Contributors	vii	6 Introduction to β -Catenin-Independent Wnt Signaling Pathways	89
Preface	xi	<i>Susanne Kühl and Michael Kühl</i>	
Part 1 Molecular Signaling Mechanisms: From Pathways to Networks	1	7 Molecular Mechanisms of Wnt Pathway Specificity	101
1 Wnt Signal Production, Secretion, and Diffusion	3	<i>Alexandra Schambony, Guido J.R. Zaman, and Folkert Verkaar</i>	
<i>Madelon M. Maurice and Hendrik C. Korswagen</i>		8 Modulation of Wnt Signaling by Endocytosis of Receptor Complexes	113
2 Wnt Signaling at the Membrane	15	<i>Akira Kikuchi, Shinji Matsumoto, Katsumi Fumoto, and Akira Sato</i>	
<i>Gary Davidson and Christof Niehrs</i>		9 New Insights from Proteomic Analysis of Wnt Signaling	125
3 Wnt Signal Transduction in the Cytoplasm: an Introduction to the Destruction Complex	33	<i>Matthew P. Walker, Dennis Goldfarb, and Michael B. Major</i>	
<i>Tony W. Chen, Heather A. Wallace, Yashi Ahmed, and Ethan Lee</i>		10 New Insights about Wnt/ β -Catenin Pathway Mechanisms from Global siRNA Screens	137
4 An Overview of Gene Regulation by Wnt/ β -Catenin Signaling	51	<i>Tenzin Gocha and Ramanuj DasGupta</i>	
<i>Chen U. Zhang and Ken M. Cadigan</i>		11 Mathematical Models of Wnt Signaling Pathways	153
5 Finding a Needle in a Genomic Haystack: Genome-Wide Approaches to Identify Wnt/TCF Transcriptional Targets	73	<i>Michael Kühl, Barbara Kracher, Alexander Groß, and Hans A. Kestler</i>	
<i>Chandan Bhambhani and Ken M. Cadigan</i>		12 The Wnt's Tale: On the Evolution of a Signaling Pathway	161
		<i>Jenifer C. Croce and Thomas W. Holstein</i>	

Part 2 Selected Key Molecules in Wnt Signaling

- | | | | |
|---|-----|--|-----|
| 13 Secreted Wnt Inhibitors or Modulators
<i>Paola Bovolenta, Anne-Kathrin Gorny,
Pilar Esteve, and Herbert Steinbeisser</i> | 179 | 23 Wnt Signaling in Kidney Organogenesis
<i>Kimmo Halt and Seppo Vainio</i> | 303 |
| 14 Frizzleds as G Protein-Coupled Receptors
<i>Gunnar Schulte</i> | 195 | 24 Wnt Signaling Regulation of Tissue Architecture (EMT and MET) and Morphogenesis: Consequences for Colorectal and Liver Cancer
<i>Theodora Fiftis, Bang M. Tran, Renate H.M. Schwab, Timothy M. Johanson, Nadia Warner, Nick Barker, and Elizabeth Vincan</i> | 315 |
| 15 Dishevelled at the Crossroads of Pathways
<i>Vítězslav Bryja and Ondřej Bernatík</i> | 207 | 25 Wnt Signaling in Adult Stem Cells: Tissue Homeostasis and Regeneration
<i>Frank J.T. Staal and Riccardo Fodde</i> | 329 |
| 16 β -Catenin: a Key Player in Both Cell Adhesion and Wnt Signaling
<i>Jonathan Pettitt</i> | 217 | 26 Restoring Tissue Homeostasis: Wnt Signaling in Tissue Regeneration After Acute Injury
<i>Günes Özhan and Gilbert Weidinger</i> | 339 |
| 17 Evolutionary Diversification of Vertebrate TCF/LEF Structure, Function, and Regulation
<i>Stefan Hoppler and Marian L. Waterman</i> | 225 | | |
| 18 Insights from Structural Analysis of Protein-Protein Interactions by Wnt Pathway Components and Functional Multiprotein Complex Formation
<i>Zhihong Cheng and Wenqing Xu</i> | 239 | | |

Part 3 Wnt Signaling in Embryonic Development and Adult Tissue Homeostasis

- | | | | |
|--|-----|---|-----|
| 19 Wnt Signaling in Early Vertebrate Development: From Fertilization to Gastrulation
<i>Eliza Zylkiewicz, Sergei Y. Sokol, and Stefan Hoppler</i> | 253 | 27 Wnt Signaling and Colorectal Cancer
<i>Kevin Myant and Owen J. Sansom</i> | 359 |
| 20 Wnt/ β -Catenin Signaling in Embryonic Stem Cells: Insights into Early Mammalian Development
<i>Kathryn C. Davidson</i> | 267 | 28 Wnt Signaling in Melanoma
<i>Jamie N. Anastas and Andy J. Chien</i> | 369 |
| 21 Wnt Signaling in Neural Development
<i>Richard I. Dorsky</i> | 279 | 29 Wnt Signaling in Mood and Psychotic Disorders
<i>Stephen J. Haggarty, Karun Singh, Roy H. Perlis, and Rakesh Karmacharya</i> | 379 |
| 22 Wnt Signaling in Heart Organogenesis
<i>Stefan Hoppler, Silvia Mazzotta, and Michael Kühl</i> | 293 | 30 Neuropsychiatric Disease-Associated Genetic Variation in the Wnt Pathway
<i>Stephen J. Haggarty, Karun Singh, Roy H. Perlis, and Rakesh Karmacharya</i> | 393 |
| | | 31 Wnt Signaling in Dementia
<i>Stephen J. Haggarty</i> | 411 |
| | | 32 Therapeutic Targeting of the Wnt Signaling Network
<i>Felicity Rudge and Trevor Dale</i> | 421 |
| | | Index | 445 |
