

CONTENTS

<i>List of Text-figures</i>	<i>page xiii</i>
<i>Chapter I</i>	
TECHNICAL METHODS	1
<i>In vitro</i> cultivation	5
<i>Chapter II</i>	
THE EARLY DEVELOPMENT	8
First stages and the formation of endoderm	9
The formation, development and disappearance of the streak	18
The mechanism of gastrulation movements	29
Maps of presumptive areas	32
<i>Chapter III</i>	
COMPARISON WITH OTHER VERTEBRATES	39
Recapitulation	39
Comparison of presumptive maps	42
<i>Chapter IV</i>	
EPIGENETIC PROCESSES ASSOCIATED WITH ENDODERM FORMATION	51
Changes in the relations between epiblast and hypoblast	51
Separation of epiblast and hypoblast	57
Isolation experiments in the pre-streak blastoderm	58
Injury experiments	62
<i>Chapter V</i>	
DEFECT AND ISOLATION EXPERIMENTS ON THE PRIMITIVE-STREAK STAGE	69
Defect experiments	71
Transections of the blastoderm, and isolation experiments	77
Relations between mesoderm and endoderm	90

Chapter VI

THE ORGANISATION CENTRE AT THE PRIMITIVE-STREAK STAGE	<i>page</i> 93
Transplantation experiments	93
The reality of the induction phenomenon	95
Organiser grafts	96
The analysis of induction: competence and self-differentiation	106
The analysis of induction: evocation and individuation	110
Evocation	114
Individuation and regional determination	115

Chapter VII

BIOCHEMICAL MECHANISMS OF EARLY MORPHOGENESIS	129
---	-----

Chapter VIII

THE DEVELOPMENT OF SOME ORGAN SYSTEMS IN LATER STAGES	140
The early development of the head	140
The origin of the optic cup	143
Later stages of the brain	145
The general form of the body	148
Later stages of the eye	151
The ear and nasal placode	156
The hypophysis	159
The nervous system	160
The somites and notochord	165
The skeleton	165
The limbs	166
The tail bud	174
The nephroi	175
The heart and circulatory system	179
Endodermal organs	182

Chapter IX

THE PLUMAGE	page 184
Melanophores	184
Feathers	188
Feather patterns	196

Chapter X

SOME GENETIC EFFECTS AND THEIR PHENOCOPIES	201
Rumplessness	201
Crepper	207
Polydactyly	215
Micromelia and 'short upper beak'	220

Chapter XI

THE DEVELOPMENT OF THE EPIGENETIC ORGANISATION OF THE CHICK	224
<i>Bibliography</i>	240
<i>Index</i>	269
