

Contents

UNIT I *Fundamentals of Biology*

CHAPTER 1 The Basic Structure of Science 3

1.1 The Methods of Science 1.2 Biology as a Science 1.3 The Significance of Evolution 1.4 Organization of Life

Chapter Quiz 9

CHAPTER 2 The Chemistry of Life: An Inorganic Perspective 12

2.1 Atoms, Molecules, and Chemical Bonding 2.2 Chemical Reactions and the Concept of Equilibrium 2.3 Colligative Properties of Solutions 2.4 The Laws of Thermodynamics 2.5 The Special Case of Water 2.6 Maintaining Stable pH in Living Systems

Chapter Quiz 23

CHAPTER 3 The Chemistry of Life: The Organic Level 27

3.1 Introduction 3.2 Carbohydrates 3.3 Proteins 3.4 Structure and Functions of Lipids 3.5 The Chemical Basis of Living Systems

Chapter Quiz 36

Unit 1 Test 39

UNIT II *Biology of the Cell*

CHAPTER 4 The Cellular Organization of Life 47

4.1 The Cell Doctrine 4.2 Cellular Organization 4.3 Cellular Organelles 4.4 Plant and Animal Cells: Tissue Organization 4.5 Cell Size and Its Constraints 4.6 Movement Into and Out of the Cell

Chapter Quiz 60

CHAPTER 5 Energy Transformations 63

5.1 Energy and Life 5.2 Thermodynamics 5.3 Cell Metabolism 5.4 Bioenergetics

Chapter Quiz 78

CHAPTER 6	Photosynthesis	81
	6.1 An Overall View 6.2 The Light Reaction 6.3 The Dark Reaction (Calvin-Benson Cycle) 6.4 Photorespiration 6.5 The C ₄ Pathway 6.6 Structure and Function in the Chloroplast	
	Chapter Quiz	89
	Unit 2 Test	92
UNIT III	Genetics and Inheritance	
CHAPTER 7	The Nature of the Gene	101
	7.1 The Concept of Information Processing in the Cell 7.2 The Search for the Chemical Bases of Inheritance 7.3 Encoding Information—The Language of the Gene 7.4 Processing the Information—Protein Synthesis 7.5 Reproduction of Information—DNA Replication 7.6 Modification of Information—Mutation 7.7 Genetic Engineering	
	Chapter Quiz	114
CHAPTER 8	Cell Reproduction	116
	8.1 Cell Cycles and Life Cycles 8.2 The Chromosomes as Packaged Genes 8.3 Mitosis 8.4 Meiosis 8.5 A Possible Mechanism for Crossing Over 8.6 Sexual Reproduction and Genetic Variability	
	Chapter Quiz	127
CHAPTER 9	The Mechanism of Inheritance	129
	9.1 Pre-Mendelian Concepts 9.2 Mendel's Laws 9.3 Linkage 9.4 Mapping the Chromosomes 9.5 Sex-linkage 9.6 Variations in Gene Expression 9.7 Chromosomes and Gene Expression 9.8 Treating Genetic Diseases	
	Chapter Quiz	140
CHAPTER 10	Control Mechanisms in Genetics	143
	10.1 The Operon Hypothesis 10.2 Cistron, Recon, and Muton 10.3 Gene Regulation in Eukaryotes 10.4 Cancer as a Genetic Aberration	
	Chapter Quiz	150
CHAPTER 11	Embryology	154
	11.1 Animal Development 11.2 Human Development 11.3 Plant Development 11.4 Control of Differentiation 11.5 Major Contributions to the Field of Embryology	
	Chapter Quiz	168

CHAPTER 12 Animal Reproduction	170
12.1 An Evolutionary Survey 12.2 Male Reproductive System in Humans 12.3 Female Reproductive System in Humans 12.4 Sexual Response in Humans 12.5 Contraception 12.6 Sexual Preference 12.7 Sexual Dysfunction	
Chapter Quiz	179
Unit 3 Test	181
UNIT IV Plant Biology	
CHAPTER 13 Basic Structure and Function in Vascular Plants	195
13.1 Plant Nutrition 13.2 Movement of Water and Minerals in Xylem 13.3 Movement of Food Through the Phloem	
Chapter Quiz	205
CHAPTER 14 Interactions of Vascular Plants with Their Environment	208
14.1 Tropisms 14.2 Plant Hormones 14.3 Photoperiodism 14.4 Plant Diseases	
Chapter Quiz	213
Unit 4 Test	216
UNIT V Animal Biology	
CHAPTER 15 Homeostasis: Regulation of Physiological Functions	223
15.1 Overview 15.2 Feedback Control 15.3 Regulation of Temperature 15.4 Regulation of Blood Sugar	
Chapter Quiz	229
CHAPTER 16 Animal Nutrition and the Digestive System	233
16.1 Food Procurement 16.2 Digestion and Absorption 16.3 The Vertebrate Liver 16.4 Diet and Health 16.5 Special Case of the Vitamins 16.6 Obesity and Eating Disorders 16.7 Deficiency Diseases	
Chapter Quiz	250
CHAPTER 17 The Excretory System	253
17.1 Excretion in Invertebrates 17.2 Structure of the Vertebrate Kidney 17.3 Functioning of the Vertebrate Kidney 17.4 Human Kidney Function 17.5 Homeostatic Function of the Kidney 17.6 Accessory Excretory Structures	
Chapter Quiz	262

