

Contents

Preface	v
Contributors	xiii
In Vitro Autoradiographic Localization of Receptor-Stimulated [³⁵S]GTPγS Binding in Brain	
<i>Laura J. Sim, Dana E. Selley, and Steven R. Childers</i>	1
Small-Molecular-Weight G Proteins: Characterization and Significance	
<i>Rajinder Pal Bhullar</i>	29
G Proteins in the Etiology and Treatment of Mental Disorders	
<i>Jon O. Gerdaladze and Per Wiik Johansen</i>	53
G Protein α- and βγ-Subunits as Possible Mediators of Dopamine- D1:D2 Receptor Ligand Binding Interactions	
<i>Zdenek B. Pristupa, Roger K. Sunahara, and Hyman B. Niznik</i>	81
Modulation of G Proteins in Rat Striatum by Neuroleptic Drugs and a Peptidomimetic Analog of Pro-Leu-Gly-NH₂	
<i>Willard J. Costain, Suresh K. Gupta, Rodney L. Johnson, and Ram K. Mishra</i>	119
G Proteins and Animal Models of Parkinson's Disease	
<i>Eric R. Marcotte and Ram K. Mishra</i>	139
Protein Kinase C as a Modulator of 5-HT_{1A} and Dopamine-D2 Receptor Signaling	
<i>Paul R. Albert, Paola M. C. Lembo, and Stephen J. Morris</i>	163
Molecular Mechanisms of Opiate Addiction in the Nucleus Accumbens: Morphine Regulation of G Proteins	
<i>Katherine L. Widnell and Eric J. Nestler</i>	189
G Protein-Linked Opioid Receptors	
<i>Pushkar Sharma, Ivone Gomes, and Shail K. Sharma</i>	207
G Protein-Coupled Melatonin Receptors	
<i>Lennard P. Niles</i>	223
G Proteins in the Pathophysiology and Treatment of Mood and Anxiety Disorders	
<i>Fussemi K. Manji</i>	283
Determination of Adenosine Receptor-G Protein Coupling: Significance for Psychiatric and Neurological Disorders	
<i>Anna Lorenzen</i>	327

G Proteins and Mood Disorders <i>Jun-Feng Wang and L. Trevor Young</i>	353
G Proteins in the Medial Temporal Lobe in Schizophrenia <i>Fumihiko Okada</i>	379
G Protein Abnormalities in Schizophrenia <i>Naoki Nishino, Noboru Kitamura, Chang-Qing Yang, Hideo Yamamoto, Yutaka Shirai, Yasuo Kajimoto, and Osamu Shirakawa</i>	393
Index	419
