R 202

Section I General variety of organisms

Chapter 1 Studying Biology

- 1.1 Wonders of the living world 3
- 1.2 What is biology? 3
- 1.3 Why study biology? 9
- 1.4 How to study biology? 12
- 1.5 How can you study biology well? 13

Chapter 2 General variety of organisms

- 2.1 The diversity of organisms 18
- 2.2 Classification of organisms 20
- 2.3 Different plant and animal groups 21
- 2.4 Characteristics of the animal groups 23
- 2.5 Characteristics of the plant groups 28
- 2.6 Use of biological keys 32

Integrated learning: Going to the Ocean Park Puzzle 40

Section II The cell

Chapter 3 The basic structure of a cell

- 3.1 The discovery of cells 45
- 3.2 The basic structure of a cell 46
- 3.3 Comparing plant and animal cells 49
- 3.4 Observing cells under the light microscope 51

Chapter 4 Life processes in a cell

- 4.1 The concept of metabolism 61
- 4.2 Enzymes and their role in metabolism 62
- 4.3 The transport of materials across cell membranes 71

Chapter 5 Cell division and the levels of body organization

- 5.1 Cell division 86
- 5.2 The levels of body organization 90

Integrated learning: Learning about cells Puzzle 96

Section III Maintenance of life

Chapter 6 The modes of nutrition

6.1	The basic concept of nutrition	101
6.2	The modes of nutrition	102
6.3	Saprophytic nutrition	104
6.4	Parasitic nutrition	106

Chapter 7 Food and humans

7.1	Food and food substances	111
7.2	Carbohydrates	113
7.3	Fats	116
7.4	Proteins	117
7.5	Tests for carbohydrates, fats and proteins	118
7.6	Vitamins	121
7.7	Minerals	125
7.8	Water	126
7.9	Dietary fibre	126
7.10	What does the food we eat contain?	127
7.11	A balanced diet	130
7.12	The energy content of food	131
7.13	Energy requirement	134

Chapter 8 Nutrition in mammals

8.1	Nutrition in mammals	140
8.2	Ingestion	140
8.3	Teeth	141
8.4	The alimentary canal	149
8.5	Movement of food along the alimentary canal	152
8.6	Digestion	154
8.7	Absorption	165
8.8	Assimilation	168
8.9	Egestion	171

Chapter 9 Nutrition in plants

9.1	How do green plants obtain nutrients?	180
9.2	Photosynthesis	180
9.3	The structure of a leaf in relation to photosynthesis	192
9.4	Mineral requirements in plants	195
