Preface	viii
---------------	------

PART 1 Welcome to Botany 1

Chapter 1 Introduction to Plants and Botany	3
Chapter 2 Overview of Plant Life	22
Chapter 3 Ethnobotany: Plants and People	51

PART 2 Plant Structure 85

Chapter 4 Cell Structure	88
Chapter 5 Growth and Division of Cells	120
Chapter 6 Tissues and the Primary Growth of Stems	145
Chapter 7 Leaves	180
Chapter 8 Roots	207
Chapter 9 Structure of Woody Plants	228
Chapter 10 Flowers and Reproduction	261

PART 3 Plant Physiology and Development 291

Chapter 11 Energy Metabolism: Photosynthesis	293
Chapter 12 Energy Metabolism: Respiration	327
Chapter 13 Transport Processes	354
Chapter 14 Soils and Mineral Nutrition	382
Chapter 15 Development and Morphogenesis	405
Chapter 16 Genes and the Genetic Basis of Metabolism and Development	442

PART 4 Genetics and Evolution 473

Chapter 17 Genetics	475
Chapter 18 Population Genetics and Evolution	505
Chapter 19 Classification and Systematics	531
Chapter 20 Algae and the Origin of Eukaryotic Cells	555
Chapter 21 Nonvascular Plants: Mosses, Liverworts, and Hornworts	587
Chapter 22 Vascular Plants Without Seeds	610
Chapter 23 Seed Plants I: Seed Plants Without Flowers ("Gymnosperms")	636
Chapter 24 Seed Plants II: Angiosperms	661

PART 5 Ecology 693

Chapter 25 Populations and Ecosystems	695
Chapter 26 Community Ecology	723
Chapter 27 Biomes	754
Appendix Notes on Fundamental Aspects of Chemistry	775
Pronunciation Guide	785
Glossary	789
Index	823

16 Genes and the Genetic Basis of Metabolism and Development 442

Concepts.....	443
Storing Genetic Information.....	444
Protein Synthesis.....	450
Box 16-1 Plants and People: Genetic Engineering and Evolution.....	453
Control of Protein Levels.....	454
Analysis of Genes and Recombinant DNA Techniques.....	455
Genetic Engineering of Plants.....	462
Box 16-2 Botany and Beyond: Are GMOs Bad?.....	463
Box 16-3 Thinking About Thinking: Emergent Properties.....	466
Box 16-4 Alternatives: Evolutionary Modifications of One Feature May Affect Other Features.....	467

PART 4 Genetics and Evolution 473

17 Genetics 475

Concepts.....	476
Replication of DNA.....	477
Mutations.....	479
Monohybrid Crosses.....	482
Box 17-1 Botany and Beyond: Botanical Philosophy and Popular Culture.....	486
Dihybrid Crosses.....	490
Box 17-2 Botany and Beyond: Whose Genes Do You Have?.....	492
Multiple Genes for One Character: Quantitative Trait Loci.....	494
Other Aspects of Inheritance.....	494
Box 17-3 Alternatives: Allele Filtering.....	499

18 Population Genetics and Evolution..... 505

Concepts.....	506
Population Genetics.....	507
Box 18-1 Botany and Beyond: Species are Populations, Not Types.....	508
Rates of Evolution.....	513
Speciation.....	514
Box 18-2 Plants and People: Zoos, Botanical Gardens, and Genetic Drift.....	519
Box 18-3 Thinking About Thinking: Types.....	520
Evolution and the Origin of Life.....	521
Box 18-4 Plants and People: How Will We Search for Life on Mars?.....	523

19 Classification and Systematics..... 531

Concepts.....	532
Levels of Taxonomic Categories.....	532
Box 19-1 Plants and People: Development of Concepts of Evolution and Classification.....	533
Cladistics.....	535
Box 19-2 Botany and Beyond: Cacti as Examples of Evolutionary Diversification.....	540

Box 19-3 Plants and People: Genealogy Versus Clades:

Your Family History Is the Opposite of a Clade.....

Other Types of Classification Systems.....

Taxonomic Studies.....

The Major Lines of Evolution.....

