<i>List of Figures</i>	xi
<i>Preface to the Second Edition</i>	xv
<i>Acknowledgements</i>	xvii
<i>Author Biographies</i>	xxii
1 Evolution, Adaptation, Cognition, and Behavior: An Introduction	1
On Minds, Thought, and Intelligence in Animals	3
Historical Background: Darwin, Wallace, and the Minds of Beasts	4
A Cautionary Tale and a Canon	11
Clever Hans: the horse with the intelligence of a 14-year-old child	11
Lloyd Morgan's canon: the most awesome weapon in animal psychology	14
Now and the Future	14
Further Reading	15
Web sources	15
2 Other Ways of Seeing the World	17
Vision	18
The pigeon's eye view of the world: a case study in animal vision	21
Patterns and pictures	23
Smell	27
Hearing	30
Magnetic sensitivity	32
Electric sense	34
Sensitivity to air pressure	35
Conclusions	35
Further Reading	36
Web sources	37
3 Concept Formation	39
Perceptual Concepts	40
Object Permanence	50
Relational Concepts	56
Same-different	57
Stimulus equivalence	59
Conclusions	62
Further Reading	62
Web sources	63
4 Time and Number	65
Time	66
Learning about time of day	66
Learning about short time intervals	68
Numbers	74
Relative number judgments: more or less	74

Absolute number	76
Counting	78
Conclusions	85
Further Reading	85
Web sources	85
5 Cause and Effect	87
Pavlovian Conditioning	89
Outline	89
Pavlovian conditioning through the animal kingdom	91
What is learned in Pavlovian conditioning?	95
Instrumental Conditioning	98
Outline	98
Learning from consequences	99
Instrumental conditioning throughout the animal kingdom	101
What is learned in instrumental conditioning?	105
Biological predispositions and roadblocks	109
Conclusions	112
Further Reading	115
Web sources	115
6 Reasoning	117
Tool Use	117
Insight	121
Reasoning by Analogy	129
Series Learning I: Transitive Inference	130
Series Learning II: Linear Ordering	134
Fairness	135
Conclusions	137
Further Reading	138
Web sources	139
7 Navigation	141
Spatial Reasoning	141
Dead reckoning	142
Routes, landmarks, and beacons	144
The sun-compass	146
Cognitive maps and shortcuts	146
Case studies	152
Pigeon homing	152
Bees foraging	157
Distractions, side biases, and other considerations	160
Migration	163
Conclusions	168
Further Reading	169
Web sources	169
8 Social Cognition and Self-Awareness	171
Self-Recognition: Is That Me? – Studies on Mirror Recognition	172
Sensitivity to the Actions of Others	179
What Are You Looking At? Sensitivity to the Gaze of Others	187
Theory of Mind	190
Do You See What I See?	193
Conclusions	197
Further Reading	198
Web sources	198

9	Social Learning	201
	Social Influence	201
	Social facilitation	202
	Stimulus and local enhancement	203
	Affordance learning	205
	Social Learning: What Is It, Why Do It?	206
	Imitation – The Sincerest Form of Flattery	211
	True imitation	212
	Emulation	216
	Same end, different means	217
	Same means, different end	217
	Same means, competitive end	220
	Teaching	221
	Teaching in meerkats	223
	Teaching in ants	224
	Teaching in apes	225
	Conclusions	226
	Further Reading	228
	Web sources	228
10	Remembering	231
	Simple Memories	232
	Short-Term Memory	234
	Capacity	237
	Duration	237
	Serial order effects	239
	What causes forgetting?	242
	Long-Term Memory	245
	Food-storing birds	245
	Marsh tits and chickadees	245
	Nutcrackers	247
	Pigeons	249
	Implicit and Explicit Memory	252
	Metamemory – knowledge of what one remembers	252
	Episodic memory – what, when, and where	253
	Conclusions	255
	Further Reading	256
	Web sources	256
11	Animal Communication in the Wild	259
	The Dance of the Honeybee	262
	Chicken Alarm Calls	267
	Vervet Monkeys of Kenya	268
	Diana Monkeys Eavesdropping on Other Species' Signals	269
	Dolphins	270
	The Function and Evolution of Referential Calls	273
	Conclusions	274
	Further Reading	274
	Web sources	274
12	Language	277
	Ape Language Studies	278
	Words	278
	Sentences	287
	Kanzi	289

Language Training with Other Species	291
Communicating with Dolphins	291
Irene Pepperberg and Alex	292
Conclusions	293
Further Reading	295
Web sources	295
13 Conclusions and Comparisons	297
Brain Size	297
Learning Set	301
Taking the Person Out of Animal Personality	304
Are There Really Differences between Species?	307
Further Reading	311
Web sources	311
Notes	312
References	313
Index	339
