Preface to Volumes 21–26

Preface to Volumes 1–20

Scientific Editorial Team

Editorial Advisory Board

Using the Encyclopedia

<i>Acanthamoeba castellanii</i> Cell Culture	1	Asterids	198
Acorales (Sweet Flag)	4	Auditory Processing	204
Adaptation and Natural Selection: Overview	6	Autonomic Control	219
Adeno-associated Viruses	10	Autonomic Failure in Humans	226
S-Adenosylmethionine	19	Autonomous Cell Specification: Overview	233
Adventitious Roots	26	Autoradiography and Fluorography	241
Affective Disorders	28	Autosomal Recessive Traits and Diseases	243
Affinity Purification of Antibodies	35	Aves (Birds)	250
Ageing – Future Directions for Research in the Biology of Ageing	39	Avicenna (Ibn Sina)	257
Ageing and the Immune System	45	Axon Guidance at the Midline	261
AIDS as a World Health Problem	50	Bacterial Cell Differentiation	270
AIDS: Understanding HIV Transmission	57	Bacterial Evolution	278
Alcohol and Pregnancy and the Fetal Alcohol Syndrome	63	Bacterial Genetics	287
Algal Calcification and Silification	70	Bacterial Membrane Transport: Organization of Membrane Activities	292
Algal Spores	76	Bacterial Membrane Transport: Superfamilies of Transport Proteins	300
Alismatales (Water Plantains)	82	Bacteriophages in Industry	309
Alkaline Blotting of DNA Gels	86	Baculoviruses	317
Altruism – A Philosophical Analysis	88	Bark	325
Amborellales	91	Barophiles and Piezophiles	328
Ames/ <i>Salmonella</i> Assay: A Bacterial Test for Mutagens	94	Base Excision Repair, AP Endonucleases and DNA Glycosylases	336
Anaesthesia, The History of	98	Base Pairing in RNA: Unusual Patterns	344
Angiosperms	100	Beadle, George Wells	351
Animal Cell Culture Scale-up	106	Behaviour Genetics – Human	352
Animal Cell Separation and Fractionation	109	Behavioural Ecology	358
Antibody Engineering	114	Benign Intracranial Hypertension	365
Antibody Microarrays	120	Binding of NAD(P) ⁺ to Dehydrogenases	368
Antibody Purification by Ammonium Sulfate Precipitation	127	Binz, Carl	374
Antibody Synthesis <i>in Vitro</i>	130	Biodegradation of Organic Pollutants	375
Antibody-dependent Cell-mediated Cytotoxicity (ADCC)	137	Biodiversity – Threats	382
Anticancer Drugs, History of	141	Bioethics in Embryonic Research	390
Antigen – Antibody Complexes	144	Bioethics of New Assisted Reproduction	396
Antigens: Thymus-dependent	152	Bioethics of Organ Transplantation	403
Antimalarial Agents, History of	156	Biogeographical Regions	409
Antimicrobial Resistance: Epidemiology	158	Biological Computation	416
Archaea: Diversity	164	Biological Warfare: History and Current Developments	423
Arctic Ecosystems	173	Biomechanical Studies of Food and Diet Selection	429
Arenaviruses	180	Biotin	436
Artificial Chromosomes	186	Black, Joseph	443
Asterales (Sunflower)	195	B-lymphocyte Activation	444
		Bone Marrow Failure	451
		Boreal and Temperate Forests	462

Botulinum Toxin	469	Capillary Blotting of RNA and DNA Gels	555
Brain Imaging as a Diagnostic Tool	475	Carbohydrates	558
Brassicaceae (Mustard Family)	482	Cardiac Arrhythmias	569
Brassicales (Mustard)	487	Carnivorous Plants	580
Brenner, Sydney	489	Cell Culture Contamination	586
Bridges, Calvin Blackman	491	Cell Culture: Basic Procedures	588
Bryophytes (Liverworts)	492	Cell Cycle	594
Buchheim, Rudolf	499	Cell Cycle: Synchronization at Various Stages	602
Bursa of Fabricius	500	Cell Junctions	607
<i>Caenorhabditis elegans</i> Neural Development	506	Cell Nucleus, The	614
<i>Caenorhabditis elegans</i> Vulval Induction	514	Cell Size Control	622
<i>Caenorhabditis elegans</i> : Determination of Germ Cell Fate	519	Cellular Thermodynamics	632
Calcium Channels in Presynaptic Terminals	526	Centrosome Cycle	642
Calibration of a Transilluminator for UV Fixation of DNA to Nylon Filters	532	Cerebral Cortex Diseases and Cortical Localization	647
Callose and Related Glucans	534	Chaperonins	655
Cancer Research, History of	549	Checkpoints in the Cell Cycle	660
		Chemical Ecology	667
		Chiroptera (Bats)	673
