
Table of Contents

- 1 An overview on eukaryote origins and evolution: the beauty of the cell and the fabulous gene phylogenies 1

DAVID S. HORNER, ROBERT P. HIRT

SECTION I *Eukaryote Diversity and Phylogeny*

- 2 Excavata and the origin of amitochondriate eukaryotes 27

ALASTAIR G.B. SIMPSON, ANDREW J. ROGER

- 3 The evolutionary history of plastids: a molecular phylogenetic perspective 55

JOHN M. ARCHIBALD, PATRICK J. KEELING

- 4 Chromalveolate diversity and cell megaevolution: interplay of membranes, genomes and cytoskeleton 75

THOMAS CAVALIER-SMITH

- 5 Origin and Evolution of animals, fungi and their unicellular allies (Opisthokonta) 109

BARBARA T. STEENKAMP, SANDRA L. BALDAUF

SECTION II *Phylogenetics and Comparative Genomics*

- 6 Pitfalls in tree reconstruction and the phylogeny of eukaryotes 133

EMANUELA GRIBALDO, HERVÉ PHILIPPE

- 7 The importance of evolutionary biology to the analysis of genome data 153

EDITHAUGH CHARLESWORTH

- 8 Eukaryotic phylogeny in the age of genomics: evolutionary implications of functional differences 171

JOHN W. STELLER

9	Genome phylogenies	189
	ROBERT L. CHARLEBOIS, ROBERT G. BEIKO, MARK A. RAGAN	
10	Genomics of microbial parasites: the microsporidial paradigm	207
	GUY MÉTÉNIER, CHRISTIAN P. VIVARÈS	
11	Evolutionary contribution of plastid genes to plant nuclear genomes and its effects on the composition of the proteomes of all cellular compartments	237
	DARIO LEISTER, ANJA SCHNEIDER	

SECTION III Evolutionary Cell Biology and Epigenetics

12	Protein translocation machinery in chloroplasts and mitochondria: structure, function and evolution	259
	HRVOJE FULGOSI, JÜRGEN SOLL, MASAMI INABA-SUEPICE	
13	Mitosomes, hydrogenosomes and mitochondria; variations on a theme?	289
	MARK VAN DER GIEZEN, JORGE TOVAR	
14	Eukaryotic cell evolution from a comparative genomic perspective: the endomembrane system	309
	JOEL B. DACKS, MARK C. FIELD	
15	The membranome and membrane heredity in development and evolution	335
	THOMAS CAVALIER-SMITH	
16	Epigenetic inheritance and evolutionary adaptation	353
	CSABA PÁL, LAURENCE D. HURST	
	Index	371
	List of Systematics Association Publications	385