Box 19-4 Plants and People: Identifying Unknown Plants.....

20 Algae and the Origin of Eukaryotic Cells

Concepts.....	
Origin of Eukaryotic Cells.....	
Characteristics of Various Groups of Algae.....	
Green Algae.....	
Box 20-1 Alternatives: Lichens Are Symbiotic Associations of Algae and Fungi.....	
Red Algae.....	
Brown Algae and Their Relatives: The Heterokonts.....	
Box 20-2 Botany and Beyond: Why Didn't the Brown Algae Give Rise to Land Plants?.....	
Dinoflagellates.....	
Euglenoids.....	

21 Nonvascular Plants: Mosses, Liverworts, and Hornworts

Concepts.....	
Characteristics of Nonvascular Plants.....	
Classification of Nonvascular Plants.....	
Division Bryophyta: Mosses.....	
Division Hepatophyta: Liverworts.....	
Division Anthocerotophyta: Hornworts.....	
Box 21-1 Alternatives: The Genetics of Haploid Plants.....	

22 Vascular Plants Without Seeds

Concepts.....	
Early Vascular Plants.....	
The Microphyll Line of Evolution: Lycophytes.....	
The Megaphyll Line of Evolution: Euphyllophytes.....	
Box 22-1 Botany and Beyond: Molecular Studies of the Evolution of Early Land Plants.....	
Box 22-2 Botany and Beyond: Form Genera.....	
The Term "Vascular Cryptogams".....	

23 Seed Plants I: Seed Plants Without Flowers ("Gymnosperms")

Concepts.....	
Division Progymnospermophyta: Progymnosperms.....	
Division Pteridospermophyta: Seed Ferns.....	
Box 23-1 Botany and Beyond: What Did Dinosaurs Eat?.....	
Division Coniferophyta: Conifers.....	
Division Cycadophyta: Cycads.....	
Division Cycadeoidophyta: Cycadeoids.....	
Division Ginkgophyta: Maidenhair Tree.....	
Division Gnetaophyta.....	

24 Seed Plants II: Angiosperms.....661

Concepts.....	662
Changing Concepts About Early Angiosperms.....	665
Classification of Flowering Plants.....	667
Box 24-1 Plants and People: Maintaining Genetic Diversity.....	669
Basal Angiosperms.....	669
Monocots.....	671
Eudicots.....	677
Box 24-2 Plants and People: Vegetarianism: Alternatives to Eating Meat.....	687

PART 5 Ecology

693

25 Populations and Ecosystems.....695

Concepts.....	696
Plants in Relationship to Their Habitats.....	697
Box 25-1 Plants and People: Niches in the Jet Age.....	706
The Structure of Populations.....	707
Box 25-2 Plants Do Things Differently: Soil Seed Banks.....	709
The Structure of Ecosystems.....	714
Box 25-3 Thinking About Thinking: Can't See the Forest for the Trees—Reductionist and Holistic Thinking.....	719

26 Community Ecology.....723

Concepts.....	724
Diversity.....	727
Predator–Prey Interactions.....	731
Box 26-1 Plants Do Things Differently: Plants and Animals Are Different Kinds of Prey.....	737

Beneficial Interactions Between Species.....	740
Box 26-2 Botany and Beyond: Extrafloral Nectaries: Ants and Plants Cooperate.....	741
Metapopulations in Patchy Environments.....	745
Interconnectedness of Species: Food Chains and Food Webs.....	747
Box 26-3 Plants and People: Some Laws to Protect Species Have Harmful Consequences.....	750

27 Biomes.....754

Concepts.....	755
World Climate.....	755
Continental Drift.....	759
The Current World Biomes.....	761
Box 27-1 Botany and Beyond: Measuring Ancient Continental Positions and Climates.....	765

A Notes on Fundamental Aspects of Chemistry.....775

Concepts.....	775
Atoms and Molecules.....	775
Water.....	776
Chemical Reactions.....	776
Carbon Compounds.....	777
Organic Molecules.....	778
Cofactors and Carriers.....	782
Enzymes.....	783

Pronunciation Guide 785

Glossary 789

Index 823
