

Contents

<i>Preface</i>	iii
1. Introduction	1
<i>Donat-P. Häder and Kunshan Gao</i>	
2. Solar UV Radiation and Penetration into Water	12
<i>Uwe Feister and Donat-P. Häder</i>	
3. Ocean Climate Changes	32
<i>Donat-P. Häder and Kunshan Gao</i>	
4. Effects of Global Climate Change on Cyanobacteria	45
<i>Jainendra Pathak, Haseen Ahmed, Rajneesh, Shailendra P. Singh, Donat-P. Häder and Rajeshwar P. Sinha</i>	
5. Phytoplankton Responses to Ocean Climate Change Drivers: Interaction of Ocean Warming, Ocean Acidification and UV Exposure	62
<i>Donat-P. Häder and Kunshan Gao</i>	
6. Are Warmer Waters, Brighter Waters?: An Examination of the Irradiance Environment of Lakes and Oceans in a Changing Climate	89
<i>Patrick Neale and Robyn Smyth</i>	
7. Effects of Global Change on Aquatic Lower Trophic Levels of Coastal South West Atlantic Ocean Environments	116
<i>Macarena S. Valiñas, Virginia E. Villafañe and E. Walter Helbling</i>	
8. Effects of Climate Change on Corals	146
<i>Donat-P. Häder</i>	
9. Responses of Calcifying Algae to Ocean Acidification	162
<i>Kai Xu and Kunshan Gao</i>	
10. Effects of a Changing Climate on Freshwater and Marine Zooplankton	174
<i>Craig E. Williamson and Erin P. Overholt</i>	
11. UV-B Radiation and the Green Tide-forming Macroalga <i>Ulva</i>	202
<i>Jihae Park, Murray T. Brown, Hojun Lee, Christophe Vieira, Lalit K. Pandey, Eunmi Choi, Stephen Depuydt, Donat-P. Häder and Taejun Han</i>	

12. Mid-Latitude Macroalgae	227
<i>Donat-P. Häder</i>	
13. Polar Macroalgae	253
<i>Donat-P. Häder</i>	
14. Effects of Climate Change on Aquatic Bryophytes	268
<i>Javier Martínez-Abaigar and Encarnación Núñez-Olivera</i>	
15. Ecophysiological Responses of Mollusks to Oceanic Acidification	288
<i>Ting Wang and Youji Wang</i>	
16. Climate Change Effects on the Physiology and Ecology of Fish	303
<i>Wang Xiaojie</i>	
Index	317
