

contents

preface.....	xi
authors.....	xiii
1 important biological features	1
orders commonly used in research	1
Anseriformes	1
Galliformes	2
Columbiformes	2
Passeriformes	2
Psittaciformes	3
anatomy and function	3
respiratory system.....	3
gastrointestinal system.....	6
urogenital system	8
cutaneous/integumentary system	9
musculoskeletal system.....	10
cardiovascular system.....	13
hematology and immune system.....	14
endocrine system.....	14
nervous and sensory systems	17
references.....	19
2 husbandry.....	25
introduction	25
housing	26
Housing Types	27
Cages	27

Pen.....	29
Flight cage	29
Outdoor housing	30
Brooders	31
Space recommendations.....	32
Provision of food and water.....	33
Nutrition	33
Grit	35
Environmental conditions	36
Temperature.....	36
Light	37
Humidity.....	37
Ventilation.....	37
Noise	38
environmental enrichment	38
Social Enrichment	39
Inanimate Enrichment.....	39
Conditions Secondary to Poor Housing Environments....	43
Feather pecking	43
Stereotypic behavior.....	44
Vocalization	44
Disease	44
Sanitation.....	45
Pest control	46
Identification and Record Keeping.....	47
Identification	47
Methods	47
Record keeping.....	48
Transportation.....	49
references.....	51
3 management.....	55
regulatory agencies and compliance	55
institutional animal care and use committee.....	56
sources of birds and procurement	57
quarantine and conditioning	58
occupational health and safety considerations.....	58
references.....	61
4 veterinary care	63
general physical examination	63

Examination of the Environment	64
Animal Observations Prior to Handling	65
Sex Determination	67
Head and Neck.....	68
Skin and Feathers	69
Musculoskeletal	70
Cardiovascular and Lower Respiratory Systems.....	71
Coelom	72
general diagnostic tests	72
Fecal Exam.....	72
Urinalysis	72
Clinical Chemistry	73
Hematology	75
common clinical problems and their management.....	76
Cutaneous and Feather Diseases	76
Broken blood feather	76
Cutaneous and subcutaneous masses	77
Cysts.....	77
Ectoparasites	77
Feather loss.....	79
Other infectious etiologies	80
Digestive Disease	80
Infectious etiology	80
Noninfectious etiology	84
Respiratory Diseases/Conjunctivitis	84
General management of respiratory disease	84
Infectious etiology	84
Noninfectious etiology	86
Reproductive Diseases	87
Egg binding.....	87
Neurologic Diseases	87
Infectious etiology	87
Noninfectious etiology	88
Miscellaneous Diseases	88
Malocclusion	88
Splay leg.....	88
Traumatic injury	88
anesthesia and analgesia agents	89
Analgesics and Anesthetics.....	90
Opioids.....	90
NSAIDs	90
Inhalants	90

Benzodiazepenes.....	91
Dissociatives	91
Alpha2 receptor agonists	92
Propofol.....	92
Barbiturates.....	92
Anesthetic Procedures and Considerations	92
Fasting.....	92
Premedication and induction.....	92
Anesthesia systems	93
Intubation	93
Catheters	95
Monitoring and supportive care.....	96
Anesthetic complications.....	97
euthanasia	98
references.....	98

5 experimental methodology.....	107
capture and restraint	107
capture techniques.....	108
manual restraint	110
chemical restraint	112
various sampling techniques	112
Oropharyngeal and Cloacal Swabs.....	112
Sinus Flush	113
Crop Lavage.....	113
Semen Collection	114
Tissue Biopsies	114
Urine/Feces Collection	114
Body Weight Measurement.....	115
blood collection.....	115
blood collection sites.....	117
Survival Collection Techniques	118
Jugular vein.....	118
Ulnaris (wing) vein.....	119
Medial metatarsal vein.....	120
Terminal (Nonsurvival) Techniques.....	121
Occipital venous sinus	121
Cardiocentesis.....	121
compound administration	122
Parenteral Techniques	122

Subcutaneous (SC) administration.....	122
Intravenous (IV) administration	124
IV Catheter Placement Technique.....	124
Intraosseus (IO) administration.....	125
Intramuscular (IM) administration.....	127
Vascular access ports (VAPs).....	128
Implants.....	128
Enteral Techniques	129
Oral administration	129
Oropharyngeal.....	129
Crop.....	130
grooming and general maintenance.....	132
necropsy.....	133
references.....	138
6 resources.....	141
organizations.....	141
diagnostic laboratories	143
publications.....	144
Books	144
General avian biology and medicine	144
Avian medicine-poultry focus	145
Avian medicine-pigeon focus	145
Avian medicine-wild bird focus.....	145
Avian clinical pathology	146
Laboratory birds	146
Formularies	147
Periodicals	147
Electronic Publications and Websites	148
vendors	149
Sources of Animals.....	149
Feed and Nutritional Supplements.....	149
Caging, Veterinary, and Miscellaneous Equipment	150
Contact information for vendors	150
index.....	153