CHAPTER 18 The Circulatory System	265
18.1 Comparative Cardiovascular Systems of Vertebrates 18.2 The Human Heart 18.3 Arteries, Veins, and Capillaries 18.4 Control of Blood Pressure 18.5 Constituents of Blood and Lymph 18.6 Osmoregulation	
Chapter Quiz	278
CHAPTER 19 Immunology	281
19.1 Human Immune Systems 19.2 The Immune Response 19.3 Hybridomas 19.4 AIDS 19.5 Human Blood Groups	
Chapter Quiz	288
CHAPTER 20 The Respiratory System	291
20.1 Mechanisms of External Respiration 20.2 Mammalian Respiration 20.3 Regulation of Breathing 20.4 Exchange of O ₂ and CO ₂ in the Blood	
Chapter Quiz	299
CHAPTER 21 Hormones and the Endocrine System	302
21.1 Early Endocrine Systems 21.2 Vertebrate Endocrine Systems 21.3 Mode of Action of Hormones	
Chapter Quiz	316
CHAPTER 22 The Nervous System	319
22.1 Overview 22.2 Phylogenetic Development of the Nervous System 22.3 The Neuron as the Functional Unit of Nervous Activity 22.4 The Neural Impulse 22.5 The Synapse 22.6 Reflex Arc 22.7 Receptors and Effectors 22.8 Special Sense Organs 22.9 Brain and Spinal Cord 22.10 Autonomic Nervous System	
Chapter Quiz	334
CHAPTER 23 The Musculoskeletal System: Support and Movement	336
23.1 Invertebrate Support Systems 23.2 The Vertebrate Endoskeleton 23.3 Anatomy and Physiology of Vertebrate Muscle	
Chapter Quiz	344
CHAPTER 24 Animal Behavior	347
24.1 What Is Behavior? 24.2 Components of Behavior 24.3 Cyclic Behavior Patterns 24.4 Sexual Behavior 24.5 Social Organization 24.6 Modes of Communication 24.7 Biological Determinism and Behavior	
Chapter Quiz	356
Unit 5 Test	359

UNIT VI	<i>Evolution and Ecology</i>	
CHAPTER 25	Evolution: The Process	371
	25.1 A Brief History of the Concept of Change in Organisms 25.2 The Notion of a Gene Pool: Hardy-Weinberg Equilibrium 25.3 Natural Selection: A Modern Synthesis 25.4 Punctuated Equilibrium 25.5 Molecular Biology of Evolutionary Change 25.6 Control of Gene Pools 25.7 Speciation 25.8 Microevolution versus Macroevolution	
	Chapter Quiz	379
CHAPTER 26	Ecology	382
	26.1 Anatomy of an Ecosystem 26.2 Types of Ecosystems 26.3 Stability and Ecological Succession 26.4 Biomass and Species Dispersal 26.5 Upsetting the Stability of an Ecosystem	
	Chapter Quiz	392
CHAPTER 27	Origin of Life	395
	27.1 The Oparin Hypothesis 27.2 Heterotroph to Autotroph 27.3 Origin of Cells	
	Chapter Quiz	399
	Unit 6 Test	402
UNIT VII	<i>Biological Diversity</i>	
CHAPTER 28	The Kingdom Monera (The Prokaryotes)	409
	28.1 Archaeobacteria and Eubacteria 28.2 The Significance and Origin of Organelles 28.3 Bacteria, The Ecosphere, and Human Interactions	
	Chapter Quiz	413
CHAPTER 29	The Kingdom Protista	415
	29.1 Protozoans 29.2 Algal Protists 29.3 Fungilike Protists	
	Chapter Quiz	422
CHAPTER 30	The Kingdom Fungi	425
	30.1 Basic Structure of Fungi 30.2 Divisions of Fungi 30.3 Reproductive Strategies of the Fungi 30.4 Fungi as Friends and Foes	
	Chapter Quiz	431

CHAPTER 31 The Kingdom Plantae	434
31.1 Bryophytes and the Challenge of a Terrestrial Environment 31.2 The Vascular Plants 31.3 Seed Plants 31.4 Economic Importance of Plants 31.5 The Green Revolution	
Chapter Quiz	441
CHAPTER 32 The Kingdom Animalia	444
32.1 Subkingdom Parazoa: The Sponges 32.2 Radiata: Cnidaria and Ctenophora 32.3 Bilateria: Deuterostomes and Protostomes 32.4 Acoelomates 32.5 Pseudocoelomates: Rotifera and Nematoda 32.6 Protostome Coelomates 32.7 Deuterostome Coelomates	
Chapter Quiz	458
CHAPTER 33 The Primates	461
33.1 Primate Lineages 33.2 Primate Characteristics 33.3 Humankind and Its Destiny 33.4 Misconceptions of the Evolutionary Relationship Between Humans and Apes	
Chapter Quiz	467
Unit 7 Test	470
Glossary	475
A Biological Lexicon	485
Name Index	487
Subject Index	489
