Part I

Introduction

Chapter 1 Introduction to Plant Propagation.....	3
<i>Caula A. Beyl and Robert N. Trigiano</i>	

Part II

Botanical Basics

Chapter 2 A Brief Introduction to Plant Anatomy and Morphology.....	15
<i>Robert N. Trigiano, Jennifer A. Franklin, and Dennis J. Gray</i>	
Chapter 3 Plant Physiology Concepts Important for Propagation Success.....	29
<i>Caula A. Beyl and Govind C. Sharma</i>	
Chapter 4 Plant Growth Substances Used in Propagation.....	47
<i>Caula A. Beyl, David W. Burger, and Zong-Ming Cheng</i>	
Chapter 5 Sexual Reproduction and Breeding.....	65
<i>Timothy A. Rinehart, Robert N. Trigiano, Phillip A. Wadl, and Haley S. Smith</i>	
Chapter 6 Juvenility and Its Effect on Macropropagation and Micropropagation.....	85
<i>Caula A. Beyl</i>	
Chapter 7 Chimeras.....	95
<i>Robert M. Skirvin and Margaret A. Norton</i>	

Part III

Plant Propagation Structures, Media, and Containers

Chapter 8 Propagation Structures: Types and Management.....	109
<i>Gerald L. Klingaman</i>	
Chapter 9 Intermittent Mist Control for Plant Propagation.....	123
<i>David W. Burger</i>	

Chapter 10 Substrates and Containers for Seed and Cutting Propagation and Transplanting	127
<i>Neil S. Mattson and Amy Fulcher</i>	

Part IV

Plant Propagation Diseases and the Importance of Sanitation

Chapter 11 Disease Management.....	147
<i>Alan S. Windham</i>	

Chapter 12 Botrytis and Other Propagation Pathogens	159
<i>Mark P. McQuilken</i>	

Chapter 13 Disinfestation of Soil and Planting Media	167
<i>James J. Stapleton</i>	

Chapter 14 Crop Certification Programs and the Production of Specific Pathogen-Free Plants	171
<i>Danielle J. Donnelly and Adam Dale</i>	

Chapter 15 Building a Plant Propagator's Integrated Pest Management Toolkit	183
<i>William E. Klingeman</i>	

Part V

Evaluation of Propagated Plants

Chapter 16 Evaluation of Data from Propagation Experiments	203
<i>Michael E. Compton</i>	

Part VI

Propagation by Stem Cuttings

Chapter 17 Cloning Plants by Rooting Stem Cuttings.....	219
<i>John M. Ruter</i>	

Chapter 18 Adventitious Rooting of Woody and Herbaceous Plants	231
<i>Lori D. Osburn, Zong-Ming Cheng, and Robert N. Trigiano</i>	

Chapter 19 Long Cuttings: A Novel Method to Propagate Woody Plants	241
<i>Wolfgang Spethmann</i>	

Chapter 20 Rooting Cuttings of Tropical Plants.....	247
<i>Richard A. Criley</i>	

Part VII**Propagation by Leaf and Root Cuttings**

Chapter 21 Adventitious Shoot and Root Formation on Leaf and Root Cuttings	263
--	-----

Caula A. Beryl

Chapter 22 Propagation by Leaf Cuttings	275
---	-----

John L. Griffis, Jr. and Malcom M. Manners

Chapter 23 Propagation by Root Cuttings	283
---	-----

Paul E. Read

Part VIII**Layering**

Chapter 24 Layering	289
---------------------------	-----

Brian Maynard

Part IX**Grafting and Budding**

Chapter 25 Grafting: Theory and Practice	301
--	-----

Kenneth W. Mudge

Chapter 26 Grafting and Budding with Woody and Herbaceous Species	323
---	-----

Garry V. McDonald

Chapter 27 Grafting with Vegetable Plants	329
---	-----

Chieri Kubota

Part X**Bulbs and Plants with Special Structures**

Chapter 28 Storage Organs	343
---------------------------------	-----

Jeffrey A. Adkins and William B. Miller

Chapter 29 Propagating Selected Flower Bulb Species	349
---	-----

William B. Miller, Jeffrey A. Adkins, and John E. Preece

Part XI**Micropropagation**

Chapter 30 Micropropagation	359
-----------------------------------	-----

Michael E. Kane, Philip J. Kauth, and Scott L. Stewart

Chapter 31 Getting Started with Tissue Culture: Media Preparation, Sterile Technique, and Laboratory Equipment ...	371
<i>Caula A. Beyl</i>	
Chapter 32 Micropropagation of Mint	385
<i>Sherry L. Kitto</i>	
Chapter 33 Micropropagation of Tropical Root and Tuber Crops	395
<i>Leopold M. Nyochembeng</i>	
Chapter 34 Micropropagation of Woody Plants	405
<i>Robert R. Tripepi</i>	
Part XII	
Seed Production and Propagation	
Chapter 35 Seed Production, Processing, and Analysis	419
<i>J. Kim Pittcock</i>	
Chapter 36 Practices to Promote Seed Germination	427
<i>Caula A. Beyl</i>	
Chapter 37 Producing Seedlings and Bedding Plants	439
<i>Holly L. Scoggins</i>	
Part XIII	
In Conclusion: Special Topics	
Chapter 38 Myths of Plant Propagation	453
<i>Jeffrey H. Gillman</i>	
Chapter 39 Intellectual Property Protection for Plants	459
<i>Christopher Eisenschenk</i>	
Chapter 40 Molecular Biology and the Future of Plant Propagation	469
<i>Govind C. Sharma, Manan Sharma, and Caula A. Beyl</i>	
Index	481
