

Contents

Foreword / ix

Preface / xi

Organization and Use of the Book / xiv

1 General Account of the Nidulariaceae / 3

A / Introduction and general structure / 3

B / Dispersal / 7

C / Nuclear behaviour / 10

D / Other aspects of bird's nest fungi / 10

2 Brief Historical Outline / 14

A / Early studies / 14

B / Unravelling of the dispersal problem / 17

C / Recent studies / 20

D / Conclusion / 22

3 Basidiospore Form, Development, and Germination / 23

A / Form and structure / 23

B / Development / 25

C / Germination / 26

D / Germ tubes and germlings / 29

4 Characteristics and Interactions of Homokaryotic Mycelia / 32

A / Characteristics / 32

B / Nutritional requirements / 36

C / Mycelial interactions / 37

5 Heterokaryotic Mycelium and Fruit Body Formation / 44

A / Characteristics of heterokaryotic mycelium / 44

B / Formation of sporocarps / 46

C / Conditions known to affect fruiting / 47

D / Early signs of fruiting / 52

E / Opening of mature sporocarps / 52

F / Orientation of sporocarps / 57

G / Irregular fruiting / 58

H / Variation in form of sporocarps / 61

I / Details of sporocarp development / 63

6 Morphology and Behaviour of Nuclei / 71

7 The Fruit Body as a Spore Dispersal Mechanism / 80

A / The mechanism / 80

B / The funiculus / 80

C / The wall of the fruit body / 88

D / Shape of fruit body and angle of its sides / 88

E / Plications and setae / 89

F / Position of fruit body / 90

G / Surface and arrangement of peridioles / 91

8 Experiments on Splash Dispersal of Peridioles / 93

A / The germ of the idea / 93

B / The experiments / 94

9 Occurrence, Distribution, and Ecology / 101

A / General / 101

B / Occurrence / 101

C / Distribution and ecology / 109

- 10 Miscellaneous Observations and Notes / 119
 - A / Ingestion of bird's nest fungi by humans / 119
 - B / Some metabolites of *Cyathus* / 120
 - C / Rain-splash dispersal in other plants / 122
 - D / Other cupulate fruit bodies and some thoughts on evolution / 123
- 11 Review of Taxonomic Characters / 126
 - A / Introduction / 126
 - B / Macroscopic characteristics / 127
 - C / Microscopic characteristics / 129
- 12 The Genera *Nidularia* and *Mycocalia* / 133
 - A / Distinction between the two genera / 133
 - B / The genus *Nidularia* / 133
 - C / The genus *Mycocalia* / 137
 - D / Notes on doubtful species of *Nidularia* / 140
- 13 The Genera *Nidula* and *Crucibulum* / 142
 - A / *Nidula* / 142
 - B / The genus *Crucibulum* / 147
- 14 The Genus *Cyathus* / 150
 - A / The genus / 150
 - B / The groups of *Cyathus* / 150
 - C / *Cyathus* species and synonyms listed alphabetically / 151
 - D / Species descriptions by groups / 154
 - E / Doubtful species / 180

Nidulariana / 182

Selected Bibliography / 188

Glossary / 193

Index / 195
