

CONTENTS

Preface ix

1 Primate Phylogeny and Adaptation 1

- Phylogeny 1
- Cladograms 1
- Ghost Lineages 3
- Adaptation 3
- Body Size 5
- What Is a Primate? 6
- Primate Evolutionary History 8
- Selected References* 11

2 The Wet-Nosed Primates 15

- Family Cheirogaleidae 15
- Family Lemuridae 17
- Family Lepilemuridae 18
- Family Indriidae 18
- Family Daubentoniidae 19
- Family Galagidae 20
- Family Lorisidae 21
- Selected References* 22

3 The Dry-Nosed Primates 23

- Family Tarsiidae 23
- Family Callitrichidae 25
- Family Cebidae 26
- Family Atelidae 28

Family Cercopithecidae 31

Family Hylobatidae 35

Family Pongidae 36

Selected References 42

4 Musculoskeletal System 45

- Bone Biology 45
- Joints 47
- Muscles 47
- Musculoskeletal Mechanics 48
- Primate Leaping 51
- Size 54
- Brachiation 55
- Grasping Foot 57
- Selected References* 59

5 Heads 63

- Bones of the Skull 63
- Strepsirrhine Heads 67
- Haplorhine Heads 71
- Brains 77
- Eyes 78
- Smell 80
- Jaws 80
- Oddities 83
- Selected References* 83

- 6 Teeth 85**
 Primate Teeth and Diets 85
 Molar Cusps 89
 Specialized Dental Characteristics across Primates 90
 The Aye-Aye 99
 Diet: Fruits, Leaves, and Insects 99
 Oddities 101
Selected References 102
- 7 Backs 105**
 Tubes 105
 Vertebral Column 105
 Necks, Backs, and Tails 105
 Boards 110
 The Pelvis and Primate Reproduction 114
Selected References 117
- 8 Primate Locomotion and the Forelimb 119**
 Primate Locomotion 119
 Postures 124
 Limbs 124
 Forelimb 125
 Shoulders 125
 Elbows 129
 Forearms 131
 Hands 133
 Fingers 135
Selected References 137
- 9 Hindlimb 141**
 Hindlimb 141
 The Pelvis and Hip Joint 142
 Femur 148
 Knees 151
 Fibula 154
 The Tibial-Fibular Mortise 155
 Feet 156
 Foot Form 158
 Grasping Toes 159
 Nails 160
Selected References 161
- 10 Great Ape and Human Anatomy 165**
 Heads 165
 Teeth 166
 Forelimbs 170
 Body 171
 Lower Limbs 175
 Bipedalism 179
 Conclusion 180
Selected References 181
- Index* 183
