Preface vi

Credits vii

Dictionary 1

Biochemistry (Chronology) 70

Bioinformatics (Feature) 75

Cell Biology (Chronology) 109

Genetically Modified Organisms (Feature) 269

Genetics (Chronology) 273

Learning in Animals (Feature) 367

Microarray Technology (Feature) 403

Microscopy (Chronology) 409

RNA Interference (Feature) 570

Viruses (Feature) 683

Vitamins (Chronology) 686

Appendices

SI units 701

Simplified phylogenetic tree of the animal kingdom 703

Simplified phylogenetic tree for plants 704

Geological time scale 705

Navigating the body 706

Model organisms and their genomes 708

Major mass extinction of species 710

Nobel prizewinning contributions to biology 711

Evolution 726

Useful websites 727
