## PART 12

### Pollution

1

- 42 The sinking ark: pollution and the worldwide loss of biodiversity

3

J. A. MCNEELY

- 43 The impact of insecticides and herbicides on the biodiversity and productivity of aquatic communities

23

R. A. RELYEA

- 44 The globalization of nitrogen deposition: consequences for terrestrial ecosystems

44

P. MATSON, K. A. LOHSE AND S. J. HALL

- 45 Ultraviolet radiation, toxic chemicals and amphibian population declines

64

A. R. BLAUSTEIN, J. M. ROMANSIC, J. M. KIESECKER

AND A. C. HATCH

## PART 13

### Climate change

91

- 46 Biological consequences of global warming: is the signal already apparent?

93

L. HUGHES
