

Contents

	<i>List of Contributors</i>	page ix
	<i>Preface Ants and Plants: A Prominent Interaction in a Changing World</i>	xv
	Paulo S. Oliveira and Suzanne Koptur	
Part I	Landscape Mosaics, Habitat Fragmentation, and Edge Effects	1
1	Ant Biodiversity and Functional Roles in Fragmented Forest and Grassland Ecosystems of the Agricultural Midwest, North America	3
	Thomas O. Crist and Kaitlin U. Campbell	
2	Diversity and Specificity of Ant-Plant Interactions in Canopy Communities: Insights from Primary and Secondary Tropical Forests in New Guinea	26
	Petr Klimes	
3	Living Together in Novel Habitats: A Review of Land-Use Change Impacts on Mutualistic Ant-Plant Symbioses in Tropical Forests	52
	Tom M. Fayle, Chua Wanji, Edgar C. Turner, and Kalsum M. Yusah	
4	Ecology of Leaf-Cutting Ants in Human-Modified Landscapes	73
	Marcelo Tabarelli, Felipe F. S. Siqueira, Julia Backé, Rainer Wirth, and Inara R. Leal	
Part II	Ant-Seed Interactions and Man-Induced Disturbance	91
5	Global Change Impacts on Ant-Mediated Seed Dispersal in Eastern North American Forests	93
	Robert J. Warren II, Joshua R. King, Lacy D. Chick, and Mark A. Bradford	
6	Effects of Human Disturbance and Climate Change on Myrmecochory in Brazilian Caatinga	112
	Inara R. Leal, Laura C. Leal, Fernanda M. P. Oliveira, Gabriela B. Arcoverde, and Alan N. Andersen	

7	Anthropogenic Disturbances Affect the Interactions between Ants and Fleshy Fruits in Two Neotropical Biodiversity Hotspots	133
	Paulo S. Oliveira, Alexander V. Christianini, Ana G. D. Bieber, and Marco A. Pizo	
Part III	Ant-Plant Protection Systems under Variable Habitat Conditions	157
8	Plasticity and Efficacy of Defense Strategies against Herbivory in Ant-Visited Plants Growing in Variable Abiotic Conditions	159
	Akira Yamawo	
9	Interhabitat Variation in the Ecology of Extrafloral Nectar Production and Associated Ant Assemblages in Mexican Landscapes	179
	Cecilia Díaz-Castelazo, Nathalia Chavarro-Rodríguez, and Victor Rico-Gray	
10	Integrating Ecological Complexity into Our Understanding of Ant-Plant Mutualism: Ant-Acacia Interactions in African Savannas	200
	Todd M. Palmer and Truman P. Young	
11	Ecological and Evolutionary Responses of Protective Ant-Plant Mutualisms to Environmental Changes	223
	Doyle McKey and Rumsaïs Blatrix	
Part IV	Effect of Invasive Ants on Plants and Their Mutualists	247
12	Playing the System: The Impacts of Invasive Ants and Plants on Facultative Ant-Plant Interactions	249
	Suzanne Koptur, Ian M. Jones, Hong Liu, and Cecilia Díaz-Castelazo	
13	Biological Invasions and Ant-Flower Networks on Islands	267
	Nico Blüthgen, Christopher Kaiser-Bunbury, and Robert R. Junker	
14	Mutualisms and the Reciprocal Benefits of Comparing Systems with Native and Introduced Ants	290
	Joshua H. Ness and David A. Holway	
15	Invasion Biology and Ant-Plant Systems in Australia	309
	Lori Lach	

Part V	Applied Ant Ecology: Agroecosystems, Ecosystem Engineering, and Restoration	331
16	Services and Disservices of Ant Communities in Tropical Cacao and Coffee Agroforestry Systems Yann Clough, Stacy Philpott, and Teja Tscharntke	333
17	Ant-Plant-Herbivore Interactions in Northern Neotropical Agroecosystems Inge Ambrecht and Ivette Perfecto	356
18	Leaf-Cutting Ants in Patagonia: How Human Disturbances Affect Their Role as Ecosystem Engineers on Soil Fertility, Plant Fitness, and Trophic Cascades Alejandro G. Farji-Brener, Mariana Tadey, and María N. Lescano	377
Part VI	Perspectives	391
19	The Study of Interspecific Interactions in Habitats under Anthropogenic Disturbance: Importance and Applications Martin Heil and Marcia González-Teuber	393
20	Why Study Ant-Plant Interactions? Andrew J. Beattie	410
	<i>Index</i>	419

The color plates section is found between pages 332 and 333.
