

Contents

Contributors	xiii
1 Incubating new ideas about avian reproduction S.J. Reynolds & D.C. Deeming	1
2 The fossil record and evolution of avian egg nesting and incubation D.C. Deeming	8
3 Nest construction behaviour S.D. Healy, K.V. Morgan, & I.E. Bailey	16
4 Functional properties of nests D.C. Deeming & M.C. Mainwaring	29
5 The influence of predation on the location and design of nests M.C. Mainwaring, S.J. Reynolds, & K. Weidinger	50
6 Nest construction and incubation in a changing climate M.C. Mainwaring	65
7 Microbiology of nests and eggs A. West, P. Cassey, & C.M. Thomas	75
8 Control of invertebrate occupants of nests I. López-Rull & C. Macías García	82
9 Egg allometry: influences of phylogeny and the altricial-precocial continuum G.F. Birchard & D.C. Deeming	97
10 Egg quality, embryonic development, and post-hatching phenotype: an integrated perspective T.D. Williams & T.G.G. Groothuis	113
11 Egg signalling: the use of visual, auditory, and chemical stimuli K. Brulez, T.W. Pike, & S.J. Reynolds	127

12 Improvements in our understanding of behaviour during incubation	142
V. Marasco & K.A. Spencer	
13 The energetic costs of incubation	152
A. Nord & J.B. Williams	
14 Influence of incubation temperature on offspring phenotype and fitness in birds	171
G.R. Hepp, S.E. DuRant, & W.A. Hopkins	
15 Advances in techniques to study incubation	179
J.A. Smith, C.B. Cooper, & S.J. Reynolds	
16 Applications of incubation science to aviculture and conservation	196
D.C. Deeming & N.S. Jarrett	
17 The role of citizen science in studies of avian reproduction	208
C.B. Cooper, R.L. Bailey, & D.I. Leech	
18 Perspectives on avian nests and eggs	221
D.C. Deeming & S.J. Reynolds
