

Contents

Preface.....	vii
Editors.....	ix
List of Contributors.....	xi
0. Introduction to Electromagnetic Fields.....	1
<i>Frank Barnes, Charles Polk, and Ben Greenebaum</i>	
1. Experimental Results on Cellular and Subcellular Systems Exposed to Low-Frequency and Static Magnetic Fields	29
<i>Myrtil Simkó and Mats-Olof Mattsson</i>	
2. Cellular Effects of Radio Frequency, Millimeter, and Terahertz Waves.....	69
<i>Junji Miyakoshi</i>	
3. Plant Responses to Electromagnetic Fields.....	89
<i>Massimo E. Maffei</i>	
4. Evaluation of the Toxicity and Potential Oncogenicity of Extremely Low Frequency Magnetic Fields in Laboratory Animal Models.....	111
<i>David L. McCormick</i>	
5. Evaluation of the Potential Oncogenicity of Radiofrequency Fields in Experimental Animal Models	147
<i>David L. McCormick</i>	
6. Biological Effects of Millimeter and Submillimeter Waves.....	179
<i>Stanislav I. Alekseev and Marvin C. Ziskin</i>	
7. Electroporation.....	243
<i>James C. Weaver and Yuri Chizmadzhev</i>	
8. Musculoskeletal Effects and Applications of Electromagnetic Fields	285
<i>Joseph A. Spadaro</i>	
9. Thermal Therapy Applications of Electromagnetic Energy.....	305
<i>P.R. Stauffer, D.B. Rodrigues, D. Haemmerich, and C.-K. Chou</i>	
10. Transcranial Magnetic and Electric Stimulation	345
<i>Shoogo Ueno, Masaki Sekino, and Tsukasa Shigemitsu</i>	
11. Computational Modeling of Transepithelial Endogenous Electric Signals	407
<i>Somen Baidya, Ahmed M. Hassan, and Min Zhao</i>	

12. Electrical Shock Trauma.....	439
<i>Colin McFaul, Mei Li, Ze Liang, and Raphael C. Lee</i>	
13. Epidemiologic Studies of Extremely Low Frequency Electromagnetic Field	459
<i>Leeka Kheifets, Andrew S. Park, John Swanson, and Ximena Vergara</i>	
14. HF Epidemiologic Studies	519
<i>Maria Feychting, Martin Röösli, and Joachim Schüz</i>	
15. Behavioral and Cognitive Effects of Electromagnetic Field Exposure.....	531
<i>Andrew W. Wood and Sarah P. Loughran</i>	
Index.....	621
