

Contents

Introduction 1

- Purpose 1
- Recent Interest 1
- Economic Impact 2

1. Collecting Cyanobacteria 7

- Qualitative Analysis 7
- Quantitative Analysis 8

2. Description 11

- Internal Anatomy 11
- External Anatomy 13
- Cellular Anatomy 14
- Replication of Cyanobacterial Cells 16
- Habitat 19

3. Cyanobacterial Toxicity 23

- Measuring Toxicity 24

4. Cyanotoxin Classification 27

- Cyclic Peptide Cyanotoxins 27
- Alkaloid Cyanotoxins 29
- Lipopolysaccharides 33
- Neurotoxic Amino Acids 34
- Other Cyanotoxins 35
- Summary 35

5. Preventive Maintenance and Control of Algal Blooms 39

6. The Key 43

- Key Instructions 43
- List of Genera 44

Pre-Key to Common Cyanobacteria Genera 45

The Key to Common Cyanobacteria Genera 47

7. Descriptions of Genera 55

Anabaena 55

Anabaenopsis 58

Aphanizomenon 60

Aphanocapsa 64

Arthrospira 66

Borzia 68

Calothrix 70

Chroococcus 72

Coelosphaerium 74

Cylindrospermopsis 76

Cylindrospermum 78

Dolichospermum 80

Geitlerinema 83

Gloeocapsa 85

Gomphosphaeria 88

Hapalosiphon 90

Komvophoron 92

Lyngbya 94

Merismopedia 96

Microcoleus 98

Microcystis 100

Nodularia 102

Nostoc 105

Oscillatoria 108

Phormidium 110

Planktolyngbya 112

Planktothrix 114

Plectonema 116

Pseudanabaena 118

Raphidiopsis 120

Rivularia 122

Snowella 124

Spirulina 126

Synechococcus 128

Synechocystis 130

Wollea 132

Woronichinia 134

Glossary 137
