<i>Preface</i>	viii
<i>Guided tour</i>	x
<i>About the authors</i>	xii
<i>Acknowledgements</i>	xiii
1. Basic arithmetic skills	1
2. Fractions and decimals	20
3. Units of measurement	38
4. Ratios and percentages	55
5. Logarithms	70
6. Concentrations and dilutions	91
7. Measurements in biology	119
8. Analytical biology	154
9. Molecular biology	183
10. Enzyme kinetics	215
11. Statistical calculations	244
12. Graphs, trendlines and equations	267
<i>Answers</i>	308
<i>Appendix 1 Arithmetic operations and commonly used Greek letters</i>	351
<i>Appendix 2 Periodic table</i>	353
<i>Appendix 3 Statistical tables</i>	354
<i>Appendix 4 Correlation and linear regression analysis using Excel</i>	356
<i>Index</i>	363
