

Brief Table of Contents

1	Introduction – A Brief History of Revolutions in the Study of Insect Biodiversity	1
	Part I Habitats and Regions	13
2	Insect Biodiversity in the Arctic	15
3	Insect Biodiversity in Indochina: A Window into the Riches of the Oriental Region	59
4	Biodiversity of Arthropods on Islands	81
5	Beneficial Insects in Agriculture: Enhancement of Biodiversity and Ecosystem Services	105
6	Insects in Caves	123
	Part II Taxa	153
7	Biodiversity of the Thysanurans (Microcoryphia and Zygentoma)	155
8	Biodiversity of Zoraptera and Their Little-Known Biology	199
9	Biodiversity of Embiodea	219
10	Biodiversity of Orthoptera	245
11	Biodiversity of Phasmatodea	281
12	Biodiversity of Dermaptera	315
13	Biodiversity of Grylloblattodea and Mantophasmatodea	335
14	Biodiversity of Blattodea – the Cockroaches and Termites	359
15	Biodiversity of Mantodea	389

- 16 Biodiversity of Psocoptera 417
- 17 Biodiversity of Ectoparasites: Lice (Phthiraptera) and Fleas (Siphonaptera) 457
- 18 Biodiversity of Thysanoptera 483
- 19 The Diversity of the True Hoppers (Hemiptera: Auchenorrhyncha) 501
- 20 The Biodiversity of Sternorrhyncha: Scale Insects, Aphids, Psyllids, and Whiteflies 591
- 21 Biodiversity of the Neuropterida (Insecta: Neuroptera, Megaloptera, and Raphidioptera) 627
- 22 Biodiversity of Strepsiptera 673
- 23 Biodiversity of Mecoptera 705

Part III Perspectives 721

- 24 The Fossil History of Insect Diversity 723
- 25 Phenotypes in Insect Biodiversity Research 789
- 26 Global Change and Insect Biodiversity in Agroecosystems 801
- 27 Digital Photography and the Democratization of Biodiversity Information 839
- 28 Bee (Hymenoptera: Apoidea: Anthophila) Diversity Through Time 851
- 29 Insect Biodiversity in Culture and Art 869

Index of Arthropod Taxa Arranged by Order and Family 899

Index of Arthropod Taxa Arranged Alphabetically 943

Index of non-Arthropod Taxa Arranged Alphabetically 975

Subject Index 979
