List of contributors	x
Foreword	xiv
EUGENE P. ODUM	
Preface	xvi
Acknowledgments	xviii
PART I Introduction and concepts	1
1 Coupling landscape ecology with natural resource management: Paradigm shifts and new approaches	3
JIANGUO LIU AND WILLIAM W. TAYLOR	
PART II Landscape structure and multi-scale management	21
2 Integrating landscape structure and scale into natural resource management	23
JOHN A. WIENS, BEATRICE VAN HORNE, AND BARRY R. NOON	
3 Focal patch landscape studies for wildlife management: Optimizing sampling effort across scales	68
JULIE M. BRENNAN, DARREN J. BENDER, THOMAS A. CONTRERAS, AND LENORE FAHRIG	
4 Managing for small-patch patterns in human-dominated landscapes: Cultural factors and Corn Belt agriculture	92
ROBERT C. CORRY AND JOAN IVERSON NASSAUER	
5 A landscape approach to managing the biota of streams	114
CHARLES F. RABENI AND SCOTT P. SOWA	

6	Linking ecological and social scales for natural resource management	143
	KRISTIINA A. VOGT, MORGAN GROVE, HEIDI ASBJORNSEN, KEELY B. MAXWELL, DANIEL J. VOGT, RAGNHILDUR SIGURÐARDÓTTIR, BRUCE C. LARSON, LEO SCHIBLI, AND MICHAEL DOVE	
PART III Landscape function and cross-boundary management		177
7	Assessing the ecological consequences of forest policies in a multi-ownership province in Oregon	179
	THOMAS A. SPIES, GORDON H. REEVES, KELLY M. BURNETT, WILLIAM C. MCCOMB, K. NORMAN JOHNSON, GORDON GRANT, JANET L. OHMANN, STEVE L. GARMAN, AND PETE BETTINGER	
8	Incorporating the effects of habitat edges into landscape models: Effective area models for cross-boundary management	208
	THOMAS D. SISK AND NICK M. HADDAD	
9	Aquatic-terrestrial linkages and implications for landscape management	241
	REBECCA L. SCHNEIDER, EDWARD L. MILLS, AND DANIEL C. JOSEPHSON	
PART IV Landscape change and adaptive management		263
10	A landscape-transition matrix approach for land management	265
	VIRGINIA H. DALE, DESMOND T. FORTES, AND TOM L. ASHWOOD	
11	Tactical monitoring of landscapes	294
	DEAN L. URBAN	
12	Landscape change: Patterns, effects, and implications for adaptive management of wildlife resources	312
	DANIEL T. RUTLEDGE AND CHRISTOPHER A. LEPCZYK	
13	Landscape ecology in highly managed regions: The benefits of collaboration between management and researchers	334
	JOHN B. DUNNING JR.	
PART V Landscape integrity and integrated management		347
14	Putting multiple use and sustained yield into a landscape context	349
	THOMAS R. CROW	
15	Integrating landscape ecology into fisheries management: A rationale and practical considerations	366
	WILLIAM W. TAYLOR, DANIEL B. HAYES, C. PAOLA FERRERI, KRISTINE D. LYNCH, KURT R. NEWMAN, AND EDWARD F. ROSEMAN	

16	Applications of advanced technologies in studying and managing grassland landscape integrity	390
	GREG A. HOCH, BRENT L. BROCK, AND JOHN M. BRIGGS	
17	An integrated approach to landscape science and management	412
	RICHARD J. HOBBS AND ROBERT LAMBECK	
PART VI Syntheses and perspectives		431
18	Bridging the gap between landscape ecology and natural resource management	433
	MONICA G. TURNER, THOMAS R. CROW, JIANGUO LIU, DALE RABE, CHARLES F. RABENI, PATRICIA A. SORANNO, WILLIAM W. TAYLOR, KRISTIINA A. VOGT, AND JOHN A. WIENS	
19	Landscape ecology of the future: A regional interface of ecology and socioeconomics	461
	EUGENE P. ODUM	
20	Epilogue	466
	RICHARD T. T. FORMAN	
	Index	473

Color plates between pages 268 and 269
