

BRIEF TABLE OF CONTENTS

Chapter 1 Introduction to Botany and Microscopy	1
Chapter 2 Plant Cells	11
Chapter 3 Cell Division	25
Chapter 4 Plant Tissues and Herbaceous Stems	35
Chapter 5 Leaves	51
Chapter 6 Roots	65
Chapter 7 Secondary Meristems and Woody Growth	79
Chapter 8 Photosynthesis	93
Chapter 9 Cellular Respiration and Fermentation	101
Chapter 10 Water Pollution	113
Chapter 11 Mineral Nutrition	121
Chapter 12 Tissue Culture	129
Chapter 13 Genetics, Inheritance, and Natural Selection	135
Chapter 14 Classification and Systematics	145
Chapter 15 Algae	151
Chapter 16 Nonvascular Plants	165
Chapter 17 Seedless Vascular Plants	179
Chapter 18 Gymnosperms	195
Chapter 19 Angiosperms I: Flowers	207
Chapter 20 Angiosperms II: Fruits	227
Chapter 21 Community Interactions	239
Chapter 22 Ethnobotany	247

TABLE OF CONTENTS

Preface vii

1	Introduction to Botany and Microscopy	1
Activities	3	
Activity 1.1: Parts of the Compound Light Microscope	3	
Activity 1.2: Viewing an Object with the Compound Light Microscope	4	
Activity 1.3: Measuring the Working Distance	5	
Activity 1.4: Measuring the Diameter of the Field of View	5	
Activity 1.5: Measuring the Depth of Field	6	
Compare and Contrast	6	
Activity 1.6: Cleaning the Lenses of the Microscope	7	
Activity 1.7: Storing the Microscope	7	
Activity 1.8: Stereomicroscope	7	
Compare and Contrast	8	
Case Study—Adventures in Microscopy	8	
Study Guide	9	
Conclusions	9	
2	Plant Cells	11
Activities	13	
Activity 2.1: Cork Cells	13	
Activity 2.2: Onion (<i>Allium</i>) Epidermis	14	
Compare and Contrast	14	
Activity 2.3: <i>Elodea</i> Leaf	15	
Compare and Contrast	16	
Activity 2.4: Potato Tuber Cells	16	
Compare and Contrast	17	
Activity 2.5: Tomato Pulp Cells	17	
Compare and Contrast	18	
Activity 2.6: Tomato Epidermis	18	
Compare and Contrast	19	
Activity 2.7: <i>Zebrina</i> Stem Tissue	19	
Compare and Contrast	20	
Activity 2.8: Osmosis and Plant Cells	20	
Study Guide	22	
Conclusions	22	
3	Cell Division	25
Activities	29	
Activity 3.1: Mock Mitosis	29	
Compare and Contrast	29	
Activity 3.2: Mitosis in Onion Cells	29	
Compare and Contrast	30	
Activity 3.3: Mock Meiosis	31	
Activity 3.4: Observing Meiosis in a <i>Lilium</i> Anther	31	
Study Guide	33	
Conclusions	33	

4	Plant Tissues and Herbaceous Stems	35
Activities	37	
Activity 4.1: Fundamental Tissues	37	
Compare and Contrast	39	
Activity 4.2: Surface Tissues	39	
Compare and Contrast	40	
Activity 4.3: Herbaceous Stems	41	
Ground Tissues	42	
Vascular Tissues	42	
Observing a Monocot Stem	43	
Observing a Eudicot Stem	44	
Compare and Contrast	45	
Activity 4.4: Longitudinal Growth of the Herbaceous Stem	46	
Compare and Contrast	47	
Study Guide	48	
Conclusions	49	
5	Leaves	51
Activities	52	
Activity 5.1: External Features of a Monocot Leaf	52	
Activity 5.2: External Features of a Eudicot Leaf	53	
Compare and Contrast	55	
Activity 5.3: Internal Features of a Monocot Leaf	55	
Compare and Contrast	57	
Activity 5.4: Internal Features of a Eudicot Leaf	57	
Compare and Contrast	58	
Activity 5.5: Leaves Adapted to Extreme Environments	59	
Compare and Contrast	60	
Activity 5.6: Specialized Leaves	60	
Activity 5.7: Leaves of Carnivorous Plants	61	
Compare and Contrast	62	
Study Guide	63	
Conclusions	63	
6	Roots	65
Activities	67	
Activity 6.1: External Structure of Roots	67	
Compare and Contrast	68	
Activity 6.2: Regions of Growth in a Root	68	
Compare and Contrast	69	
Activity 6.3: Internal Structure of Monocot Roots	69	
Compare and Contrast	70	
Activity 6.4: Internal Structure of Eudicot Roots	71	
Compare and Contrast	71	
Activity 6.5: Growth of Lateral Roots	72	
Compare and Contrast	73	

