authors.....	xxi

1 important biological features	1
introduction	1
taxonomy	2
Geographical Distribution.....	4
Common Terms Used to Group Nonhuman Primates	4
distinguishing features of New World monkeys	5
distinguishing features of Old World monkeys	7
New World monkeys commonly used in research	9
Callitrichids.....	9
Common or tufted marmoset.....	11
Cotton-top tamarin	12
Noncallitrichid New World Monkeys	14
Squirrel monkeys	15
Owl monkeys.....	17
Old World monkeys commonly used in research	18
Macaques	18
Rhesus macaque	19
Cynomolgus macaque	22
Baboons	23
Savanna baboons.....	25
African Green Monkeys.....	27
African green monkeys.....	28
functional morphology.....	30

Sexual Dimorphism.....	30
Skull and Brain.....	30
Back and Spine.....	31
Limb Morphology.....	32
Hand and Foot Morphology.....	33
Digestive System.....	33
Perineum.....	34
Reproduction/Placentation/Growth and Development.....	35
nonhuman primate sensory considerations.....	35
Vision.....	35
Smell and Taste.....	36
Hearing.....	36
Touch.....	36
social structure.....	37
Evolution of Social Living.....	37
Nonhuman Primate Social Structures.....	38
Solitary female and offspring.....	38
Monogamous.....	38
Single-male/multi-female groups.....	38
Multi-male/multi-female groups.....	38
Fission-fusion communities.....	39
communication.....	39
Scents.....	40
Vocalization.....	40
Allogrooming/Tactile Communication.....	41
Visual Signals: Facial and Postural Communication.....	42
aggressive and submissive behaviors.....	45
Aggressive Behaviors.....	45
Species-Specific Behaviors of Aggression or Dominance.....	46
Submissive Behaviors.....	46
normative reference values.....	47
General Biological and Physiological Parameters.....	47
Hematological Reference Values.....	50
Clinical Chemistry Reference Values.....	53
Blood Coagulation Values.....	58
Blood Gas Analysis.....	59
Tooth Eruption Times.....	59
reproductive biology.....	62
Sex Determination.....	63
Reproductive Cycle.....	65
Sex Skin.....	68
Breeding Systems.....	69

Pregnancy Diagnosis	71
Parturition.....	72
Postnatal Development.....	76
references	77

2 husbandry.....	87
introduction	87
general housing and environmental considerations	88
Facility Design Features.....	88
Room Design Features	90
Housing Systems	92
Housing to allow postural and locomotor expression	94
Sheltered or outdoor housing.....	94
Space requirements.....	96
Environmental Conditions	98
Temperature and humidity.....	98
Ventilation and air quality.....	98
Illumination	99
Noise.....	99
environmental enrichment	100
Nonnutritive Enrichment	101
Nutritive Enrichment	103
behavioral and social management.....	105
Social Environment	106
Pair housing.....	106
Group housing	107
Identification of compatibility	108
Adjuncts to social housing	110
Procedural Habituation and Training of Animals.....	112
husbandry.....	113
Food	113
Novel Foods and Foraging Treats	115
Water	117
Bedding/Substrate	118
Sanitation.....	118
Equipment in Animal Housing Rooms.....	120
Waste Disposal	120
Pest Control	121
Emergency, Weekend, and Holiday Care	121
population management.....	122
Permanent Methods of Identification	122

Temporary Methods of Identification	123
recordkeeping.....	124
Individual Animal Medical Records.....	125
Group/Colony/Breeding Records.....	125
Records of Sedation, Anesthesia, and Perioperative Care.....	126
Experimentally Induced Disease/Research Records.....	126
Institutional Recordkeeping	127
transportation.....	127
Shipping Crates	129
Health Certificates	130
Certificates of Acquisition, Disposition, and Transport.....	131
Certificates of Acclimation	131
references	132
3 management.....	137
introduction	137
regulatory and accrediting agencies.....	137
U.S. Department of Agriculture.....	137
Public Health Service.....	138
Food and Drug Administration and the Environmental Protection Agency	140
Centers for Disease Control and Prevention	140
U.S. Fish and Wildlife Service	142
AAALAC International	143
institutional animal care and use committee.....	143
occupational health and safety.....	146
Training	148
Safe Work Practices	148
Personal Protective Equipment.....	149
Physical Injuries	150
<i>Macacine herpesvirus 1</i> (B virus) Exposure	150
Allergic Reactions	154
Experimental Hazards	154
zoonoses.....	154
<i>Macacine herpesvirus 1</i> (B virus)	155
Tuberculosis	158
Bacterial Agents of Gastrointestinal Origin	159
Protozoal Agents of Gastrointestinal Origin.....	160
references	161

4	veterinary care.....	165
	preventative health program.....	165
	Sources	165
	Quarantine.....	166
	Quarantine facilities	166
	Quarantine husbandry practices.....	167
	Duration of quarantine	168
	Quarantine health surveillance.....	168
	Conditioned Colony Health Surveillance	169
	Daily observations.....	170
	Physical examination	170
	Tuberculin skin testing	172
	Adjunct tuberculosis screening tests	174
	Body weight and body condition assessment	175
	Immunization	175
	Separation of Species.....	176
	clinical management	176
	Basic Veterinary Supplies	176
	Clinical Signs of Illness in Nonhuman Primates	178
	Nutritional Support.....	178
	Therapeutic Agents	179
	common clinical problems	179
	Viral Diseases.....	181
	Measles	181
	Simian varicella	182
	<i>Simiirine herpesvirus 1</i> and <i>Human herpesvirus 1</i>	183
	Bacterial Diseases	184
	Tuberculosis.....	184
	Pneumonia.....	185
	Bloody nose syndrome.....	186
	Diarrhea	187
	Dermatitis.....	188
	Parasitic Diseases.....	190
	Gastrointestinal protozoal agents.....	190
	Gastrointestinal nematodes.....	190
	Behavioral Conditions.....	191
	Stereotypic behavior	191
	Self-injurious behavior	192
	Stress-induced diarrhea.....	193
	Alopecia	193
	Dental Care	194

