	706
Molecular Epidemiology and Phylogenetic Analysis	707
Clinical Signs of Disease and Diagnosis	708
Viral Detection	709
Disease Transmission	709
Protective and Control Strategies	710
Conclusion	711
References	712
32. White Spot Syndrome Virus	717
AGHIL DASHTIANNASAB	
Introduction	717
Virus Morphology and Taxonomic Association	718
Genome Characteristic	719
Geographical Distribution	720
Clinical Signs and General Pathology	720
Disease Transmission	722
Host Range	723
Techniques for White Spot Syndrome Virus Detection	723
Management and Control Strategy	724
References	725
Further Reading	728

33. Avian Coronavirus: Case of Infectious Bronchitis Virus Pathogenesis, Diagnostic Approaches, and Phylogenetic Relationship Among Emerging Strains in Middle East and North Africa Regions	729
KHADIJA KHATABY, YASSINE KASMI, AMAL SOUIRI, CHAIFIQA LOUFI AND MOULAY MUSTAPHA ENNAJI	
Introduction	729
Pathogenesis	732
Diagnosis Approaches	734
Phylogenetic Relationship of African Variant and the Reference Strains of Infectious Bronchitis Virus	737
Conclusion	742
References	742
34. Role of Genetic and Molecular Dynamics in the Emergence, Reemergence, and Interspecies Transmission of Equine Influenza Viruses	745
MOHAMED BOUKHARTA, HAMID EL AMRI, FATHIAH ZAKHAM AND MOULAY MUSTAPHA ENNAJI	
Abbreviations	745
Introduction	746
Influenza Virus	747
Emergence and Evolution of Equine Influenza Viruses	767
Pathophysiology	771
Genetic Dynamism of Influenza Viruses	772
Conclusion	773
Acknowledgments	774
References	774
35. Emerging and Reemerging Fowl Aviadenovirus Infections	781
BAOUI KICHOU, KHALIL ZRO, MOHAMED MOUAHID AND JAOUAD BERRADA	
Introduction	781
Occurrence and Geographical Distribution	783
Transmission and Pathogenicity	787
Clinical Course and Pathobiology	791
Diagnosis, Prevention, and Control	793
Conclusion and Perspectives	795
References	795
Further Reading	803
36. Avian Reoviruses: Case of Viral Arthritis Disease Overview of Viral Arthritis in Poultry	805
MOHAMMED BENTAHAR, KHADIJA KHATABY AND MOULAY MUSTAPHA ENNAJI	
Introduction	805

Etiology and Pathogenesis	806
Transmission and Epidemiology	806
Virus Characterization	807
Pathology	809
Conclusion	811
References	811
Further Reading	812
37. Emergent Mosquito-Borne Flaviviruses and Animal Diseases	815
SALAH HAMMAMI AND THAMEUR BEN HASSINE	
Flaviviridae Family—Flavivirus Genus	815
Physicochemical Properties	822
Emergent Mosquito-Borne Flaviviruses and Animal Diseases	829
References	838
Further Reading	844
38. Emerging and Reemerging Viral Diseases of Solanaceous Crops and Management Strategies for Detection and Eradication	847
AMAL SOURI, KHADIJA KHATABY, YASSINE KASMI, MUSTAPHA ZEMZAMI, SAAID AMZAZI AND MOULAY MUSTAPHA ENNAJI	
Abbreviations	847
Introduction	848
Viral Diseases of Solanaceous Crops	849
Diagnosis of Viral Pathogen	865
Eradication Strategy	869
Conclusion	871
References	872
Further Reading	877
39. Enteric Adenoviruses: Emerging of a Public Health Threat	879
NAJWA HASSOU, RIHAB BOUSEETTINE, NABIL ABOUCHOAIB AND MOULAY MUSTAPHA ENNAJI	
Abbreviations	879
Introduction	879
Adenovirus: A Brief Historical Classification Review	880
The Viral Etiology of Adenoviruses	882
Epidemiology	885
Pathogenicity and Mode of Transmission	886
Infection Process of Adenovirus	888
Transmission Mode	889
Detection of Adenoviruses: Methods Under Development and Perspectives	891
Prevention and Treatment	895
Use of Adenovirus in Gene Therapy	896
Emergence and Reemergence of Adenovirus	897
References	898
Further Reading	904