Activity 6.6: Root Symbioses	73	11 Mineral Nutrition.....	121
Compare and Contrast	75	Activities	123
Study Guide	76	Activity 11.1: Investigating the Effects of Mineral Deficiencies on Plant Growth	123
Conclusions	76	Compare and Contrast	124
7 Secondary Meristems and Woody Growth ...	79	Compare and Contrast	127
Activities	81	Study Guide	127
Activity 7.1: External Growth of Woody Stems.....	81	Conclusions	128
Procedure	81	12 Tissue Culture.....	129
Compare and Contrast	82	Activity.....	131
Activity 7.2: Leaf Abscission	82	Activity 12.1: Growing Plant Cells in Tissue Culture	131
Procedure	82	Compare and Contrast	132
Compare and Contrast	83	Study Guide	133
Activity 7.3: Internal Structure of Woody Stems	83	Conclusions	133
Procedure	84	13 Genetics, Inheritance, and Natural Selection	135
Compare and Contrast	85	Activities	138
Activity 7.4: Internal Structure of Woody Roots	85	Activity 13.1: Predicting the Outcomes of Crosses	138
Compare and Contrast	86	Compare and Contrast	139
Activity 7.5: Microscopic Comparison of Types of Wood.....	86	Activity 13.2: Population Genetics.....	139
Procedure	87	Procedure	139
Activity 7.6: Identification of Types of Wood	87	Compare and Contrast	141
Dichotomous Key to Some Common Types of Wood	88	Study Guide	142
Procedure	88	Conclusions	142
Study Guide	90	14 Classification and Systematics.....	145
Conclusions	90	Activities	146
8 Photosynthesis	93	Activity 14.1: Artificial Classification.....	146
Activities	96	Activity 14.2: Natural Classification	147
Activity 8.1: Pigment Chromatography	96	Procedure	147
Compare and Contrast	97	Compare and Contrast	148
Activity 8.2: Measuring Photosynthesis	97	Study Guide	149
Compare and Contrast	98	Conclusions	149
Study Guide	99	15 Algae	151
Conclusions	100	Activities	153
9 Cellular Respiration and Fermentation	101	Activity 15.1: Division Chlorophyta—The Green Algae.....	153
Activities	107	Compare and Contrast	157
Activity 9.1: Bacterial Fermentation in the Production of Food... ..	107	Activity 15.2: Division Rhodophyta—The Red Algae.....	157
Procedure	107	Compare and Contrast	158
Compare and Contrast	108	Activity 15.3: Division Phaeophyta—The Brown Algae	158
Activity 9.2: Yeasts and Alcoholic Fermentation	108	Compare and Contrast	159
Compare and Contrast	109	Activity 15.4: Division Chrysophyta—Diatoms and Their Relatives	159
Activity 9.3: Cellular Respiration in Mature Plants.....	109	Compare and Contrast	160
Compare and Contrast	110	Activity 15.5: Division Pyrrophyta—The Dinoflagellates	160
Study Guide	111	Compare and Contrast	161
Conclusions	111	Activity 15.6: Division Euglenophyta—The Euglenoids	161
10 Water Pollution	113	Compare and Contrast	162
Activities	115	Study Guide	163
Activity 10.1: Effects of Water Pollution on Algae.....	115	Conclusions	163
Compare and Contrast	116	16 Nonvascular Plants	165
Activity 10.2: Effects of Water Pollution on Microbial Community Structure	117	Activities	167
Compare and Contrast	118	Activity 16.1: Moss Gametophores.....	167
Study Guide	119		
Conclusions	119		

Compare and Contrast	168	Compare and Contrast	214
Activity 16.2: Moss Sporophytes	169	Activity 19.4: Rose (<i>Rosa</i> sp.)	214
Compare and Contrast	170	Compare and Contrast	216
Activity 16.3: The Complete Moss Plant	170	Activity 19.5: Petunia (<i>Petunia</i> sp.)	217
Activity 16.4: Liverwort Gametophytes	170	Compare and Contrast	218
Compare and Contrast	172	Activity 19.6: Snapdragon (<i>Antirrhinum majus</i>)	218
Activity 16.5: Liverwort Sporophytes	173	Compare and Contrast	219
Compare and Contrast	173	Activity 19.7: Daisy or Chrysanthemum (<i>Chrysanthemum</i> sp.)	220
Activity 16.6: Hornworts	174	Compare and Contrast	221
Compare and Contrast	174	Activity 19.8: Ovule Development	221
Study Guide	176	Activity 19.9: Pollen Development	222
Conclusions	176	Study Guide	224
17 Seedless Vascular Plants	179	Conclusions	224
Activities	181	20 Angiosperms II: Fruits	227
Activity 17.1: Division LycopHYta	181	Activities	228
Compare and Contrast	183	Activity 20.1: Seeds	228
Activity 17.2: Division ArthropHYta	183	Compare and Contrast	229
Compare and Contrast	186	Activity 20.2: Fleshy Fruits	229
Activity 17.3: Division Pteridophyta	186	Compare and Contrast	233
Compare and Contrast	189	Activity 20.3: Dry Dehiscent Fruits	233
Activity 17.4: Whisk Ferns	190	Compare and Contrast	234
Compare and Contrast	191	Activity 20.4: Dry Indehiscent Fruits	234
Study Guide	192	Compare and Contrast	235
Conclusions	192	Study Guide	236
18 Gymnosperms	195	Conclusions	236
Activities	196	21 Community Interactions	239
Activity 18.1: Pine Roots	196	Activities	241
Compare and Contrast	196	Activity 21.1: Plant Diversity Survey	241
Activity 18.2: Pine Stems	196	Compare and Contrast	242
Compare and Contrast	198	Study Guide	244
Activity 18.3: Pine Leaves	198	Conclusions	244
Compare and Contrast	199	22 Ethnobotany	247
Activity 18.4: Pine Reproduction	199	Activities	248
Compare and Contrast	202	Activity 22.1: Plants That Provide Drugs	248
Study Guide	204	Compare and Contrast	251
Conclusions	204	Activity 22.2: Plants That Supply Fibers	252
19 Angiosperms I: Flowers	207	Compare and Contrast	254
Activities	210	Activity 22.3: Spices and Flavors	255
Activity 19.1: Tulip (<i>Tulipa</i> sp.) or Gladiolus (<i>Gladiolus</i> sp.)	210	Compare and Contrast	256
Compare and Contrast	211	Activity 22.4: Daily Log	257
Activity 19.2: Lily (<i>Lilium</i> sp.)	212	Study Guide	258
Compare and Contrast	213	Conclusions	258
Activity 19.3: Geranium (<i>Pelargonium</i>)	213
