<i>List of Figures</i>	x
<i>List of Abbreviations</i>	xi
<i>Preface to Paperback Edition</i>	xiii
1 Introduction	
Overview	1
Situating the Research Questions	4
Early Commercial Uses of Genetic Engineering	10
Reflections on Ensuing Chapters	14
2 Evolutionary Innovations	
Introduction	16
Biological and Socio-Economic Evolution	17
Socio-Economic Evolution	22
Technological Innovation as Evolutionary	26
Evolutionary Economics	36
Issues about Technical and Economic Change	40
Firms' Competences and Perceptions	42
Lock-in and Trajectories	44
Radical versus Incremental Change	47
Summary and Conclusions	48
3 Science and Technology Interacting	
Introduction	50
Science and Technology; Markets and Government	51
Public Context	59
Comparing the Environments	61
Defining the Environments	67
Summary and Conclusions	71
4 Understanding Genetic Engineering	
Introduction to Genetic Engineering for Pharmaceuticals	76
Some Biological Basics	80

Continuity or Discontinuity?	83
Public Debate	87
5 Generating Research: the Early to Mid-1970s	
Introduction	91
The Recombinant DNA Controversy and Scientific Activities	93
Inside University of California, San Francisco and Genentech	99
American Regulation and News about Research	107
Swedish Regulation and News about Research	110
Early Commercial Interest from Kabi in Sweden	113
Summary and Conclusions	121
6 Generating Research: the Mid- to Late 1970s	
Introduction	126
Eli Lilly's Active Search for a New Supply of Insulin	128
Genentech's Activities	133
Kabi—Swedish Politics and Commercialization	141
Rivals at and in UCSF and Genentech	148
Science and Commercialization	157
Conflicts of Commercialization within UCSF	163
Summary and Conclusions	166
7 Specific Firm Challenges, 1979–83	
Introduction	171
Directing Integration towards Commercial Uses	173
Integrating Genetic Engineering into Kabi in Sweden	179
Commercializing Genetic Engineering from Genentech's Perspective	194
Other Challenges of Complementary Technologies	203
Analytical Methods and Protein Purification	217
Summary and Conclusions	222
8 Multiple Uses and Markets for Human Growth Hormone	
Introduction	228
Multiple Interpretations of Use	230
A Market Choice with Technical Implications, 1983	236

Shaking up hGH Markets in 1985	242
Monopoly and Competition	249
Summary and Conclusions	252
9 Conclusions for Evolutionary Economics	
Introduction	256
Linearity or Evolutionary Complexity?	257
Firms' Competences and Perceptions to Generate Novelty	259
Lock-in and Trajectories	265
Radical versus Incremental Change	271
Socio-Economic Evolution	274
10 Conclusions for Science and Technology	
Introduction	280
Agents, Environments, and Knowledge-Seeking Activities	281
Cross-Stimulus of Scientific and Technological Activities	291
Selection as a Social Process	295
Concluding Remarks	297
<i>References</i>	300
<i>Index</i>	317
