

Contents

<i>Preface</i>	v
1. The Macrofungal Resource: Extent, Current Utilization, Future Prospects, and Challenges <i>David L. Hawksworth</i>	1
2. Global Diversity of the Genus <i>Ganoderma</i> : Taxonomic Uncertainties and Challenges <i>Viktor Papp</i>	10
3. <i>Auriculosocypha</i> : A Fascinating Instance of Fungus-Insect-Plant Interactions <i>Patinjareveettil Manimohan</i>	34
4. Biodiversity and Ecology of Boreal Pine Woodlands Ectomycorrhizal Fungi in the Anthropocene <i>Luis Villarreal-Ruiz and Cecilia Neri-Luna</i>	40
5. The Roles of Macro Fungi (Basidiomycotina) in Terrestrial Ecosystems <i>John Dighton</i>	70
6. Nutritional Attributes of Two Wild Mushrooms of Southwestern India <i>Sudeep D. Ghate and Kandikere R. Sridhar</i>	105
7. Taxonomic and Domestication Studies on <i>Lentinus squarrosulus</i> <i>Atri, N.S., Rajinder Singh, Mridu, Lata and Upadhyay, R.C.</i>	121
8. Some Edible, Toxic and Medicinal Mushrooms from Temperate Forests in the North of Mexico <i>Fortunato Garza Ocañas, Miroslava Quiñónez Martínez, Lourdes Garza Ocañas, Artemio Carrillo Parra, Horacio Villalón Mendoza, Humberto Gonzalez Rodríguez, Ricardo Valenzuela Garza, Gonzalo Guevara Guerrero, Jesús García Jiménez and Mario García Aranda</i>	144
9. Biotechnological Exploitation of Macrofungi for the Production of Food, Pharmaceuticals and Cosmeceuticals <i>Susanna M. Badalyan and Alessandra Zambonelli</i>	199
10. Bioactive Metabolites from Basidiomycetes <i>Christian Agyare and Theresa Appiah Agana</i>	230

11. Terpenoids of <i>Russula</i> (Basidiomycota), with Emphasis on Cucurbitane Triterpenes <i>Marco Clericuzio and Alfredo Vizzini</i>	254
12. The Genus <i>Phellinus</i> : A Rich Source of Diverse Bioactive Metabolites <i>Sunil K. Deshmukh, Ved Prakash and Manish K. Gupta</i>	278
13. Commercial Inoculation of <i>Pseudotsuga</i> with an Ectomycorrhizal Fungus and its Consequences <i>Ian R. Hall, Phil De La Mare, Gina Bosselmann, Chris Perley and Yun Wang</i>	305
14. Barcoding DNA: A Tool for Molecular Identification of Macrofungi <i>Arun Kumar Dutta and Krishnendu Acharya</i>	323
15. Mushroom as a Greener Agent to Biosynthesize Nanoparticles <i>Nor Athirah Kamaliah Ahmad Tarmizi, Chia-Wei Phan, Yee-Shin Tan and Vikineswary Sabaratnam</i>	335
16. Proteomics of Edible and Medicinal Mushrooms <i>Shin Yee Fung and Muhammad Fazril Mohamad Razif</i>	350
<i>Index</i>	365
