

CONTENTS

<i>Contributors to Volume 81</i>	vii
<i>Series Editor's Preface</i>	ix
<i>Preface</i>	xi
1. Water Chemistry and Microbiology	1
Reham M. Abu Shmeis	
1. Water Chemistry	2
2. Water Microbiology	24
References	55
Further Reading	56
2. Quorum Sensing as Language of Chemical Signals	57
Sang-Ryoung Kim and Kyung-Min Yeon	
1. History of Quorum Sensing	57
2. Mechanism of Quorum Sensing	61
3. Type of Signal Molecules	78
4. Future of Quorum Sensing Studies	85
References	86
3. Effect of Quorum Sensing	95
Mohamad Hadla and Mohamad A. Halabi	
1. Introduction	95
2. Physiological Processes Regulated by QS	98
3. QS and Biotechnology	109
4. Conclusion and Future Perspectives	111
References	112
4. Quorum Quenching	117
Nouha Bakaraki Turan and Güleda Önköl Engin	
1. Quorum Quenching Definition and Strategy	117
2. Significance of Quorum Quenching and Application Fields	122
3. Resistance to QQ Strategies	131
4. Screening of QS Inhibitors	132
5. Conclusion and Future Prospects	142
References	143

5. Membrane Bioreactors for Wastewater Treatment	151
Hanife Sari Erkan, Nouha Bakaraki Turan, and Güleda Önkal Engin	
1. Membrane Bioreactor Technology	151
2. Membrane Fouling in MBRs	156
3. Wastewater Treatment in MBRs	177
References	188
6. Membrane Bioreactor for Pharmaceuticals and Personal Care Products Removal From Wastewater	201
Sufia Hena and Hussein Znad	
1. Introduction	202
2. Emerging Micropollutants	203
3. CAS Process to Remove PPCPs	221
4. MBR to Remove PPCPs	225
5. Hybrid MBR	241
6. Possible Hazardous Proceeding in MBR	246
7. Conclusion	247
References	248
7. Principles and Recent Advancements in Microextraction Techniques	257
Dotse Selali Chormey and Sezgin Bakırdere	
1. Introduction	259
2. Sampling	260
3. Classical Extraction Methods	262
4. Microextraction Techniques	268
5. Conclusions	287
References	288
Index	295