306	40. Waterborne Transmission of Enteric Viruses and Their Impact	
306	on Public Health	907
307	HEBAS ROUSEETTINE, NAJWA HASSOU, HLIMA BESSI AND MOULAY MUSTAPHA ENNAJI	
309	Abbreviations	907
311	Introduction	907
312	Part I: General Overview on Enteric Viruses	908
	Part II: Enteric Viruses	916
315	Conclusion	927
	Acknowledgment	928
	References	928
315	Further Reading	932
322	41. Pacific Oyster, <i>Crassostrea gigas</i> Mortality Associated With	
329	the Herpesvirus: Etiology and Environmental Emerging Factors	933
338	NAJWA HASSOU, NABIL ABOUCHOAB, ABDELLATIF ORBI	
344	AND MOULAY MESTAPHA ENNAJI	
	Abbreviations	933
347	Introduction	934
	The Pacific Oyster <i>Crassostrea gigas</i>	937
	Massive Mortality of the Oyster <i>Crassostrea gigas</i> Infected With Ostreid	
347	herpesvirus 1	940
348	Epidemiology	948
349	Considerations for Disease Management in Aquatic Environments	957
365	The Emergence and Spread of Ostreid herpesvirus 1 μ Var	959
369	References	959
371	Further Reading	969
372	42. Acute Viral Hepatitis A: A Global Health Concern	971
377	RYTIMA TAREK, NAJWA HASSOU AND MOULAY MUSTAPHA ENNAJI	
379	Abbreviations	971
	Hepatitis A Virus	971
	Hepatitis A Disease	972
379	Transmission	976
379	Hepatitis A as a Foodborne Disease	977
380	Geographical Distribution	978
382	Acknowledgments	979
385	References	979
386	43. Emergence of Norovirus Strains in Worldwide Distribution	
388	and Environmental Spreading	981
389	RYTIMA TAREK, NAJWA HASSOU, MOHAMMED NABIL BENCHEKROUN, SAID BOUGHRIBIL,	
391	JOMEL HAFID, RACHID SAIL, HLIMA BESSI AND MOULAY MUSTAPHA ENNAJI	
395	Abbreviations	981
396	Introduction	982
397		
398		
904		

Norovirus	983
Pathology of Norovirus	986
Transmission of Norovirus	987
Norovirus and Environment Interaction	988
Emergence of Human Norovirus Strains	990
Prevention and Vaccination	992
Conclusion	993
Acknowledgments	993
References	993
Further Reading	998

44. The Waterborne and Foodborne Viral Diseases Related to Reemerging of Poliovirus 999

A. HATIB, NAJWA HASSOU, MOHAMMED NABIL BENCHEKROUN, RIHAB BOUSEETTINE, JAMAL HAFID, HLIMA BESSI AND MOULAY MUSTAPHA ENNAJI

Abbreviations	999
Introduction	1000
Current History of Poliovirus	1002
Poliovirus Viral Taxonomy	1002
Poliovirus Pathogenesis	1004
Poliovirus Diagnosis Approaches	1008
Poliovirus Medical Prophylaxis	1010
Poliovirus Antiviral Vaccine	1010
Conclusion	1011
Acknowledgments	1011
References	1012

45. Worldwide Emerging and Reemerging Rotavirus Genotypes: Genetic Variability and Interspecies Transmission in Health and Environment 1017

RIHAB BOUSEETTINE, NAJWA HASSOU, A. HATIB, B. BERRADI, HLIMA BESSI AND MOULAY MUSTAPHA ENNAJI

Abbreviations	1017
Introduction	1018
Rotavirus: Structure and Genetic Arrangement	1019
Rotavirus and Clinical Manifestations	1023
Rotavirus Pathology	1024
Collective Foodborne Illness and Transmission	1025
Prevention and Transmission of Rotavirus Infection	1026
Emergence of Rotavirus	1028
Mechanisms of the Genetic Diversity of Rotavirus	1029
Risk of the Emergence of New Strains of Rotavirus	1029
The Prevention by Vaccination Against Infection to Rotavirus	1031
Conclusions	1033
Acknowledgments	1034

References	1034
Further Reading	1039
46. Emerging Plant Viruses	1041
BLIZ ERTUNC	
Introduction	1041
Conclusion	1059
References	1059
47. Gynecomammary and Prostate Tumors: Epidemiology and Viral Etiology	1063
BERJAS ABUMSIMIR, KAWTAR ABUALALA, CHAYMAE JROUNDI, IKRAM TIABI, THERSE KASSI, HLIMA BESSI, MOHAMMED NABIL BENCHEKROUN, LONGO MBENZA, ANTOINE TSHIMPI, BIENVENU LEBWAZE MASSAMBA, DONATIEN MOUKASSA, ANICE ANTOINE ABENA, ETIENNE MOKONDJIMBOE, JEAN-ROSAIRE IBARA AND MOULAY MUSTAPHA ENNAJI	
Introduction	1063
Epidemiology of Prostate Cancer	1065
Epidemiology of Gynecological and Mammary Cancers	1072
Conclusion	1080
References	1081
Further Reading	1084
Index	1085
