PREFACE xiii

ACKNOWLEDGMENTS xvii

PART I **Distribution and Diversity of Pregnancy** 1

ONE **One Generation Inside Another** 3

The Sexual Life Cycle 5

Gametogenesis 6

Gamete Deployment 11

Syngamy 13

Ontogeny and Pregnancy 13

Ontogenetic and Evolutionary Gradations of Pregnancy 15

Location of Fertilization 16

Nature of Parturition 16

Embryonic Provisioning and Parental Care 16

Viviparous Pregnancy in the Reproductive Timeline 17

Heterochrony 18

Some Unorthodox Routes to Internal Pregnancy 21

Internal Gestation Following External Fertilization 21

Virgin Births: Internal Gestation Without Sex 23

Sexual Inequalities and Female Authority Over Reproduction 26

Provision Ova with Substantive Yolk? 28

Accept Sperm for Internal Fertilization? 29

- Encase Embryo in Egg?* 29
- Give Birth to Live Young?* 30
- Entrust Offspring Care to Males?* 30

Other Sexual Asymmetries Related to Biological Parenthood 30

- Assurance of Maternity* 31
- Assessment of Paternity* 31

Evolutionary Reconstructions 31

Summary 33

TWO Vertebrate Live-Bearers: The Borne and the Born 37

Viviparity 37

Evolutionary Origins 38

Developmental Sequences 39

Trophic Relationships Between Mother and Fetus 40

The Cast of Viviparous Vertebrates 41

Bony Fishes 41

Cartilaginous Fishes 54

Fossil Fishes 59

Amphibians 60

Reptiles 62

Mammals 65

Summary 67

THREE Vertebrate Alternatives to Standard Pregnancy 71

Oviparity: The Borne and the Hatched 71

What Kinds of Eggs Are Shed? 72

What Is the State of the Offspring at Parturition? 73

What Type of Casing Surrounds the Egg? 73

The Cast of Oviparous Vertebrates 74

Birds 74

Bony Fishes 77

Cartilaginous Fishes 77

Amphibians 77

Reptiles 79

Mammals 80

Intermediate Conditions and Evolutionary Transitions 82

Ovoviviparity 83

Evolutionary Conversions 86

Summary 91

FOUR Nonvertebrate Brooders 93

- The Cast of Players 94
 - Annelida* 95
 - Platyhelminthes* 97
 - Cnidaria* 98
 - Bryozoa* 100
 - Echinodermata* 101
 - Mollusca* 102
 - Arthropoda* 107
 - Urochordata* 113
 - Plants* 113
- Evolutionary Transitions 113
 - Planktotrophy to Lecithotrophy* 114
 - Onward to Female Brooding* 116
 - Onward to Paternal Care of Offspring* 118
- Conflicts Promoted by Brooding 119
 - Sibling Conflict* 119
 - Parent-Offspring Conflict* 119
 - Parent-Parent Conflict* 120
- Genetic Parentage Assessments 120
- Summary 122

FIVE Human Pregnancy in Mythology and in Real Life 125

- Conception and Contraception 127
- Extracorporeal Fertilization 129
- Superfetation 130
- Twinning or Multibirth Pregnancy 131
- Ectopic Pregnancy 133
- From Preterm Labor to Prolonged Pregnancy 134
- Spontaneous Abortion 135
- Induced Abortion and Infanticide 136
- Cesarean Section 137
- Precocious Puberty 139
- Standard Vaginal Delivery 140
- The Placenta 142
- Menopause 145
- Male Pregnancy 145
- Summary 146

PART II Evolutionary Ramifications of Pregnancy 149

SIX Natural Selection During Mammalian Pregnancy 151

- Delayed Implantation 151
- Polyembryony 154
 - Sporadic* 155
 - Constitutive* 155
- Dizygotic Twinning 161
- Cooperation and Conflict Within the Nuclear Family 164
- Evolutionary Conflict in Mother-Offspring Relations 166
 - Common Medical Problems During Pregnancy* 168
 - Immunological Challenges* 170
 - Infanticide* 172
 - Menstruation* 173
- Other Categories of Conflict 174
 - Sibling Competition* 174
 - Parental Conflicts and Genetic Imprinting* 176
- Summary 182

SEVEN Sexual Selection and Piscine Pregnancy 185

- Anisogamy, Sexual Selection, and Animal Mating Behaviors 185
- Categories of Sexual Selection 189
 - Intragender Versus Intergender* 189
 - Female Choice Versus Male Choice* 191
 - Precopulatory Versus Postcopulatory Female Choice* 192
- Female Pregnancy and Traditional Female Choice 192
- Internal Male Pregnancy 195
 - Evolutionary Origins* 195
 - Brood Pouch Designs* 199
 - Genetic Parentage Analyses* 201
- External Pregnancy 204
 - Oral Brooding* 205
 - Nest Tending by Males* 207
 - Cuckoldry and Alternative Reproductive Tactics* 209
 - Multiple Mating by Bourgeois Males* 212
 - Other Routes to Foster Parentage* 212
 - Egg Mimicry* 212
 - Filial Cannibalism* 215
- Summary 216

EIGHT Pregnancy in a Comparative Light 219

Sexual Selection and Multiple Mating by the Pregnant
Gender 220

Fishes with Alternative Pregnancy Modes 226

Fishes Versus Mammals 228

Invertebrates Versus Vertebrates 229

Natural Selection Stemming from Pregnancy and Brooding 233

Gestation as Parental Investment 233

Alternative Brooding Modes 235

Other Contrarian Selective Pressures 236

Conflict and Mating Systems 237

Footprints of Selection or Phylogeny? 237

Summary 237

EPILOGUE 241**APPENDIX: MOLECULAR-GENETIC PARENTAGE ANALYSIS 243****GLOSSARY 255****REFERENCES CITED 275****INDEX 313**