Examination of the oral cavity.....	194
Gingivitis and periodontitis	195
Dental prophylaxis.....	196
Pulp exposure/tooth abscess.....	198
Reproductive Conditions	198
Endometriosis	198
Dystocia	199
Miscellaneous Conditions	200
Traumatic injuries	200
Obesity and diabetes mellitus	201
Hypothermia	202
Hypoglycemia.....	203
Acute gastric dilatation/bloat.....	204
anesthesia and analgesia	205
General Principles.....	205
Definitions	205
Stages of general anesthesia.....	206
Characteristics of anesthesia.....	207
Anesthetic Management.....	208
Anesthetic selection	208
Patient care prior to anesthesia.....	209
Patient care during anesthesia	210
Patient monitoring.....	212
Recordkeeping.....	214
Patient care following anesthesia.....	214
Anesthetic Agents	215
Preanesthetic agents	215
Intramuscular anesthetics	216
Intravenous anesthetics	217
Inhalant anesthetics	218
Analgesic Agents.....	219
Opioids.....	219
Nonsteroidal anti-inflammatory agents.....	220
Local anesthetics	221
endotracheal intubation	222
aseptic surgery.....	225
Functional Areas/Equipment.....	225
Personnel.....	226
Surgeon and assistant.....	226
Person administering anesthesia.....	227
Circulating personnel.....	227
Preoperative Preparation.....	227

Surgical Sterilization Methods	228
Operating Room Procedures	230
Aseptic technique.....	230
Intraoperative monitoring.....	231
Postoperative Care	231
Signs of pain.....	232
Postoperative records	232
Euthanasia.....	233
references.....	233

5 experimental methodology.....	245
introduction	245
restraint.....	245
Physical Restraint Methods.....	246
Squeeze-back cages.....	246
Transfer chutes and cages.....	249
Nets	251
Pole and collar restraint system	252
Restraint stocks and tubes.....	255
Restraint chairs	256
Tether system.....	258
Manual restraint.....	260
Chemical Restraint Methods	263
operant conditioning and training methods.....	264
sampling techniques	265
Blood Collection.....	265
Blood collection sites	267
Urine Collection	272
Free-catch method	272
Urethral catheterization	273
Cystocentesis	275
Bone Marrow Aspiration and Biopsy	277
Cerebrospinal Fluid Collection	281
Lumbar puncture.....	282
Cisternal puncture.....	284
Bronchoalveolar Lavage	285
Rectal Biopsy.....	288
Semen Collection	290
Amniotic Fluid Collection.....	290
compound administration	292
Parenteral Administration Methods	293

Intravenous administration.....	293
Intramuscular administration.....	297
Subcutaneous administration.....	298
Intradermal administration.....	299
Vascular access port (VAP).....	300
Osmotic pumps.....	303
Oral Administration Methods.....	304
Self-administration.....	304
Orogastric and nasogastric gavage.....	305
Orogastric gavage of capsules or tablets.....	308
miscellaneous procedures.....	310
Bimanual Rectal Palpation.....	310
Necropsy.....	311
references.....	314
6 resources.....	321
introduction.....	321
organizations and information resources.....	321
publications.....	326
Books.....	326
Periodicals.....	328
electronic resources.....	328
primate sources.....	330
Commercial Sources of Nonhuman Primates.....	331
nonhuman primate transportation resources.....	333
nonhuman primate transportation services.....	333
laboratory services.....	334
Genetic Analysis.....	334
Infectious Agent Testing.....	335
Adjunct Testing for Tuberculosis.....	335
feed.....	336
equipment and supplies.....	337
Caging Equipment.....	337
Capture/Blow Dart Systems.....	338
Drug Delivery Systems.....	338
Osmotic pumps.....	338
Tether systems (jackets and swivels).....	338
Vascular access supplies.....	339
Environmental Enrichment.....	339
Restraint Systems.....	340

Restraint chairs	340
Restraint equipment (leather gloves, nets, poles, collars, and boxes)	340
Sanitation Supplies.....	340
veterinary equipment and supplies.....	341
Anesthesia Equipment	341
General Veterinary and Surgical Supplies.....	341
Necropsy Equipment	341
Syringes, Needles, and Catheters.....	342
national primate research centers	342
California National Primate Research Center	343
Oregon National Primate Research Center	343
Southwest National Primate Research Center	343
Tulane National Primate Research Center	344
Washington National Primate Research Center	344
Wisconsin National Primate Research Center.....	345
Yerkes National Primate Research Center.....	345
other primate research centers	346
Caribbean Primate Research Center	346
Duke Lemur Center	346
University of Oklahoma Health Sciences Center Baboon Research Resources	346
Squirrel and Owl Monkey Breeding and Research Resource.....	346
Vervet Research Colony.....	347
equivalents and conversions	347
index.....	349
