Preface xiii

Acknowledgments xv

1. Structure of Microsporidia

1

Jiří Vávra and J. I. Ronny Larsson

2. Developmental Morphology and Life Cycles of the Microsporidia

71

Ann Cali and Peter M. Takvorian

3. Epidemiology of Microsporidia in Human Infections

135

Ronald Fayer and Monica Santin-Duran

4. Epizootiology of Microsporidiosis in Invertebrate Hosts

165

Leellen F. Solter

5. Phylogenetic Place of Microsporidia in the Tree of Eukaryotes

195

Patrick J. Keeling

6. Phylogeny of the Microsporidia

203

Charles R. Vossbrinck, Bettina A. Debrunner-Vossbrinck and Louis M. Weiss

7. Microsporidian Genome Structure and Function

221

Patrick J. Keeling, Naomi M. Fast and Nicolas Corradi

8. Sex and the Microsporidia

231

Soo Chan Lee, Joseph Heitman and Joseph E. Ironside

9. Microsporidian Biochemistry and Physiology

245

Bryony A. P. Williams, Viacheslav V. Dolgikh and Yuliya Y. Sokolova

10. The Microsporidian Polar Tube and Spore Wall	261
<i>Louis M. Weiss, Frédéric Delbac, J. Russell Hayman, Guoqing Pan, Xiaogun Dang and Zeyang Zhou</i>	
11. The Immunology of Microsporidiosis in Mammals	307
<i>Elizabeth S. Didier and Imtiaz A. Khan</i>	
12. Mammalian Animal Models of Human Microsporidiosis	327
<i>Elizabeth S. Didier</i>	
13. Microsporidia Infections in <i>Caenorhabditis elegans</i> and Other Nematodes	341
<i>Malina A. Bakowski, Robert J. Luallen and Emily R. Troemel</i>	
14. The Zebrafish as a Model for Microsporidiosis	357
<i>Justin L. Sanders and Michael L. Kent</i>	
15. Clinical Syndromes Associated with Microsporidiosis	371
<i>Louis M. Weiss</i>	
16. Ocular Microsporidiosis	403
<i>Savitri Sharma, Praveen K. Balne and Sujata Das</i>	
17. Laboratory Diagnosis of Microsporidia	421
<i>Kaya Ghosh, David Schwartz and Louis M. Weiss</i>	
18. Culture and Propagation of Microsporidia	457
<i>Robert Molestina, James J. Becnel and Louis M. Weiss</i>	
19. Microsporidia in Higher Vertebrates	469
<i>Karen F. Snowden</i>	
20. Microsporidia in Fish	493
<i>Michael L. Kent, Ross W. Shaw and Justin L. Sanders</i>	
21. Microsporidia in Insects	521
<i>James J. Becnel and Theodore G. Andreadis</i>	
22. Microsporidia, Honeybees, and Colony Collapse Disorder	571
<i>Ingemar Fries</i>	
23. Microsporidia in Aquatic Invertebrates	579
<i>Grant D. Stentiford and Alison M. Dunn</i>	
24. The Primitive Microsporidia	605
<i>J. I. Ronny Larsson</i>	
25. Microsporidia Biological Control Agents and Pathogens of Beneficial Insects	635
<i>Susan Bjørnson and David Oi</i>	

Appendix A. Checklist of Available Generic Names for Microsporidia with Type Species and Type Hosts

671

James J. Becnel, Peter M. Takvorian and Ann Cali
Appendix B. MicrosporidiaDB: The Functional Genomic Resource for Microsporidia

687

Omar S. Harb (on behalf of the EuPathDB group)
Index 695

Heather K. Andreadis, Center for Vector Biology & Zoonotic Diseases, The Connecticut Agricultural Experiment Station, P.O. Box 1106, CT, USA

Michael A. Balasubramanian, Division of Biological Sciences, Section of Cell and Developmental Biology, La Jolla, CA, USA

Praveen K. Paley, I. V. Prasad Eye Institute, Jhaveri Microbiology Centre, Hyderabad Eye Research Foundation, Hyderabad, India

James J. Becnel, USDA/ARS, Center for Medical, Agricultural and Veterinary Entomology, Gainesville, FL, USA

Susan B. Besser, Department of Biology, Saint Mary's University, Halifax, Nova Scotia, Canada

Ann Cali, Department of Biological Sciences, Rutgers University, Newark, NJ, USA

Nicholas Cernich, Canadian Institute for Advanced Research, University of Ottawa, Ontario, Canada

Xiaoqun Deng, The State Key Lab of Bioreactor Genomic Biology, Southwest University and College of Life Sciences, Chongqing Normal University, Chongqing, China

Sujata Das, I. V. Prasad Eye Institute, Cornea and Anterior Segment Serv., Tirubhuvanavar, India

Matthew A. Dumas, Woodstock, Department of Science and Mathematics Gateway Community College, New Haven, CT, USA

Fredéric Delbecq, Department of Biology, Clermont University, France

Elizabeth S. Diller, Division of Microbiology, Tulane National Primate Research Center and Department of Tropical Medicine, School of Public Health and Tropical Medicine, Tulane University, New Orleans, LA, USA

Ylvetta V. Dolgikh, All-Russia Institute for Plant Protection, Russian Academy of Agricultural Sciences, Pushkin, Russia

Alison M. Dunn, School of Biology, University of Leeds, Leeds, UK

Natalie M. East, Botany Department, University of British Columbia, Vancouver, British Columbia, Canada

Ronald Evers, Invertebrates Microbial Food-Web Laboratory, Beltsville Agricultural Research Center, and Agricultural Research Service, US Department of Agriculture, Beltsville, MD, USA

Ingemar Friis, Department of Ecology, Swedish University of Agricultural Sciences, Uppsala, Sweden

Kara Ghosh, Department of Pathology, Albert Einstein College of Medicine, New York, NY, USA

Omar S. Harb, Department of Biology, University of Pennsylvania, Philadelphia, PA, USA

J. Russell Hayman, Department of Biomedical Sciences, Oglethorpe College of Medicine, East Tennessee State University, Murfreesboro, TN, USA

Joseph Heilmann, Department of Molecular Genetics and Microbiology, Pharmacology and Cancer Biology, and Medicine, Duke University Medical Center, Durham, NC, USA

Joseph K. Irons, Institute of Biological, Environmental and Rural Sciences, Aberystwyth University, Aberystwyth, UK

Patrick J. Keeling, Canadian Institute for Advanced Research, Botany Department, University of British Columbia, Vancouver, British Columbia, Canada
