Series Preface	ix
Foreword: Britton Chance—Appreciation	xi
Preface	xvii
Editors	xix
Contributors	xxi
Abbreviations	xxiii

SECTION I Biochemical, Biological, and Biophysical Background

- 1 Mitochondria and Energy Metabolism: Networks, Mechanisms, and Control 3
Ilmo E. Hassinen
- 2 Intracellular Autofluorescent Species: Structure, Spectroscopy, and Photophysics 41
Nobuhiro Ohta and Takakazu Nakabayashi

SECTION II Autofluorescence Imaging Techniques: Fundamentals and Applications

- 3 One-Photon Autofluorescence Microscopy 67
Narasimhan Rajaram and Nirmala Ramanujam
- 4 Autofluorescence Lifetime Imaging 77
Michael G. Nichols, Kristina Ward, Lyandysha V. Zholudeva, Heather Jensen Smith, and Richard Hallworth
- 5 Polarization Imaging of Cellular Autofluorescence 107
Harshad D. Vishwasrao, Qianru Yu, Kuravi Hewawasam, and Ahmed A. Heikal
- 6 Real-Time In Vivo Monitoring of Cellular Energy Metabolism 137
Avraham Mayevsky and Efrat Barbiro-Michaely

- 7 Tryptophan as an Alternative Biomarker for Cellular Energy Metabolism157
Vinod Jyothikumar, Yuansheng Sun, and Ammasi Periasamy
- 8 Alternative Approaches to Optical Sensing of the Redox State.....179
Yi Yang

SECTION III Natural Biomarkers for Biochemical and Biological Studies

- 9 Spatiotemporal Detection of NADH-Linked Enzyme Activities in Single Cell Metabolism..... 201
V. Krishnan Ramanujan
- 10 NAD(P)H and FAD as Biomarkers for Programmed Cell Death.....215
Hsing-Wen Wang
- 11 Monitoring Stem Cell Differentiation in Engineered Tissues 225
Kyle P. Quinn and Irene Georgakoudi

SECTION IV Autofluorescence as a Diagnostic Tool in Medicine and Health

- 12 Autofluorescence-Assisted Examination of Cardiovascular System Physiology and Pathology..... 245
Alzbeta Marcek Chorvatova
- 13 Autofluorescence Perspective of Cancer Diagnostics 273
Lin Z. Li and Nannan Sun
- 14 Dynamic Imaging of Intracellular Coenzyme Autofluorescence in Intact Pancreatic Islets..... 299
Alan K. Lam and Jonathan V. Rocheleau
- 15 Autofluorescence Diagnostics of Ophthalmic Diseases317
Dietrich Schweitzer
- 16 Pathogen Effects on Energy Metabolism in Host Cells 347
Márta Szaszák and Jan Rupp
- Index**373
