

Table of Contents

Part 1: Introduction to Plants 1

Chapter 1: The Plant Kingdom 2

Key Terms	3
Evolution of Plants	4
Geographical Distribution	4
Roles of Plants	6
Taxonomy	9
Research	15
Summary	17
Review	18
Knowledge Applied	18
Resources	19

Chapter 2: Origins of Cultivated Plants 21

Key Terms	22
Origin and Development of Cultivated Plants	23
New Crops and New Uses	25
Protection of Germplasm	33
Summary	34
Review	35
Knowledge Applied	35
Resources	36

Chapter 3: Structure of Cultivated Plants 38

Key Terms	39
Plan of the Entire Plant	40
Seeds	59
Using Plant Structure	61
Summary	62
Review	63
Knowledge Applied	64
Resources	65

Chapter 4: Anatomy of Plants 67

Key Terms	68
The Cell and Its Structure	69
Tissues	73
Anatomy of Primary Organs	76
Primary and Secondary Growth	78

Summary	81
Review	82
Knowledge Applied	82
Resources	83

Part 2: Fundamentals of Soil Science 85

Chapter 5: Soil Materials and Formation..... 86

Key Terms	87
Introduction to Soils	88
Rocks and Minerals	91
Five Factors of Soil Formation	93
Soil Profile	102
Summary	105
Review	106
Knowledge Applied	107
Resources	107

Chapter 6: Soil Characteristics, Classifications, and Use..... 109

Key Terms	110
Soil Definitions	111
Physical Properties	111
Chemical Properties	120
Organic Matter	123
Soil Classification	124
Summary	127
Review	128
Knowledge Applied	129
Resources	129

Chapter 7: Soil Fertility and Management..... 131

Key Terms	132
Essential Nutrients and Their Roles in Plants	133
Fertilizers	133
Secondary and Micronutrients	140
Nutrient Availability and Plant Uptake	143
Nutrient Interactions	144
Soil pH	144
Soil Testing	146
Foliar Symptoms	147
Choosing the Fertilizer Source	149
Fertilizer Placement	150
Other Fertilizer Sources	152
Compost	153
Soil Management	155
Summary	164
Review	165
Knowledge Applied	166
Resources	167

Chapter 8: Soilless Plant Production 169

Key Terms	170
Container Growing	171
Hydroponics	177
Aquaponics	186
Summary	188
Review	189
Knowledge Applied	189
Resources	190

Chapter 9: Irrigation 192

Key Terms	193
Characteristics of Water	194
Role of Water in Plants	194
Precipitation	195
Water Loss in Plants	197
Water for Plants	198
Movement of Water	198
Water in the Soil	200
Irrigation	207
Summary	214
Review	215
Knowledge Applied	215
Resources	216

Chapter 10: Soil and Organic Farming 218

Key Terms	219
Organic Farming	220
Crop Nutrition	223
Choice of Crops	230
Crop Rotations	230
Weed Control	231
Pest and Disease Control	232
Genetic Diversity	234
Use of Water	234
Animals and Organic Growing	235
Sustainable Agriculture	235
Summary	237
Review	238
Knowledge Applied	239
Resources	239

Part 3: Fundamentals of Plant Growth and Propagation 241

Chapter 11: Temperature 242

Key Terms	243
Biological Temperature Range	244

Knowledge Applied	436
Resources	437

Part 4: Crops – Applied Plant and Soil Science 439

Chapter 20: Major Agronomic Crops..... 440

Key Terms	441
Corn (Maize)	442
Biofuel.....	448
Cotton	449
Potatoes.....	453
Soybeans.....	459
Sugar.....	466
Wheat	474
Intensive Wheat Management	483
Summary.....	485
Review.....	486
Knowledge Applied	486
Resources	487

Chapter 21: Cereal Grains, Forage Grasses, and Oil Seeds 489

Key Terms	490
Growing Small Grain	491
Barley	495
Oats.....	497
Rice	498
Rye	501
Sorghum	503
Spelt	504
Triticale	505
Weed Control for Small Grains	506
Wild Rice	506
Buckwheat.....	508
Forage Grasses	510
Managing Forage Crops	518
Till and Minimum-Till Seeding	521
Oil Seed Crops	523
Summary.....	530
Review.....	531
Knowledge Applied	531
Resources	532

Chapter 22: Food Legumes and Forage Legumes 534

Key Terms	535
Beans.....	536
Peas.....	540
Peanuts	545

Forage Legumes.....	556
Alfalfa.....	558
Red Clover.....	563
Bird's-foot Trefoil.....	564
White Clover.....	565
Alsike Clover.....	565
Annual Lespedeza.....	565
Managing Forages.....	566
Summary.....	571
Review.....	572
Knowledge Applied.....	572
Resources.....	573
Chapter 23: Vegetables.....	575
Key Terms.....	576
Scope of Vegetable Production.....	577
Categorizing Vegetables.....	577
Steps in Vegetable Production.....	582
Site Preparation.....	583
Planting Vegetables.....	586
Cultural Practices.....	587
Harvesting.....	590
Storing.....	592
Some Common Hand Tools.....	594
Herbs.....	595
Summary.....	598
Review.....	599
Knowledge Applied.....	599
Resources.....	600
Chapter 24: Small Fruits.....	602
Key Terms.....	603
Grapes.....	604
Strawberry.....	609
Blueberry.....	615
Raspberry.....	617
Blackberry.....	620
Currant and Gooseberry.....	622
Pruning Tools.....	623
Summary.....	625
Review.....	626
Knowledge Applied.....	627
Resources.....	627
Chapter 25: Fruit and Nut Production.....	629
Key Terms.....	630
Fruit and Nut Production Business.....	631
Types of Fruits and Nuts.....	632
Selecting Fruit or Nut Trees.....	633
Site and Soil Preparation.....	639
