1 Introduction: Knowing Nature, Making Space	1
RAF DE BONT AND JENS LACHMUND	

PART I

Crafting Zones and Regions	17
-----------------------------------	-----------

2 Mapping <i>Heimat</i>: Amateur Natural History and Plant Ecology in Imperial Germany	19
NILS GÜTTLER	

3 Life Zones: The Rise and Decline of a Theory of the Geographic Distribution of Species	37
RODERICK P. NEUMANN	

4 A Laboratory for Tropical Ecology: Colonial Models and American Science at Cinchona, Jamaica	56
MEGAN RABY	

5 Field Stations and the Problem of Scale: Local, Regional, and Global at the Desert Lab	79
JEREMY VETTER	

6 Ecology and Rehabilitation: The West Highland Survey, 1944–1955	99
MARK TOOGOOD	

PART II

Modelling Systems 119

- 7 Ecosystem Simulation as a Practice of Emplacement:
The Desert Biome Project, 1970–1974** 121

ETIENNE S. BENSON

- 8 The City as Ecosystem: Paul Duvigneaud and the Ecological
Study of Brussels** 141

JENS LACHMUND

PART III

Fashioning Objects of Conservation 163

- 9 Extinct in the Wild: Finding a Place for the European Bison,
1919–1952** 165

RAF DE BONT

- 10 Islands and Bioregions: Global Reserve Design Models and the
Making of National Parks, 1960–2000** 185

SIMONE SCHLEPER AND HANS SCHOUWENBURG

- 11 Space, Place, Land, and Sea: The “Ecological Discovery”
of the Global Wadden Sea** 204

ANNA-KATHARINA WÖBSE

- 12 Epilogue** 223

RAF DE BONT AND JENS LACHMUND

- Index* 231
