Preface ix

CHAPTER ONE: What Is a Vertebrate?	1
1.1 Vertebrates in Context	1
1.2 What Makes a Vertebrate?	3
1.3 Breaking Branches	9
1.4 Summary	13
CHAPTER TWO: <i>Shaking the Tree</i>	15
2.1 Embranchments and Transformation	15
2.2 Evolution and Ancestors	17
2.3 Summary	25
CHAPTER THREE: <i>Embryology and Phylogeny</i>	27
3.1 From Embryos to Desperation	27
3.2 Genes and Phylogeny	33
3.3 Summary	39
CHAPTER FOUR: <i>Hox and Homology</i>	41
4.1 A Brief History of Homeosis	41
4.2 The Geoffroy Inversion	44
4.3 The Phylotypic Stage	45

4.4	The Meaning of Homology	46
4.5	Summary	48
CHAPTER FIVE: <i>What Is a Deuterostome?</i>		51
CHAPTER SIX: <i>Echinoderms</i>		55
CHAPTER SEVEN: <i>Hemichordates</i>		65
CHAPTER EIGHT: <i>Amphioxus</i>		75
CHAPTER NINE: <i>Tunicates</i>		85
CHAPTER TEN: <i>Vertebrates</i>		101
CHAPTER ELEVEN: <i>Some Non-deuterostomes</i>		117
CHAPTER TWELVE: <i>Vertebrates from the Outside, In</i>		123
12.1	Introduction	123
12.2	The Organizer	125
12.3	The Notochord	129
12.4	Somitogenesis	133
12.5	Segmentation and the Head Problem	136
12.6	The Nervous System	144
12.7	Neural Crest and Cranial Placodes	153
12.8	The Skeleton	159
12.9	Summary	161
CHAPTER THIRTEEN: <i>How Many Sides Has a Chicken?</i>		165
13.1	Introduction	165
13.2	The Enteric Nervous System	167
13.3	The Head and the Heart	168
13.4	The Urogenital System	171
13.5	The Gut and Its Appendages	174
13.6	Immunity	175
13.7	The Pituitary Gland	177
13.8	Summary	178

CHAPTER FOURTEEN: <i>Some Fossil Forms</i>	179
14.1 Fossils in an Evolutionary Context	179
14.2 Meiofaunal Beginnings	183
14.3 Cambroernids	184
14.4 Vetulicystids	185
14.5 Vetulicolians	186
14.6 Yunnanozoans	190
14.7 <i>Pikaia</i>	192
14.8 <i>Cathaymyrus</i>	194
14.9 The Earliest Fossil Vertebrates	194
14.10 Conodonts	195
14.11 Ostracoderms and Placoderms	197
14.12 Summary	198
CHAPTER FIFTEEN: <i>Breaking Branches, Building Bridges</i>	201
15.1 Defining the Deuterostomes	201
15.2 Ambulacraria	204
15.3 Echinoderms	204
15.4 Hemichordates	205
15.5 Chordates	206
15.6 Amphioxus	210
15.7 The Common Ancestry of Tunicates and Vertebrates	211
15.8 Tunicates	212
15.9 Vertebrates	213
15.10 Cyclostomes	214
15.11 Gnathostomes	214
15.12 The Evolution of the Face	215
15.13 Crossing the Bridge	216
15.14 Conclusions	218
Notes	225
References	251
Index	297
